I added a few edits and included the two attachments, does this look good enough to sign and send to Gerald?

Also with the other sites we discussed (dry cleaners) am I only sending out information requests or am I also doing the checklist?

Hi Ximena,

I made some edits and comments in the information request letter. See what you think and get the letter out the door (don't forget the two attachments: aerials and site summery).

Nice job. It's a unique one. I'll take a look at screening next but it is not time critical since we have to wait for response to information request letter.

Thanks,
Katie

Hey Katie,

I gave the prescreening checklist and the information request letter a shot. I am still confused on how to add more information in the cercla prescreening as all the examples I reviewed have a lot of information and I feel like what I wrote is too short. Should I set up a meeting to talk this through and include Ray? Also I added two comments/questions to the info request.
