Hi Jeff,

We wrapped up excavating the target areas today that weren't impeded by active utility lines. Tomorrow they're focusing on backfilling the excavation area. I may pop out if I have time early next week to take a look at the progress and snap a few photos but we're past the heavy lift. It's not clean but it's "cleaner" than when we began.

Thanks for your willingness to join me onsite. Have a good evening.

Cheers,
Kara Master
