Thanks, Jeff. Your responses are really helpful in putting expectations into perspective for report reviews of this type. I'd like to touch base at 3 pm for the Section 5 comments, if you're available.
As to the last bullet regarding reviewing the tables w/ lab data… I did a quick review of their tables and noticed B-7 and SW-17 listed twice in Table 3, but no note as to if one is a dupe sample or why the results differ. And I couldn't figure it out from the Pace lab report or chain of custody. I added it as a comment on the Tables PDF for them to clarify.

Hi Kara-
I have inserted some thoughts into your Word document. For the questions about Section 5, maybe it's better to have a "regular" cell phone conversation as I have been unable to get the headset microphone to work.
My cell phone number is 503-863-0810. Let me know when you want to talk.
Jeff
