## **Regular Agenda**

Building Official Gray reviewed staff's recommendation to uphold the decision of the Systems Development Review Board to charge a \$12,392.60 Systems Development Charge for the requested expansion of the business located at 604 Railroad Street.

Mayor Anderson generally stated that he felt a workshop was needed to discuss the process being used to determine business use and type as it relates to the application of System Development Charges and asked the applicant if they would like to wait for a decision until after the workshop was conducted.

Noah Bruce, PO Box 61, and Cindy Thomas, PO Box 4331, the applicant and owner of the Health Food Shop, requested the opportunity to speak briefly to the issue, and generally stated that they felt that the proposed changes were minor and did not justify the application of additional charges.

After some discussion, Council and the applicant mutually agreed that a decision on this issue would be postponed until after the workshop.

City Manager Milliman reviewed the request by local growers to hold a Wednesday, Farmer's Market on City property.

Joyce Tromblee, 825 Midland, discussed the proposal and addressed Council's concerns, a particular concern of which was the apparent lack of agreement by Dr. Rush and a few of the other business owners who might be impacted by the market. Tromblee generally stated that her statement of support for the market had been distributed to all businesses in the immediate area but not all businesses had signed or returned it.

Tim Patterson, 621 Chetco, said that he was in favor of the market, but expressed concern that the agreement with Dr. Rush for the public's use of his parking area could be placed in jeopardy if Dr. Rush did not sign off in support of the market.

Peter Mitchell, PO Box 1666, generally stated that the market would be similar to that held at Caldwell Bank, and was especially important to local growers, who need a local venue to sell their produce, as well as the elderly, many of whom have limited means of travel and are the market's primary buyers. Mitchell also stated that time was of the essence in determining the market's local, as the season was well underway.

After some discussion, Council generally agreed that a more comprehensive buy-in from surrounding businesses was needed, and in particular, written support of the proposed market from Dr. Rush and Dr. Walker.

**Councilor Hedenskog moved, a second followed and Council voted unanimously to authorize the City Manager to execute an operating agreement contingent upon written consent from the other merchants, and specifically the eye center, and that staff review the parking agreement with the eye center to determine if there was a conflict.**
