#### 2. Oceanview Mobile Estates.

City Manager Lynn Stuart presented a briefing to the City Council regarding the sewer line connection request from Oceanview Mobile Estates.

Following his presentation, Mr. Bill Cunningham spoke in objection to the proposed connection of the Oceanview Mobile Estates Subdivision to the City's wastewater treatment facility, expressing concern over the plant's treatment capacity.

Mr. Doug Ogden, representing the owners of the trailer park, made a brief statement expressing his desire to connect the facility to the City's wastewater treatment plant.

Councilman Batty indicated that, while he was sympathetic with the request, he felt as though it was not a function of the City of Brookings to expend taxpayers' dollars to resolve the problem. He indicated that the same options available to the City are available to the developer and he would suggest that the developer pursue these courses of action at his expense rather than at the expense of the City.

Councilman  $L_0$ vejoy expressed concerns over totally closing the door on the Oceanview Mobile Estates project.

The following options were outlined by the City Manager as being potential options available to the City Council:

#### **Options**

- (a) Deny request
- (b) Deny request with potential for reopening when Park owner addresses:
  - (1) Formation of Sanitary District
  - (2) Construction of additional treatment plant

  - (5) Temporary connection be metered w/owner paying City and Harbor Sanitary District. Sharing in proportionate revenues.
  - (6) Specific schedule be set and followed
  - (7) All out-of-pocket costs to Brookings and Harbor Sanitary District
- (c) Approve as presented
- (d) Approve with conditions (see (b))
- (e) Any combination of the above
- (f) None of the above

Councilman Batty again expressed his concerns to ensure services to the residents of the City of Brookings and with that understanding made the MOTION to deny the request, motion seconded by Councilman Nidiffer; roll call vote, motion carried 4 to 1, Councilman Lovejoy discenting.

City Manager Lynn Stuart outlined for the City Council the progress being made in the infiltration and inflow area of our wastewater facility. At this juncture the majority of the work being conducted to repair leaking manholes has been completed, the remaining work to be done in the area of cleanouts and deteriorated laterals will require private citizens' involvement since the deteriorated lines and cleanouts are located on private property.

Mr. Stuart indicated that the engineer's estimate for these repairs outlined in the 1979 Report was approximately \$12,000.00, total expenditures to do the repairs to date totalled less than \$3,000.00.
