

ORDINANCE NO. 379

AN ORDINANCE CREATING A FEE TO BE CHARGED TO PROPERTIES CONTRIBUTING TO INFILTRATION AND INFLOW PROBLEMS OF THE CITY OF BROOKINGS.

WHEREAS, the City of Brookings Wastewater Treatment Facility is being overloaded by connections of both infiltration and inflow from storm waters; and

WHEREAS, engineering reports have identified specific locations of these contributors; and

WHEREAS, the City of Brookings has corrected the majority of problems situated within the public right-of-way; and

WHEREAS, private properties still exist that contribute to the infiltration and inflow problems;

NOW, THEREFORE, THE CITY OF BROOKINGS ORDAINS AS FOLLOWS:

Section 1. That all property owners identified by the office of City Manager as contributors and those identified by the engineering report known as 'City of Brookings Infiltration and Inflow Study' dated March, 1979, be advised of their infiltration and inflow problems.

Section 2. That all such situated properties be provided a 60-day grace period in which to correct the infiltration and inflow problems as identified. Said 60-day period to extend from the date of notification of this ordinance.

Section 3. That by the end of the 60-day grace period, each property shall notify the City Administrative Offices that corrective actions have been taken or are in progress.

Section 4. That anyone failing to notify the City of corrective actions prior to the end of the 60-day grace period, will be billed on a monthly basis at the rate of \$25 per month.

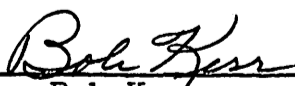

Section 5. It is hereby determined that it is in the interest of public welfare, peace and safety of the City of Brookings that this ordinance be immediately adopted because of the negative impact of infiltration and inflow on the City's Wastewater Treatment Facility and therefore an emergency is declared to exist, and that this ordinance shall be in full force and effect from and after the date of its passage.
