## ORDINANCE NO. 428

. . . . .

AN ORDINANCE RELATING TO WATER SERVICE CONNECTIONS AND INSTALLATION COSTS; REPEALING ORDINANCE NUMBER 402; AND DECLARING AN EMERGENCY.

MATEU

WHEREAS, The water service connection charges currently being made in the City of Canby, and as fixed by Ordinance No. 402 adopted by the Canby City Council May 20, 1957, are unequal and the total charges for any such connections cannot be determined in advance under the present system thereby creating hardships in many cases; and the City Council has determined that fixed charges should be established for the commonly used meter sizes, NOW THEREFORE,

## THE CITY OF CANBY ORDAINS AS FOLLOWS:

Section 1: All residents of the City of Canby who apply for city water service after the effective date of this Ordinance shall be charged the following sums which shall be in full for all costs of the water service connections, and including though not exclusively the costs of meter, meter box, pipe, pipe fittings, and the labor necessary for installing the same, and including also the labor of any ditch digging dane by the City. The charges to be made shall apply to each separate meter, and shall be as follows:

Section 2: The charges to be made as provided for in the foregoing paragraph shall be paid in full to the City Recorder at the time application is filed for a water service connection. All applications shall be filed with the City Recorder on forms prepared by the City Superintendant or City Engineer as the case may be, and no application for water service shall be approved untill the charges have been paid. Applications shall be signed by the property owner desiring the water service, his building contractor, or other authorized representative, and all such applications shall be approved by the City Superintendant or City Engineer before

-1-

any work is commenced to make connections to the City's water mains.

Section 3: After the effective date of this Ordinance all residents of the City who apply for water service through any meter larger than a one inch (1") meter shall be charged by the City the actual costs for the water service connections made, including the cost of meter, meter box, pipe, pipe fittings and the labor necessary for installing the same, and including also the labor of any ditch digging. In computing charges for water service installations for water meters larger than one inch, the City's actual cost for the material used, not diminished by any rebates from suppliers or payment discounts, shall be the material cost billed to the water user and the labor charge shall be the then current wage scale paid to the City's water department employees who engage in making the connection multiplied by the total number of man hours actually spent on each particular project.

Section 4: All water service installations shall be made by the City of Canby under the supervision of the City Superintendant or City Engineer, as the case may be; provided however that the City may let a contract for such work and material. The City shall not be responsible for digging ditches which shall extend a greater distance than  $\underline{75}$  feet from the City's water main, and in such cases the property owner shall be responsible for digging that part of any required ditch which extends beyond such distance, and the same shall conform to all requirements imposed by the City Superintendant or City Engineer, as the case may be, and shall be first approved by such official before connection is made to the water mains.

Section 5: All material used by the City in making a water service connection, including meter, meter boxes, pipe, pipe fittings and other materials of whatsoever nature and kind

-2-

shall remain the property of the City of Canby; and any applicant for City water shall make and file with the City Recorder an easement for water service purposes if the same be necessary, and the same shall be a condition precedent to furnishing water by the City.

Section 6: In all cases where connections to the City's water supply are to be made for meters larger than one inch an estimate of the charges shall be made by the City Superintendant or City Engineer immediately upon the filing of the application for such service, and such estimated charge shall be paid to the City Recorder before work is commenced. Each applicant in such cases shall be furnished with an itemized statement for all costs incurred by the City in making such connections to the City's water mains, and as provided in the foregoing Section 3. Such statement of costs shall be furnished the water user immediately upon completion of the connection work, and any over charge previously collected by the City shall be remitted forthwith without interest and any undercharge shall be paid immediately by the water user, and failure to pay the same within ten (10) days from the date of billing by the City shall be justification for the City to disconnect such water user from the City's water supply and until full payment of all costs have been made.

<u>Section 7:</u> Ordinance No. 402, adopted by the Canby City Council May 20th, 1957, is hereby repealed and all other Ordinances or parts of Ordinances in conflict herewith are also repealed.

Section 8: It being deemed by the City Council for the City of Canby that an emergency exists, this Ordinance shall take effect immediately upon its final passage and approval by the Mayor.

Passed on first reading at a regular meeting of the Canby City Council this 5th day of October, 1959; Ordered published

-3-

at full length for a period of two (2) consecutive weeks as provided by the Canby City Charter, and to come up for final reading and action at a regular meeting of said Council to be held on the 2nd day of November, 1959 at 8:00 o'clock P.M., Oregon Standard Time, in the Canby City Hall.
