Petition to save the trees on N. Juniper St.

Petitioner: Mary Rock, 625 N Juniper, Canby OR

Petition summary and background	The new road improvements on N. Juniper St., which includes installing new sidewalks on both sides of the street threaten and possibly remove 3 45 ft. ornamental trees and several small ornamental shrubs in front of my house, planted in 1993. These trees provide an esthetic view from the street, privacy for my home, oxygen for the environment, sound barrier from the road, and a home to many birds and wildlife, including squirrels, raccoons, and sometimes wild turkeys. I have been a homeowner since 1993 and don't want to lose the ambience that my trees provide, nor the property value from curb appeal. A narrower sidewalk, (curb only with a crosswalk), would save these trees and construction costs would be lower, resulting in lower property taxes for residents on N. Juniper.
Action petitioned for	We, the undersigned, are concerned citizens who urge our leaders to act now to save the trees, environment, and wildlife habitat.

Wednesday evening the Council will be reviewing the profile for the City Administrator recruitment. I've put together some comparable salary information so you would have it available for consideration. Most of the information was taken from the survey another city conducted in March. I updated it with some additional information for cities with a population comparable to Canby. Please let me know if you have any questions. Thanks,
