

Regular Monthly Meeting  
Tuesday, Sept. 7-1954

The City Council met in regular monthly session on Tuesday, Sept. 7, the first Monday having fallen on a holiday. Called to order at 8.45 P.M.

Present: Mayor Eversole, Atty. Bettis, City Engineer Tatone, Fire Chief Christiansen, the Recorder and Councilmen Anderson, Beck, Hill, Hulbert, Johnson and Kraft.

The minutes of the previous regular meeting of August 2 were read and approved.

The regular order of business was then suspended in order to take up matters of a special nature that required attention, and to enable those presenting same to leave early, if they so desired.

Whereupon Mr. Ted Kent, who had been employed to audit the City books, proceeded to read his report, covering the period for the fiscal year ending June 30, 1954.

Mr. Kent stated that he found in general a satisfactory condition and made few recommendations for improvement of the system.

Fire Chief Christiansen then introduced Frank Williams, radio expert, who would explain about the base radio station to be installed in the new fire hall.

The station will be hooked up with a county-wide net work and must have a license from the Federal Communications Commission, in the City's name.

It was then moved by Hill seconded by Kraft and carried, that Mr. Williams and the Fire Chief be authorized to proceed with the installation, order the equipment and get the necessary license application to be signed by the proper officials, the City and Rural Fire District to each assume one-half ownership and expense.

Mayor Eversole then asked Engineer Jim Howland to tell the Council about the proposed changes in the sewer installation, to be voted on at the November election.

Mr. Howland exhibited a map and explained extensions of the laterals, which would add approximately  $1\frac{1}{2}$  miles of sewers to the original plan.

It was then moved by Hill, seconded by Johnson, that Atty. Bettis be requested to take the necessary steps for presenting the sewer matter to the voters at the November 2 election. On roll call, Yeas 5, nays 1. Councilman voting "No" Beck.

Mr. Howland then reported on his investigation of Canby's water situation, which he had been working on practically all summer.

The sum and substance of his studies was that Canby needed a storage reservoir as well as an increased supply of water. He recommended that the City plan to build a reservoir on high ground above the Molalla river and probably install another well.

#### Communications

Letter from the Planning Commission suggesting and recommending certain street changes as discussed in their meeting of August 17, 1954. (see files)

The Recorder then read a communication from Police Officer Joe McCormick, asking the Council to accept his resignation as of September 15, or as soon as possible thereafter.

Whereupon it was moved by Hill, seconded by Kraft and carried that the resignation be accepted to go into effect as soon as a replacement can be made.

#### ORDINANCES

Ordinance No. 380, being an Initiative and Referendum ordinance was read by Atty. Bettis, passed on its first reading, ordered posted in three separate and conspicuous places in Canby and to come up for final action at the next regular meeting of the Council to be held on Monday, October 4, 1954.

On roll call, Yeas 6-nays 0.

Ordinance No. 384, providing for the paving of N.E. 5th. Avenue, between Ivy and Juniper streets in Canby, was then introduced, passed on first reading, ordered posted in the prescribed legal manner and to come up for final action on Monday, October 4, the regular meeting of the Council.
