

ORDINANCE NO. 440-0

AN ORDINANCE ESTABLISHING AND IMPOSING WATER AVAILABILITY CHARGES, USER FEES, COMMODITY CHARGES, STANDPIPE CHARGES, IMPROVEMENT CHARGES, REPEALING ORDINANCE NO. 383-0, AND DECLARING AN EMERGENCY

BE IT ORDAINED BY THE COMMON COUNCIL OF THE CITY OF TROUTDALE:

Section 1. Short Title.

This ordinance shall be known as the Water Rates Ordinance.

Section 2. Definitions.

Unless the context dictates otherwise, the meaning of terms used in this ordinance shall be as those defined in the Water Regulations Ordinance, No. 279.

Section 3. Water Availability Charges.

Water availability charges will be imposed in the amounts shown on the schedule of Exhibit "A" effective from April 1, 1985 to June 30, 1986. These charges will be assessed whether the property is occupied or not and will be included in the user fees established and set forth in the previously referenced Exhibit "A" and in Section 4 below.

Section 4. Water User Fees and Charges.

The water user fee for respective category assignment is shown on the attached Exhibit "A" and shall be effective from April 1, 1985 to June 30, 1986.

Section 5. Water System Development Charge.

The water system development charge (SDC) is a charge imposed for water supply, transmission and storage facilities. This charge, for each equivalent residential unit (ERU), shall be \$650. This SDC rate shall be in effect from July 1, 1985 to June 30, 1986.

Section 6. Service Connection Charge.

Service installation charges for all 5/8 inch and 3/4 inch meters shall be \$235 and the installation charges for 1 inch and 1 1/4 inch meters shall be \$285. Non-standard water connections and installation charges for larger services shall be charged at a fee equal to the direct labor cost (salary and benefits) plus the cost of all materials and services plus 30 percent for administrative and supervisory overhead. These charges shall be effective from April 1, 1985 to June 30, 1986.

Section 7. Construction Standpipe Connection Charge.

The standpipe installation charge for the construction of units requiring a 3/4 inch service line shall be \$50. This cost shall include standard construction water use for a period of ninety days after which an additional \$50 will be charged. These charges are non-refundable and apply to each ninety day period of use.

Charges and fees for standpipe connection and water use for commercial and industrial construction purposes will be estimated by the Director of Community Services but will include the cost of all materials and services, direct labor (salary and benefits), and 30 percent for administrative and supervisory overhead.

The rates and charges established in this section shall become effective April 1, 1985 and remain in effect until June 30, 1986.

Section 8. Use of Fees and Charges.

All user fees established and collected by the City, in accordance with this ordinance, shall be applied to the established budget or supplemental budgets for the time period specified in this ordinance. Any user fees collected in excess of that necessary to meet the budget requirements will be carried forward and applied to the reduction of rates in the ensuing budget year(s).

All system development charges will be maintained in a separate capital fund and will only be used to fund capital projects or support methods directly related to system expansion or capacity enhancement in the system.

Section 9. Conflicts with other Resolutions and Ordinances.

Should this ordinance conflict with any ordinance or resolution previously adopted by the Common Council of the City of Troutdale, this ordinance shall prevail.

Section 10. Severability Clause.

If any clause, sentence, paragraph, section, or portion of this ordinance for any reason shall be adjudged invalid by a court of competent jurisdiction, such judgment shall not affect, impair, or invalidate the remainder of this ordinance, but shall be confined in its operation to the clause, sentence, paragraph, section or portion of this ordinance directly involved in the controversy in which the judgment is rendered.

Section 11. Repealing a Previous Ordinance.

Ordinance No. 383-0, passed on April 13, 1982, is hereby repealed.

Section 12. Emergency Clause.

Since additional delay in establishing the imposition of rate changes will constitute a financial hardship on the City and its citizens and create a potential hazard to the community by unacceptable service reductions, AN EMERGENCY IS HEREBY DECLARED TO EXIST and these adopted rates will become effective April 1, 1985.
