

YEAR 2000 RESOLUTION

THE TROUTDALE CITY COUNCIL FINDS AS FOLLOWS:

1. The City of Troutdale has written analysis of the systems it believes most susceptible to Year 2000 failures; and
2. The Year 2000 effects are unknown and uncertain, with experts' opinions ranging from no effect to catastrophe; and
3. The City of Troutdale acknowledges that in the absence of a commitment to addressing Year 2000 problems, such so-called "Y2K" failures may cause interruption of essential public services; and
4. There are no multiple existing concerns which must compete for the limited public resources available to deliver governmental services; and
5. It is in the opinion of the Troutdale City Council that such limited resources are best utilized, as they concern Year 2000 issues, for those matters deemed "Mission-Critical";

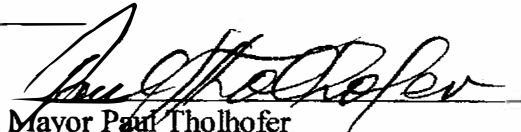

NOW, THEREFORE, BE IT RESOLVED BY THE COUNCIL OF THE CITY OF TROUTDALE, TO DECLARE THE FOLLOWING SERVICES TO BE DEEMED MOST LIKELY SUSCEPTIBLE TO YEAR 2000 FAILURES TO BE "MISSION-CRITICAL"

- Public safety
- Water distribution
- Sewage collection in certain areas
- Sewage treatment

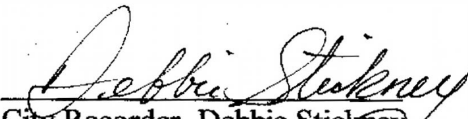

The City of Troutdale 1999-2000 budget authorizes the expenditure of certain funds to address Year 2000 problems. The City of Troutdale delegates the discretion to determine these expenditures to the City Administrator.

Although the City of Troutdale clearly recognizes that the Year 2000 problems may affect other areas, in recognition of the limited public resources available, it shall be the policy of the City of Troutdale to address the areas determined above as in the overall best interest of the public.
