

RESOLUTION NO. 2230

RESOLUTION ADOPTING THE SANITARY SEWER MASTER PLAN DATED MAY 2013

THE TROUTDALE CITY COUNCIL FINDS AS FOLLOWS:

1. While the City has commissioned numerous studies about various components of the sanitary sewer system over the years, the City does not currently have a stand-alone sanitary sewer master plan.
2. The City retained the professional services of Brown and Caldwell, a Portland engineering firm, to prepare a contemporary master plan for the orderly provision of sanitary sewer for the entire City of Troutdale with a planning horizon of 20 years into the future.
3. The master plan is complete and has been delivered to the City.
4. The City Council adopted the master plan as originally delivered on June 11, 2013. On August 27, 2013, the Council rescinded that adoption and remanded the master plan to the Planning Commission for review and recommendations.
5. The Planning Commission reviewed the plan on September 16, 2013 and October 18, 2013 and recommended adoption of the master plan with the removal of two sewer extension projects: The Southeast Jackson Park Road and East Historic Columbia River Highway extension projects.

NOW, THEREFORE, BE IT RESOLVED BY THE COUNCIL OF THE CITY OF TROUTDALE

Section 1. The Sanitary Sewer Master Plan, prepared by Brown and Caldwell and dated May 2013 is adopted with exceptions noted in Section 2 below.

Section 2. The Southeast Jackson Park Road and East Historic Columbia River Highway extension projects are removed from the recommended projects in the master plan.

Section 3. This Resolution is effective upon adoption.
