

MINUTES
CITY OF BROOKINGS
PARKS & RECREATION COMMISSION
October 3, 1972

Members present: Vice-chairman Lee Hansen, who acted as Chairman, Marshall Hoppin, Dellis Oliver, also City Superintendent of Public Works, Elmer Lee and Mayor Williams. Architect Joseph Jozens attended to present maps of the Easy Manor Drive and Richard Street playground areas.

The Mayor explained that the Jay Cees are still working on obtaining finances for the projected playground equipment. Hopefully they will have an answer for this Commission by next meeting.

Mr. Jozens displayed the maps but suggested that 10' more should be added to the projected parking lot to permit cars to turn on the property rather than back out into Easy Street. This suggestion was unanimously approved by the Commission.

He suggested that an 8' high fence is not needed around the Easy Manor Park. In his experience with school areas he recommended a 4' fence as very satisfactory. The Commission acted favorably on the suggestion, unanimously.

Mr. Lee says the fill materials are nearly all completed. He plans to cover the ground of both parks with about 6" of beach sand.

Meeting adjourned at 8:30 p.m.
