

RESOLUTION NO: 27

BE IT RESOLVED BY THE COMMON COUNCIL OF THE CITY OF TROUTDALE THAT:

The City of Troutdale is contemplating a local improvement program consisting of the construction of a 12-inch cast iron water main along Troutdale Road from 9th Street southerly to Sweet Briar Road.

A portion of the improvement is to be financed by individual assessments against benefited properties which front on Troutdale Road.

The assessments against benefited properties will be based on the cost of constructing a 6-inch cast iron water main. The additional expense of oversizing the main to 12-inch will be borne by the City of Troutdale.

The approved engineer's report may be placed on file with the City Recorder and may be examined by the public during normal business hours.

The council will hear and consider objections or remonstrances to the proposed improvement by any parties aggrieved thereby at a public hearing at 7:30 p.m., December 28, 1971, at the City Hall.

Passed by the Common Council of the City of Troutdale, this 14 day of December 1971.
