Budget Limits and Payments for BETC

(1) Amount of Credits Allowed for a Facility:

(a) During any calendar year, a BETC preliminary certification will not be issued for more than:

(A) \$20 million in maximum eligible facility costs for a renewable energy resource facility renewable energy resource equipment manufacturing facility or high efficiency combined heat and power facility;

(B) \$10 million in maximum eligible facility costs for any other facility, not including homebuilder-installed renewable energy facility and high performance home Business Energy Tax Credits subject to subsection (b).

(b) A final certification for a Business Energy Tax Credit will not be issued for more than 50 percent of the cost not to exceed \$9,000 for a homebuilder-installed renewable energy facility or \$12,000 if the facility also constitutes a high performance home.

(2) Return of Review Charge for Returned Incomplete Applications: If under OAR 330-090-0130, ODOE does not accept and returns an incomplete application for preliminary certification, ODOE will also return the review charge submitted by the applicant.

(3) Cost of Reviews: ORS 469.217 requires applicants to pay all costs for the review of their applications. In order to meet this statutory requirement ODOE has established the following schedule for payments to accompany an application.

(a) Included with each application for preliminary certification must be a payment payable to ODOE, except for facilities qualifying under OAR 330-090-0130(2), for which a charge must be paid with the application for final certification. For all facilities except Sustainable Building Facilities or qualifying under OAR 330-090-0130(2), the payment will be 0.0060 multiplied by the facility eligible cost requested in the preliminary certification application, or a request to amend a preliminary certification, or \$30 whichever is greater. The maximum payment amount is \$35,000. The 0.0060 payment rate up to \$35,000 will be applied to all facilities with eligible costs of \$1 million and more that were received on or after January 1, 2007. For facilities with eligible costs of less than \$1 million, the 0.0060 payment rate up to \$35,000 will be applied to applications received on or after December 1, 2007. For Sustainable Building Facilities, the payment will be 0.0035 multiplied by the eligible cost calculated as required under these rules and as reported in the preliminary certification application, or a request to amend a preliminary certification. For facilities that qualify under OAR 330-090-0130(2), the payment will be 0.0035 multiplied by the eligible cost as requested in the final certification application.

(b) A refund of 75 percent of this payment may be granted up to 730 days (2 years) from the date the preliminary certification was approved by ODOE. Under no circumstances will an amount over 75 percent be refunded. Only refunds that are \$10 or greater will be issued. Amounts under \$10 will not be refunded. Conditions for which a refund may be granted are:

(A) Denial of an application for preliminary certification or for facilities that qualify under OAR 330-090-0130(2) of final certification; or

(B) Denial of a portion of costs requested in an application for preliminary certification or for facilities that qualify under OAR 330-090-0130(2) of final certification; or,

(C) A request to amend a preliminary certification resulting in decreased eligible costs. A refund will not be granted for any costs that are included in a pending certification.

(c) If a request to amend a preliminary certification results in facility re-certification with increased eligible cost then additional application payments will be paid for the additional cost as specified in (2)(a) of this rule.

(d) No facilities will be exempt from these requirements including applications for BETC pass-through under OAR 330-090-0140.

(e) The payment is a required part of a completed preliminary certification application per OAR 330-090-0130(4)(j), except for facilities that qualify under OAR 330-090-0130(2). Preliminary certifications will only be issued if the application is complete.

(f) In addition, the applicant may be required to pay for costs incurred in connection with the application that exceed these payments and which

the Director of ODOE determines are incurred solely in connection with processing the application. The applicant will be advised of any additional costs the applicant must pay before the costs are incurred.

Subject: Adopt OAR 340-011-0573 and amend OAR 340-011-0575 to allow any party to a DEQ contested case proceeding to file a motion requesting that the Administrative Law Judge (ALJ) revise the proposed order so as to provide a more clear and complete record on appeal to the Environmental Quality Commission (EQC).

Proposed Orders in Contested Cases

(1) Following the close of the record for a contested case hearing, the administrative law judge will issue a proposed order. The administrative law judge will serve the proposed order on each participant. A proposed contested case order must conform to the requirements of OAR 137-003-0645(3).

(2) Within 15 days after a proposed contested case order is issued, a participant in the contested case hearing may file a motion requesting that the administrative law judge clarify or supplement a proposed order. The motion must specify why the participant believes that the proposed order fails to conform to the requirements of OAR 137-003-0645(3) and recommend changes to the order. The motion must be served on the administrative law judge and all participants in the contested case hearing.

(3) The administrative law judge may grant or deny a motion filed under section (2) of this rule within 15 days. If the motion is granted, the administrative law judge may take the matter under advisement and reissue the proposed order unchanged or may issue an amended proposed order. If the administrative law judge fails to act on the motion within 15 days, the motion is deemed denied by operation of law.

(4) The filing of a timely motion for clarification under section (2) of this rule tolls the period for filing a Petition for Commission Review of the

proposed contested case order under OAR 340-011-0575. Tolling of the period begins on the day the motion is served on the administrative law judge and ends on the day the motion is denied, deemed denied by operation of law, or the proposed order is reissued without changes. If the administrative law judge issues an amended proposed order, the amended order will be treated as a new proposed order for purpose of the filing a timely Petition for Commission Review under OAR 340-011-0575.

(5) The motion for clarification authorized by this rule is intended to alter the provisions of OAR 137-003-0655 but not to eliminate the authority of the administrative law judge to correct a proposed order in the manner specified in section (2) of that rule.

(6) A motion for clarification and any response to a motion for clarification will be part of the record on appeal.

340-011-0575

Review of Proposed Orders in Contested Cases

(1) For purposes of this rule, filing means receipt in the office of the director or other office of the department.

(2) Commencement of Review by the Commission: The proposed order will become final unless a participant or a member of the commission files, with the commission, a Petition for Commission Review within 30 days of service of the proposed order. The timely filing of a Petition is a jurisdictional requirement and cannot be waived. Any participant may file a petition whether or not another participant has filed a petition.

(3) Contents of the Petition for Commission Review. A petition must be in writing and need only state the participant's or a commissioner's intent that the commission review the proposed order. Each petition and subsequent brief must be captioned to indicate the participant filing the document and the type of document (for example: Respondents Exceptions and Brief; Department's Answer to Respondent's Exceptions and Brief).

(4) Procedures on Review:

(a) Exceptions and Brief: Within 30 days from the filing of a petition, the participant(s) filing the petition must file written exceptions and brief. The exceptions must specify those findings and conclusions objected to, and also include proposed alternative findings of fact, conclusions of law, and order with specific references to the parts of the record upon which the participant relies. The brief must include the arguments supporting these alternative findings of fact, conclusions of law and order. Failure to take an exception to a finding or conclusion in the brief, waives the participant's ability to later raise that exception.

(b) Answering Brief: Each participant, except for the participant(s) filing that exceptions and brief, will have 30 days from the date of filing of the exceptions and brief under subsection (5)(a), in which to file an answering brief.

(c) Reply Brief: If an answering brief is filed, the participant(s) who filed a petition will have 20 days from the date of filing of the answering brief under subsection (5)(b), in which to file a reply brief.

(d) Briefing on Commission Invoked Review: When one or more members of the commission wish to review the proposed order, and no participant has timely filed a Petition, the chair of the commission will promptly notify the participants of the issue that the commission desires the participants to brief. The participants must limit their briefs to those issues. The chair of the commission will also establish the schedule for filing of briefs. When the commission wishes to review the proposed order and a participant also requested review, briefing will follow the schedule set forth in subsections (a), (b), and (c) of this section.

(e) Extensions: The commission or director may extend any of the time limits contained in section (5) of this rule. Each extension request must be in writing and filed with the commission before the expiration of the time limit. Any request for an extension may be granted or denied in whole or in part.

(f) Dismissal: The commission may dismiss any petition, upon motion of any participant or on its own motion, if the participant(s) seeking review fails to timely file the exceptions or brief required under subsection (5)(a) of this rule. A motion to dismiss made by a participant must be filed within 45 days after the filing of the Petition. At the time of dismissal, the commission will also enter a final order upholding the proposed order.

(g) Oral Argument: Following the expiration of the time allowed the participants to present exceptions and briefs, the matter will be scheduled for oral argument before the commission.

ADMINISTRATIVE RULES

(5) Additional Evidence: A request to present additional evidence must be submitted by motion and must be accompanied by a statement showing good cause for the failure to present the evidence to the administrative law judge. The motion must accompany the brief filed under subsection (5)(a) or (b) of this rule. If the commission grants the motion or decides on its own motion that additional evidence is necessary, the matter will be remanded to an administrative law judge for further proceedings.

(6) Scope of Review: The commission may substitute its judgment for that of the administrative law judge in making any particular finding of fact, conclusion of law, or order except as limited by OAR 137-003-0655 and 137-003-0665.

(7) Service of documents on other participants: All documents required to be filed with the commission under this rule must also be served upon each participant in the contested case hearing. Service can be completed by personal service, certified mail or regular mail.

State of Oregon Clean Air Act Implementation Plan

(1) This implementation plan, consisting of Volumes 2 and 3 of the State of Oregon Air Quality Control Program, contains control strategies, rules and standards prepared by the Department of Environmental Quality and is adopted as the state implementation plan (SIP) of the State of Oregon pursuant to the federal **Clean Air Act, 42 U.S.C.A 7401 to 7671q**.

(2) Except as provided in section (3), revisions to the SIP will be made pursuant to the Commission's rulemaking procedures in division 11 of this chapter and any other requirements contained in the SIP and will be submitted to the United States Environmental Protection Agency for approval. The State Implementation Plan was last modified by the Commission on October 17, 2007.

(3) Notwithstanding any other requirement contained in the SIP, the Department may:

(a) Submit to the Environmental Protection Agency any permit condition implementing a rule that is part of the federally-approved SIP as a source-specific SIP revision after the Department has complied with the public hearings provisions of 40 CFR 51.102 (July 1, 2002); and

(b) Approve the standards submitted by a regional authority if the regional authority adopts verbatim any standard that the Commission has adopted, and submit the standards to EPA for approval as a SIP revision.

NOTE: Revisions to the State of Oregon Clean Air Act Implementation Plan become federally enforceable upon approval by the United States Environmental Protection Agency. If any provision of the federally approved Implementation Plan conflicts with any provision adopted by the Commission, the Department shall enforce the more stringent provision.
