Dear DEQ -

This public comment is in support of your efforts for stricter water pollutant rules. Please include forest herbicides as pollutants - because they are. Countless animals need clean pure water - including the human species. With proven herbicide & pesticide damage done to avian eggs, it is hard to believe the people with this knowledge haven't already pursued this. Thank you for reading & considering my opinion.

- Sincerely,  
Sunni Williams

My public comment...

I support the stricter  
water pollutant rules.

I do however feel you  
need to include forest herbicides  
as pollutants. Forest chemicals  
are dumped into our waters  
many times a year. Our fish  
need help.

This Public Comment is in support of your efforts for stricter water pollutant rules. Please include forest herbicides as pollutants.

Please do the right thing and realize that you are of the same light. It's so important to educate the community about what is happening to them. Listen to the voices in your hearts. My children deserve to grow up having fresh air, clean water, organic food.

Dear DEQ

This public comment is in support of your efforts for stricter water pollutant rules. The Earth is our home, she warrants more respect than we treat her with. She is our mother. ~~XXXXXXXXXX~~ She also needs time to heal from the scars humans have inflicted.

Please include forest herbicides as pollutants. Please ~~stopping~~ stop cutting down trees, ~~stopping~~ ~~the matter~~, and ~~being unconscious to~~ ~~the~~. The power is in our hands. Peace + love.

~~XXXXXXXXXX~~

This is a public comment to support your proposition for stricter water pollution rules. We have no good purpose for poisoning and polluting our waters. For a few companies to maximize profits is not a good reason, as it poisons our environment.

I sincerely hope that this much-needed improvement will consider forest herbicides and fluoride (sodium fluoride) as pollutants.

Thank you for your consideration.

Dear DEQ,

This is a public Comment.  
I Support your efforts for Stricter  
water pollutant~~o~~ rules.

Please include forest (or any)  
herbicides & pesticides as pollutants,  
because they are. I am totally  
against my water being contaminated.  
I live here in Oregon because of  
clean air & clean water. I do not want my  
water for my children, myself, or anyone  
being contaminated.

Thank you

Dear DEQ,

1. I am asking you in this public comment to please include herbicides as pollutants to our water.

I support, through this public comment your efforts for stricter rules on water pollutants.

2. The herbicides/pesticides are the first pollutants that need to stop entering our waters!

I am asking you to please do your service and prevent this from occurring ever again.

I would like you to remember that: "The consciousness of society can be judged by the way we take care

of our water! "

Thank you!
