

February 9, 2011

Attn: Andrea Matzke
Oregon DEQ
811 S.W. Sixth Ave.
Portland, OR 97204

To Whom It May Concern:

Hello, My name is Rosalind C. Sampson "Jeminsh", my enrollment #139 is with The Confederated Tribes of Warm Springs, therefore am also an Oregon resident.

I am a traditional food gatherer and consume our traditional food S: Salmon, Venison, Roots, Berries and other indigenous natural foods our people have consumed since time immemorial.

I support and am encouraging strongly that Oregon DEQ to support and adopt the new water quality standards based on a fish consumption rate of 175 grams per day to protect the majority of people who regularly eat fish from Oregon's waterways and without loopholes; thus preventing pollution. As we have long awaited for standards to protect people who consume fish.

Sincerely, Rosalind C. Sampson
