Proposed temporary rules affecting diesel grants

At their October 16-17 meeting, the Environmental Quality Commission will consider adopting a temporary rulemaking affecting diesel grants. The Department of Environmental Quality is proposing temporary rules that would allow DEQ to administer clean diesel grant projects that meet federal funding criteria. The Oregon Clean Diesel grant program focuses on funding for exhaust retrofits, non-road engine repowers and truck scrapping to reduce diesel engine emissions. Federal grant rules allow for a broader range of funding activities, including idle reduction technologies and vehicle replacement. SB 249, adopted by the 2013 Oregon legislature and signed into law in April 2013, authorizes DEQ to apply for and administer federal grants under the more comprehensive federal guidelines. This temporary rule codifies that authority until a permanent rule is considered in 2014. [Click here for more information.](#)

To: SEN Beyer
Subject: Proposed temporary rules affecting diesel grants

Dear Senator Beyer,

The Department of Environmental Quality is proposing a temporary rule to implement the provisions of SB 249, unanimously approved in the 2013 legislative session. SB 249 authorizes DEQ to administer federal clean diesel projects in accordance with federal grant guidelines rather than narrower state guidelines originally established when the clean diesel program was launched. DEQ will propose a temporary rule at the October meeting of the Environmental Quality Commission so that federal diesel emission reduction projects can begin immediately and reduce environmental harm associated with exposure to diesel engine exhaust. A permanent rulemaking is scheduled for consideration at the March 2014 meeting of the EQC.

The proposal is online at <http://www.oregon.gov/deq/RulesandRegulations/Pages/2013/DESLGRNT.aspx>. For more information about the rule, contact Kevin Downing, 503.229.6549, downing.kevin@deq.state.or.us.

Thanks,

Andrea Curtis
