NOTICE OF PUBLIC HEARING ON <4>PROPOSED AIR QUALITY RULE AMENDMENTS

<1>The Oregon Department of Environmental Quality (DEQ) is proposing that the Environmental Quality Commission adopt rules that implement new and amended federal air quality regulations. The objectives of this rulemaking are to protect public health, implement federally-revised National Ambient Air Quality Standards for nitrogen dioxide, sulfur dioxide and lead, adopt interim federal 1-hour Significant Impact Levels for nitrogen dioxide and sulfur dioxide, and to update the Oregon Clean Air Act State Implementation Plan.

These amendments, if adopted, will be submitted to the US Environmental Protection Agency (EPA) for approval and as a revision to the State Implementation Plan, as required by the Clean Air Act.

The Department will hold a public hearing on the proposed rule changes on August 15, 2013 at 6:00 p.m. in room EQC-B on the tenth floor at DEQ's Headquarters Office, 811 SW 6th Avenue, Portland, Oregon. Oral and written comments will be accepted at the hearing. Copies of the proposed rule package may be obtained online at <http://www.deq.state.or.us/regulations/proposedrules.htm> or from the Air Quality Division in Portland, 811 SW 6th Avenue, Portland, OR 97204, or by contacting Carrie Capp at (503) 229-5868. Written comments may be submitted anytime to the above address, but must be received no later than 5:00 p.m. on August 19, 2013.

Proposed Updates to the Oregon State Implementation Plan: Nitrogen Dioxide, Sulfur Dioxide and Lead Ambient Air Quality Standards

The Oregon Department of Environmental Quality is accepting public comment on proposed permanent rule revisions to update ambient air quality standards to match federally-revised National Ambient Air Quality Standards for nitrogen dioxide, sulfur dioxide and lead. In addition, DEQ is proposing to adopt new, 1-hour Significant Air Quality Impact Levels for nitrogen dioxide and sulfur dioxide. The amendments, if adopted, will be submitted to the US Environmental Protection Agency for approval as revisions to the Oregon State Implementation Plan, as required by the Clean Air Act.

A public hearing will be held:

Aug. 15, 2013 at 6 p.m.
Oregon DEQ
Conference Room EQC B
811 SW 6th Avenue
Portland, OR 97204

Comments on this proposal can be presented at the hearing or mailed, faxed or e-mailed to DEQ during the public comment period. All comments must be received by **5 p.m. on Aug. 19, 2013**.

The public notice, which contains a link to the proposed rule amendments and invitation to comment, is posted here:

From: CURTIS Andrea
Sent: Monday, July 15, 2013 3:48 PM
To: SEN Dingfelder
Subject: DEQ proposes rules to align state regulations with revised federal regulations

Dear Senator Dingfelder,

Oregon DEQ is proposing rules that will modify the state's air quality plan known as the State Implementation Plan to align with revised federal regulations. Proposed amendments include adoption of 1-hour significant impact levels for nitrogen dioxide and sulfur dioxide, adoption of primary 1-hour national ambient air quality standards for nitrogen dioxide and sulfur dioxide, and revision of the existing ambient air quality standard for lead.

The proposed rule changes are necessary to ensure that Oregon DEQ's Air Quality Division has adequate authority to meet the requirements of the Clean Air Act. If adopted by the Environmental Quality Commission in October of this year, the proposed changes will be submitted to the U.S. Environmental Protection Agency for approval as revisions to infrastructure elements of the Oregon Clean Air Act State Implementation Plan.

The proposal is online at www.deq.state.or.us/regulations/proposedrules.htm. DEQ is accepting public comment on the proposal until 5 pm, Monday, Aug. 19, 2013. If you have questions or comments, please contact Carrie Capp at capp.carrie@deq.state.or.us or 503-229-5868.

Sincerely,

Andrea Curtis

Subject: Courtesy Copy: Opportunity to comment on updates to permitted activities and air quality standards in Oregon
Date: Monday, July 15, 2013 4:12:01 PM

This is a courtesy copy of an email bulletin sent by Andrea Curtis.

This bulletin was sent to the following groups of people:

Subscribers of Import list for TRAACS (266 recipients)

Opportunity to comment on updates to permitted activities and air quality standards in Oregon

You hold an air quality permit with DEQ. This email is to inform you about proposed rule amendments that may affect your permitted activities. DEQ is developing a rulemaking proposal to update Oregon Administrative Rules as required by the Clean Air Act.

DEQ is accepting public comment on the proposed permanent rule revisions. The revisions include:

- Matching federal revisions to ambient air quality standards for nitrogen dioxide, sulfur dioxide and lead.
- Adopting new 1-hour Significant Air Quality Impact Levels for nitrogen dioxide and sulfur dioxide.

The amendments, if adopted, will be submitted to the U.S. Environmental Protection Agency for approval as revisions to the Oregon State Implementation Plan, as required by the Clean Air Act.

The proposal affects new or existing modified industrial sources that emit nitrogen dioxide, sulfur dioxide or lead. If the above proposed rule amendments are approved by the Oregon Environmental Quality Commission, future ambient impact demonstration requirements will be affected. Permit holders will be required to demonstrate that significant increases of nitrogen dioxide and sulfur dioxide emissions will not cause or contribute to a violation of the 1-hour standards when an air quality impact analysis is required by either the Plant Site Emission Limit or Prevention of Significant Deterioration programs. If an analysis is required, the analysis must be conducted in accordance with a modeling protocol approved by DEQ and the results must be included in the application for a new or modified permit.

A public hearing will be held:

Aug. 15, 2013 at 6 p.m.

Oregon DEQ, Conference Room EQC B
811 SW 6th Avenue
Portland, OR 97204

The public notice, which contains a link to the proposed rule amendments and invitation to comment, is posted here:

www.deq.state.or.us/regulations/proposedrules.htm .

Comments on this proposal can be presented at the hearing or mailed, faxed or e-mailed to DEQ during the public comment period. All comments must be received by **5 p.m. on Aug. 19, 2013**.

RE: Permanent rule updates to Ambient Air Quality Standards for nitrogen dioxide, sulfur dioxide and lead, and adoption of 1-hour Significant Impact Levels for nitrogen dioxide and sulfur dioxide.

Greetings Air Quality permit holder,

This letter is to inform you about proposed rule amendments that may affect your activities. DEQ is developing a rulemaking proposal to update the Oregon Administrative Rules as required by the Clean Air Act.

The proposed rule changes are necessary to align state rules with Section 110 requirements of the Clean Air Act by revising the rule language for the lead ambient air quality standards for consistency with the federal national ambient air quality standards, adopting the 1-hour ambient air quality standards for nitrogen dioxide and sulfur dioxide, and adopting 1-hour significant impact levels for nitrogen dioxide and sulfur dioxide. If approved, these amendments will be submitted to the U.S. Environmental Protection Agency for approval as revisions to the Oregon State Clean Air Act Implementation Plan.

What this means to you

If the above proposed rule amendments are approved by the Environmental Quality Commission, DEQ will require a demonstration by permit holders that significant increases of nitrogen dioxide and sulfur dioxide emissions do not cause or contribute to a violation of the 1-hour standards when an air quality impact analysis is required by either the Plant Site Emission Limit or Prevention of Significant Deterioration programs. If an analysis is required, the analysis must be conducted in accordance with a modeling protocol approved by DEQ and the results must be included in the application for a new or modified permit.

DEQ will propose the permanent rule amendments to the commission for adoption in October 2013. You may submit comments in writing to Carrie Capp by mail, fax, or e-mail, or you may attend the public hearing and submit written comments or provide testimony. It is not necessary to attend the hearing in order to comment. Written comments received prior to the deadline are treated equally with oral comments. To be considered, your comments must be received prior to the comment deadline of 5 p.m. on Aug. 19, 2013. Receipt of e-mail comments will be acknowledged immediately. Written comments may be mailed to Carrie Capp, Oregon DEQ, Air Quality Division, 811 SW Sixth Avenue, Portland, OR 97204. Comments may be e-mailed to: comment-SIP.SO2.NO2.Lead@deq.state.or.us or faxed to Carrie Capp at 503-229-5675.

RE: Permanent rule updates to Ambient Air Quality Standards for nitrogen dioxide, sulfur dioxide and lead, and adoption of 1-hour Significant Impact Levels for nitrogen dioxide and sulfur dioxide.

Greetings Air Quality permit holder,

This letter is to inform you about proposed rule amendments that may affect your activities. DEQ is developing a rulemaking proposal to update the Oregon Administrative Rules as required by the Clean Air Act.

The proposed rule changes are necessary to align state rules with Section 110 requirements of the Clean Air Act by revising the rule language for the lead ambient air quality standards for consistency with the federal national ambient air quality standards, adopting the 1-hour ambient air quality standards for nitrogen dioxide and sulfur dioxide, and adopting 1-hour significant impact levels for nitrogen dioxide and sulfur dioxide. If approved, these amendments will be submitted to the U.S. Environmental Protection Agency for approval as revisions to the Oregon State Clean Air Act Implementation Plan.

What this means to you

If the above proposed rule amendments are approved by the Environmental Quality Commission, DEQ will require a demonstration by permit holders that significant increases of nitrogen dioxide and sulfur dioxide emissions do not cause or contribute to a violation of the 1-hour standards when an air quality impact analysis is required by either the Plant Site Emission Limit or Prevention of Significant Deterioration programs. If an analysis is required, the analysis must be conducted in accordance with a modeling protocol approved by DEQ and the results must be included in the application for a new or modified permit.

DEQ will propose the permanent rule amendments to the commission for adoption in October 2013. You may submit comments in writing to Carrie Capp by mail, fax, or e-mail, or you may attend the public hearing and submit written comments or provide testimony. It is not necessary to attend the hearing in order to comment. Written comments received prior to the deadline are treated equally with oral comments. To be considered, your comments must be received prior to the comment deadline of 5 p.m. on Aug. 19, 2013. Receipt of e-mail comments will be acknowledged immediately. Written comments may be mailed to Carrie Capp, Oregon DEQ, Air Quality Division, 811 SW Sixth Avenue, Portland, OR 97204. Comments may be e-mailed to: comment-SIP.SO2.NO2.Lead@deq.state.or.us or faxed to Carrie Capp at 503-229-5675.

Public hearing: August 15, 2013
DEQ - Headquarters
Conference Rm. EQC-B

This letter is to inform you about proposed rule amendments that may affect your activities. DEQ is developing a rulemaking proposal to update the Oregon Administrative Rules as required by the Clean Air Act.

The proposed rule changes are necessary to align state rules with Section 110 requirements of the Clean Air Act by revising the rule language for the lead ambient air quality standards for consistency with the federal national ambient air quality standards, adopting the 1-hour ambient air quality standards for nitrogen dioxide and sulfur dioxide, and adopting 1-hour significant impact levels for nitrogen dioxide and sulfur dioxide. If approved, these amendments will be submitted to the U.S. Environmental Protection Agency for approval as revisions to the Oregon State Clean Air Act Implementation Plan.

What this means to you

If the above proposed rule amendments are approved by the Environmental Quality Commission, DEQ will require a demonstration by permit holders that significant increases of nitrogen dioxide and sulfur dioxide emissions do not cause or contribute to a violation of the 1-hour standards when an air quality impact analysis is required by either the Plant Site Emission Limit or Prevention of Significant Deterioration programs. If an analysis is required, the analysis must be conducted in accordance with a modeling protocol approved by DEQ and the results must be included in the application for a new or modified permit.

DEQ will propose the permanent rule amendments to the commission for adoption in October 2013. You may submit comments in writing to Carrie Capp by mail, fax, or e-mail, or you may attend the public hearing and submit written comments or provide testimony. It is not necessary to attend the hearing in order to comment. Written comments received prior to the deadline are treated equally with oral comments. To be considered, your comments must be received prior to the comment deadline of 5 p.m. on Aug. 19, 2013. Receipt of e-mail comments will be acknowledged immediately. Written comments may be mailed to Carrie Capp, Oregon DEQ, Air Quality Division, 811 SW Sixth Avenue, Portland, OR 97204. Comments may be e-mailed to: comment-SIP.SO2.NO2.Lead@deq.state.or.us or faxed to Carrie Capp at 503-229-5675.

RE: Permanent rule updates to Ambient Air Quality Standards for nitrogen dioxide, sulfur dioxide and lead, and adoption of 1-hour Significant Impact Levels for nitrogen dioxide and sulfur dioxide.

Greetings Air Quality permit holder,

This letter is to inform you about proposed rule amendments that may affect your activities. DEQ is developing a rulemaking proposal to update the Oregon Administrative Rules as required by the Clean Air Act.

The proposed rule changes are necessary to align state rules with Section 110 requirements of the Clean Air Act by revising the rule language for the lead ambient air quality standards for consistency with the federal national ambient air quality standards, adopting the 1-hour ambient air quality standards for nitrogen dioxide and sulfur dioxide, and adopting 1-hour significant impact levels for nitrogen dioxide and sulfur dioxide. If approved, these amendments will be submitted to the U.S. Environmental Protection Agency for approval as revisions to the Oregon State Clean Air Act Implementation Plan.

What this means to you

If the above proposed rule amendments are approved by the Environmental Quality Commission, DEQ will require a demonstration by permit holders that significant increases of nitrogen dioxide and sulfur dioxide emissions do not cause or contribute to a violation of the 1-hour standards when an air quality impact analysis is required by either the Plant Site Emission Limit or Prevention of Significant Deterioration programs. If an analysis is required, the analysis must be conducted in accordance with a modeling protocol approved by DEQ and the results must be included in the application for a new or modified permit.

DEQ will propose the permanent rule amendments to the commission for adoption in October 2013. You may submit comments in writing to Carrie Capp by mail, fax, or e-mail, or you may attend the public hearing and submit written comments or provide testimony. It is not necessary to attend the hearing in order to comment. Written comments received prior to the deadline are treated equally with oral comments. To be considered, your comments must be received prior to the comment deadline of 5 p.m. on Aug. 19, 2013. Receipt of e-mail comments will be acknowledged immediately. Written comments may be mailed to Carrie Capp, Oregon DEQ, Air Quality Division, 811 SW Sixth Avenue, Portland, OR 97204. Comments may be e-mailed to: comment-SIP.SO2.NO2.Lead@deq.state.or.us or faxed to Carrie Capp at 503-229-5675.

State of Oregon
Department of Environmental Quality

Certificate of Noticing

For a proposed rulemaking with the first public hearing scheduled for Aug. 15, 2013

Rulemaking caption:

Updates to Oregon SIP for Nitrogen Dioxide, Sulfur Dioxide and Lead Ambient Air Quality Standards

Notice was also provided by U.S. mail.

I certify that on July 18, 2013, I deposited in the United States mail (at Portland, Oregon), postage prepaid, envelopes containing the public notice for a proposed rulemaking with the first public hearing scheduled for Aug. 15, 2013.

This notice was mailed to 25 addresses.

Attachments:

6A: Copy of Notice mailed to stakeholders

6B: Mailing list - Includes the Mailing Contact representative of facilities holding Standard and Title V permits in DEQ's TRAACS database as of July 1, 2013. This includes only those permitted facilities that had email addresses in TRAACS, were sent notices via email on July 15, 2013 which were returned to DEQ as undeliverable.

RE: Permanent rule updates to Ambient Air Quality Standards for nitrogen dioxide, sulfur dioxide and lead, and adoption of 1-hour Significant Impact Levels for nitrogen dioxide and sulfur dioxide.

Greetings permit holder,

This letter is to inform you about proposed rule amendments that may affect your activities. DEQ is developing a rulemaking proposal to update the Oregon Administrative Rules as required by the Clean Air Act.

The proposed rule changes are necessary to align state rules with Section 110 requirements of the Clean Air Act by revising the rule language for the lead ambient air quality standards for consistency with the federal national ambient air quality standards, adopting the 1-hour ambient air quality standards for nitrogen dioxide and sulfur dioxide, and adopting 1-hour significant impact levels for nitrogen dioxide and sulfur dioxide. If approved, these amendments will be submitted to the U.S. Environmental Protection Agency for approval as revisions to the Oregon State Clean Air Act Implementation Plan.

What this means to you

If the above proposed rule amendments are approved by the Environmental Quality Commission, DEQ will require a demonstration by permit holders that significant increases of nitrogen dioxide and sulfur dioxide emissions do not cause or contribute to a violation of the 1-hour standards when an air quality impact analysis is required by either the Plant Site Emission Limit or Prevention of Significant Deterioration programs. If an analysis is required, the analysis must be conducted in accordance with a modeling protocol approved by DEQ and the results must be included in the application for a new or modified permit.

DEQ will propose the permanent rule amendments to the commission for adoption in October 2013. You may submit comments in writing to Carrie Capp by mail, fax, or e-mail, or you may attend the public hearing and submit written comments or provide testimony. It is not necessary to attend the hearing in order to comment. Written comments received prior to the deadline are treated equally with oral comments. To be considered, your comments must be received prior to the comment deadline of 5 p.m. on Aug. 19, 2013. Receipt of e-mail comments will be acknowledged immediately. Written comments may be mailed to Carrie Capp, Oregon DEQ, Air Quality Division, 811 SW Sixth Avenue, Portland, OR 97204. Comments may be e-mailed to: comment-SIP.SO2.NO2.Lead@deq.state.or.us or faxed to Carrie Capp at 503-229-5675.

Public hearing: August 15, 2013

What this means to you

If the above proposed rule amendments are approved by the Environmental Quality Commission, DEQ will require a demonstration by permit holders that significant increases of nitrogen dioxide and sulfur dioxide emissions do not cause or contribute to a violation of the 1-hour standards when an air quality impact analysis is required by either the Plant Site Emission Limit or Prevention of Significant Deterioration programs. If an analysis is required, the analysis must be conducted in accordance with a modeling protocol approved by DEQ and the results must be included in the application for a new or modified permit.

DEQ will propose the permanent rule amendments to the commission for adoption in October 2013. You may submit comments in writing to Carrie Capp by mail, fax, or e-mail, or you may attend the public hearing and submit written comments or provide testimony. It is not necessary to attend the hearing in order to comment. Written comments received prior to the deadline are treated equally with oral comments. To be considered, your comments must be received prior to the comment deadline of 5 p.m. on Aug. 19, 2013. Receipt of e-mail comments will be acknowledged immediately. Written comments may be mailed to Carrie Capp, Oregon DEQ, Air Quality Division, 811 SW Sixth Avenue, Portland, OR 97204. Comments may be e-mailed to: comment-SIP.SO2.NO2.Lead@deq.state.or.us or faxed to Carrie Capp at 503-229-5675.

RE: Permanent rule updates to Ambient Air Quality Standards for nitrogen dioxide, sulfur dioxide and lead, and adoption of 1-hour Significant Impact Levels for nitrogen dioxide and sulfur dioxide.

Greetings permit holder,

This letter is to inform you about proposed rule amendments that may affect your activities. DEQ is developing a rulemaking proposal to update the Oregon Administrative Rules as required by the Clean Air Act.

The proposed rule changes are necessary to align state rules with Section 110 requirements of the Clean Air Act by revising the rule language for the lead ambient air quality standards for consistency with the federal national ambient air quality standards, adopting the 1-hour ambient air quality standards for nitrogen dioxide and sulfur dioxide, and adopting 1-hour significant impact levels for nitrogen dioxide and sulfur dioxide. If approved, these amendments will be submitted to the U.S. Environmental Protection Agency for approval as revisions to the Oregon State Clean Air Act Implementation Plan.

What this means to you

If the above proposed rule amendments are approved by the Environmental Quality Commission, DEQ will require a demonstration by permit holders that significant increases of nitrogen dioxide and sulfur dioxide emissions do not cause or contribute to a violation of the 1-hour standards when an air quality impact analysis is required by either the Plant Site Emission Limit or Prevention of Significant Deterioration programs. If an analysis is required, the analysis must be conducted in accordance with a modeling protocol approved by DEQ and the results must be included in the application for a new or modified permit.

DEQ will propose the permanent rule amendments to the commission for adoption in October 2013. You may submit comments in writing to Carrie Capp by mail, fax, or e-mail, or you may attend the public hearing and submit written comments or provide testimony. It is not necessary to attend the hearing in order to comment. Written comments received prior to the deadline are treated equally with oral comments. To be considered, your comments must be received prior to the comment deadline of 5 p.m. on Aug. 19, 2013. Receipt of e-mail comments will be acknowledged immediately. Written comments may be mailed to Carrie Capp, Oregon DEQ, Air Quality Division, 811 SW Sixth Avenue, Portland, OR 97204. Comments may be e-mailed to: comment-SIP.SO2.NO2.Lead@deq.state.or.us or faxed to Carrie Capp at 503-229-5675.

RE: Permanent rule updates to Ambient Air Quality Standards for nitrogen dioxide, sulfur dioxide and lead, and adoption of 1-hour Significant Impact Levels for nitrogen dioxide and sulfur dioxide.

Greetings permit holder,

This letter is to inform you about proposed rule amendments that may affect your activities. DEQ is developing a rulemaking proposal to update the Oregon Administrative Rules as required by the Clean Air Act.

The proposed rule changes are necessary to align state rules with Section 110 requirements of the Clean Air Act by revising the rule language for the lead ambient air quality standards for consistency with the federal national ambient air quality standards, adopting the 1-hour ambient air quality standards for nitrogen dioxide and sulfur dioxide, and adopting 1-hour significant impact levels for nitrogen dioxide and sulfur dioxide. If approved, these amendments will be submitted to the U.S. Environmental Protection Agency for approval as revisions to the Oregon State Clean Air Act Implementation Plan.

What this means to you

If the above proposed rule amendments are approved by the Environmental Quality Commission, DEQ will require a demonstration by permit holders that significant increases of nitrogen dioxide and sulfur dioxide emissions do not cause or contribute to a violation of the 1-hour standards when an air quality impact analysis is required by either the Plant Site Emission Limit or Prevention of Significant Deterioration) programs. If an analysis is required, the analysis must be conducted in accordance with a modeling protocol approved by DEQ and the results must be included in the application for a new or modified permit.

DEQ will propose the permanent rule amendments to the commission for adoption in October 2013. You may submit comments in writing to Carrie Capp by mail, fax, or e-mail, or you may attend the public hearing and submit written comments or provide testimony. It is not necessary to attend the hearing in order to comment. Written comments received prior to the deadline are treated equally with oral comments. To be considered, your comments must be received prior to the comment deadline of 5 p.m. on Aug. 19, 2013. Receipt of e-mail comments will be acknowledged immediately. Written comments may be mailed to Carrie Capp, Oregon DEQ, Air Quality Division, 811 SW Sixth Avenue, Portland, OR 97204. Comments may be e-mailed to: comment-SIP.SO2.NO2.Lead@deq.state.or.us or faxed to Carrie Capp at 503-229-5675.
