---

Since we are able, we would like to clarify that OAR 340-011-0510(1) includes : (1) hearings about issuance of a permit or other authorization and (2) hearings about other types of authorizations, like permit coverage. Please review the following and let me know if you think it makes the appropriate changes or how it should be amended. We are on a tight schedule for this and should submit to Stephanie on Tuesday.

(1) Environmental Law Specialists, and other department personnel as approved by the director, are authorized to appear on behalf of the department and commission in contested case hearings involving formal enforcement actions issued under OAR 340, division 012, and **issuance, revocation, modification, or denial of licenses, permits, [and] certifications, and other authorizations, including general permit coverage or registrations.**

Thanks – Les 503-229-5422
