Hey Folks:

Just a reminder that I need your comments on the proposed Division 12 rules by **next Friday, April 12th**!

Thanks,

Jenny

AQ RMT:

As promised, here is the latest Division 12 draft for your review and comments. To save you time, you may want to focus your review specifically on:

- Violation classifications in -012-0054
- Selected magnitudes in -012-0135 and
- Penalty matrices, which start at 012-0140. Please make sure you are comfortable with the matrix assignments for each violator/violation category and that we haven't left any gaps that will result in unintended consequences.

Of course, you are welcome to look at all or any part of the rules and provide comments on those too, if you wish. Please provide your feedback to me by **Friday, April 12th**. Thank you, in advance, for your help!
