Nothing to add to my email previously on the rules, the fiscal impact portion is fine. I do like the opening statement noting that there is no fiscal or economic impact unless you

don't obey the rules - perfect!

Hey Folks:

Thank you for a productive meeting last Friday! Your comments are important to us and will help shape the final rule package. Per your request, I am sending this email to remind you that we need your final comments on both the rules **and** the fiscal impact statement (attached), by **this Friday, April 12th**. Thank you all for your time and important contribution to our rulemaking process!
