Committee Members:

Thank you for your time and efforts to help us with the rulemaking regarding DEQ penalties. Your comments are invaluable in helping us make sure we are on the right track. Attached is a copy of the minutes from our April 5 meeting. It also includes updates on what we did with your comments on particular issues. We had many good and wide-ranging conversations during the meeting. We hope we captured the important parts of the discussion. But, please review and let us know whether we missed anything you think should be reflected in the minutes, whether we interpreted anything incorrectly, or whether you have any other comments or suggestions. If you concur with the minutes, please let us know that too. We plan to announce the formal public notice-and-comment period in mid-June. So, it would be best to get your feedback by May 17, 2013. That would give us time to seek internal DEQ approval on any changes. During the period after the announcement, we may hold public hearings and will accept comments from the public and interested parties. As an interested party, we will send you the announcement and keep you informed of the process. Thank you again for help.
