Last Date for Comment: 2-14-14, 4:30 p.m.

Summary: The Prison Rape Elimination Act (PREA) was passed unanimously by Congress and signed into law by President Bush in 2003. The U. S Department of Justice finalized and published national PREA standards (28 C.F.R. Part 115) for all prisons, jails, lock-ups, and detention facilities in the United States in 2012. The final rule adopts national standards to prevent, detect, and respond to incidents of sexual violence, sexual coercion, and sexual solicitation. These rule modifications are necessary to ensure ODOC administrative rules for conducting cross-gender searches and searches of transgender and intersex inmates align with the national PREA standards.

Summary: This rulemaking is intended to streamline and increase transparency of the requirements for facilities that generate electricity eligible for the Oregon Renewable Portfolio Standard. Included in the proposed rule amendments are: a description of the application process for RPS certification, notification requirements for facilities that undergo changes, renewal requirements for low-impact hydro facilities, requirements for periodic review of multiple-fuel facilities, and a one-time review of the performance of certain hydro efficiency upgrades. Facilities generating electricity from other eligible resources are not subject to review or renewal. The proposed rules also include updated references to the Western Renewable Energy Generation Information System Operating Rules and updated language regarding the tracking of stranded electricity. The rules will become effective upon filing. Text of the proposed rules and hearing details can be found on the department website: <http://www.oregon.gov/energy/RENEW/Pages/RPS-Rulemaking.aspx>

Department of Environmental Quality

Rule Caption: Align Diesel Grant Program with Federal Guidelines

NOTICES OF PROPOSED RULEMAKING

Date: 1-16-14
Time: 5 p.m.
Location: 811 SW 6th Ave.
Portland, OR

Hearing Officer: DEQ staff

Stat. Auth.: ORS 468.020 & 468A.80

Stats. Implemented: ORS 468A.803

Proposed Amendments: 340-259-0010

Last Date for Comment: 1-21-14, 5 p.m.

Summary: Short summary

DEQ proposes minor changes to the clean diesel grant and loan program rules.

Brief history

The 2013 Oregon Legislature unanimously adopted Senate Bill 249. The bill authorized DEQ to administer federal grants for clean diesel projects and to complete the projects according to federal grant guidelines rather than the more limited state guidelines. Authority to administer clean diesel grants was first provided to DEQ in 2007. Projects that qualified for grants were limited to retrofitting diesel exhaust controls, non-road engine repowers and scrapping pre-1994 trucks. The federal program guidelines provide for many other eligible activities including idle reduction, aerodynamic enhancements and vehicle replacement.

Although the legislation included an emergency clause making it effective upon filing, DEQ must adopt implementing rules. Failure to adopt the proposed rule would prevent DEQ from offering the broader range projects that are now more attractive to Oregon's potential applicants interested in reducing harmful emissions from diesel engines.

Regulated parties

Participation in the grant program is voluntary. The proposed rules would affect owners of diesel powered vehicles and equipment as sub-recipients of DEQ-secured grant funds. The successful implementation of projects supported by grants authorized under this proposal would affect Oregonians by reducing harmful emissions.

Rule Caption: Incorporate Lane Regional Air Protection Agency Rules for open burning into State Implementation Plan

Date: 1-22-14
Time: 5:30 p.m.
Location: LRAPA
1010 Main St.
Springfield, OR 97477

Hearing Officer: Merlyn Hough

Stat. Auth.: ORS 468.020, 468A.035 & 468A.135

Other Auth.: LRAPA Title 13 General Duties & Powers of Board & Director LRAPA Title 14 Rules of Practice & Procedure

Stats. Implemented: ORS 468 & 468A

Proposed Amendments: 340-200-0040

Last Date for Comment: 1-27-14, 5 p.m.

Summary: Short summary

DEQ proposes to incorporate Lane Regional Air Protection Agency revised regulations for open burning into Oregon's State Implementation Plan in Oregon Administrative Rule 340-200-0040. The LRAPA Board of Directors adopted open burning rules revisions in an effort to meet federal air quality standards for fine particulate matter, to bring LRAPA in line with state rules and to better coordinate with state and federal requirements. The LRAPA rules were revised to:

- Clarify when and where small recreational fires such as patio fireplace could occur and identify acceptable fuels for these fires,
- Include Hazeldell and Siuslaw Rural Fire Protection Districts in the special open-burning control area at the districts' request,
- Allow daily end time on burn days to be set earlier than sunset,
- Restrict the open burning season in the outlying areas of Lane County, and

- Correct the meaning of the LRAPA acronym to Lane Regional Air Protection Agency.

Brief history

LRAPA, in consultation with DEQ and the U.S. Environmental Protection Agency, is responsible for ensuring that Lane County communities comply with federal air quality health standards, including enacting plans to restore healthy air quality in any area violating standards. LRAPA conducts air monitoring, permitting and compliance, inspection and enforcement, and regulates open burning and asbestos abatement throughout Lane County. It also has a woodstove advisory program, an open burning advisory program and conducts special projects focused on air quality. The agency is funded by local dues from Lane County and the cities of Lane County, industrial and other permitting fees, and LRAPA coordinates with DEQ to obtain EPA funding and state general funds.

On March 14, 2008, the LRAPA Board of Directors adopted the Title 47 open burning rules, provided at the end of this document, and the rules have been in effect in Lane County since their adoption. The Environmental Quality Commission and DEQ have oversight authority to ensure LRAPA meets Clean Air Act requirements. The State Implementation Plan is the State of Oregon Clean Air Act Implementation Plan as adopted by EQC under OAR 340-200-0040 and approved by EPA. EQC's role is to review LRAPA rules to determine if they comply with state law and the Clean Air Act, approve those rules if they comply, and direct DEQ to submit the approved rules to EPA for federal approval as State Implementation Plan amendments.

Typically, DEQ submits LRAPA rules to EQC for incorporation into the State Implementation Plan immediately upon adoption by the LRAPA board. However, in this case, DEQ determined that the public notice process held jointly by DEQ and LRAPA several years ago did not meet requirements for State Implementation Plan rules, which are above and beyond requirements for normal rulemaking. Performing rulemaking is resource intensive and DEQ was unable to perform the additional public notice requirements until now.

Regulated parties

This proposal does not change the regulated parties or requirements for regulated parties from the rules that LRAPA's board adopted in 2008. The 2008 rules affect residential open burning in Lane County.

Summary: Short summary

DEQ proposes to incorporate Lane Regional Air Protection Agency revised regulations for permit streamlining into Oregon's State Implementation Plan in Oregon Administrative Rule 340-200-0040. The LRAPA Board of Directors adopted permit streamlining rules revisions in an effort to maximize efficiencies in LRAPA's permitting program while maintaining the existing level of environmental protection, bring LRAPA in line with state rules, and better coordinate with state and federal requirements.

The LRAPA rules contain:

NOTICES OF PROPOSED RULEMAKING

- State and federal National Emission Standards for Hazardous Air Pollutants and New Source Performance Standards that were in effect at the time of LRAPA's rule adoption.

- Streamlined and improved permitting processes comparable to DEQ rules adopted in 2001 and 2007.

- Narrowing of an agriculture exemption comparable to DEQ rules adopted in 2008.

- Minor corrections and adjustments adopted by LRAPA's Board in January 2010 to the regulations previously adopted by LRAPA's Board in October 2008.

Proposal to incorporate Lane Regional Air Protection Agency rules into the State Implementation Plan

DEQ is proposing rules to incorporate LRAPA rules into the Oregon State Implementation Plan. This includes rules for open burning, permit streamlining, and permitting requirements including new source review and prevention of significant deterioration requirements for fine particulate pollution and greenhouse gases, and national emission standards for hazardous air pollutants. The LRAPA rules were adopted by the LRAPA Board of Directors several years ago and have been in effect in Lane County since their adoption.

Typically, DEQ submits LRAPA rules to the Environmental Quality Commission for incorporation into the State Implementation Plan immediately upon adoption by the LRAPA Board. However, in this case, DEQ determined that the public notice process held jointly by DEQ and LRAPA several years ago did not meet requirements for State Implementation Plan rules, which are above and beyond requirements for normal rulemaking. Adopting new rules is resource intensive and DEQ was unable to perform the additional public notice requirements until now.

DEQ is holding a public comment period on three proposals. DEQ has authorized LRAPA to act as hearings officer on behalf of the EQC and accept public comment. DEQ plans to bring the proposed rules to the EQC for consideration in March 2014. If adopted, DEQ would submit the relevant portions of the LRAPA rules to EPA as a modification to the Oregon State Implementation Plan.

There are three rule packages:

- [Open burning](#)
- [Permit streamlining](#)
- [Permitting requirements for NSR, PSD and national emission standards for hazardous air](#)

[pollutants](#)

A public hearing will be held on Jan. 22, 2014 at 5:30 pm at 1010 Main Street, Springfield, Oregon 97477. Oral and written comments will be accepted at the hearing. Written comments may be submitted anytime through the online comment forms accessible through the links above, or as described in the rule packages, but comments must be received no later than 5:00 pm on Jan. 27, 2014.

Subject: DEQ proposes to incorporate Lane Regional Air Protection Agency rules into the State Implementation Plan

Follow Up Flag: Follow up
Flag Status: Flagged

Dear Senator Dembrow,

DEQ is proposing rules to incorporate LRAPA rules into the Oregon State Implementation Plan. This includes rules for open burning, permit streamlining, new source review and prevention of significant deterioration requirements for fine particulate pollution and greenhouse gases, and national emission standards for hazardous air pollutants. The LRAPA rules were adopted by the LRAPA Board of Directors several years ago and have been in effect in Lane County since their adoption.

Typically, DEQ submits LRAPA rules to the Environmental Quality Commission for incorporation into the State Implementation Plan upon adoption by the LRAPA Board. However, in this case, DEQ determined that the public notice process held jointly by DEQ and LRAPA several years ago did not meet requirements for State Implementation Plan rules, which are above and beyond requirements for normal rulemaking. Adopting new rules is resource intensive and DEQ was unable to perform the additional public notice requirements until now.

DEQ will hold a public comment period to incorporate relevant portions of the LRAPA rules as a modification to the Oregon State Implementation Plan in OAR 340-200-0040. DEQ has authorized LRAPA to act as hearings officer on behalf of the EQC and accept public comment. DEQ plans to bring proposed rules to the EQC for consideration in March 2014.

There are three rule packages. The announcement and documents will be posted on the Internet as follows:

- [Open burning](#)
- [Permit streamlining](#)
- [Requirements for NSR, PSD and NESHAPs](#)

The public comment period on the proposal ends Jan. 27, 2014. Please let me know if you have any questions.

Subject: Proposal to incorporate Lane Regional Air Protection Agency rules into the State Implementation Plan
Date: Wednesday, December 18, 2013 12:15:09 PM

You're receiving this notice because you're either a permit holder in Lane County or you're considered an interested party under Lane Regional Air Protection Agency rules and programs.

DEQ is proposing rules to incorporate LRAPA rules into the Oregon State Implementation Plan. This includes rules for open burning, permit streamlining, and permitting requirements including new source review and prevention of significant deterioration requirements for fine particulate pollution and greenhouse gases, and national emission standards for hazardous air pollutants. The LRAPA rules were adopted by the LRAPA Board of Directors several years ago and have been in effect in Lane County since their adoption.

Typically, DEQ submits LRAPA rules to the Environmental Quality Commission for incorporation into the State Implementation Plan immediately upon adoption by the LRAPA Board. However, in this case, DEQ determined that the public notice process held jointly by DEQ and LRAPA several years ago did not meet requirements for State Implementation Plan rules, which are above and beyond requirements for normal rulemaking. Adopting new rules is resource intensive and DEQ was unable to perform the additional public notice requirements until now.

DEQ is holding a public comment period on three proposals. DEQ has authorized LRAPA to act as hearings officer on behalf of the EQC and accept public comment. DEQ plans to bring the proposed rules to the EQC for consideration in March 2014. If adopted, DEQ would submit the relevant portions of the LRAPA rules to EPA as a modification to the Oregon State Implementation Plan.

There are three rule packages:

- [Open burning](#)
- [Permit streamlining](#)
- [Permitting requirements for NSR, PSD and national emission standards for hazardous air pollutants](#)

A public hearing will be held on Jan. 22, 2014 at 5:30 pm at 1010 Main Street, Springfield, Oregon 97477. Oral and written comments will be accepted at the hearing. Written comments may be submitted anytime through the online comment forms accessible through the website, or as described in the rule packages, but comments must be received no later than 5:00 pm on Jan. 27, 2014.

Subject: Proposal to incorporate Lane Regional Air Protection Agency rules into the State Implementation Plan

DEQ is proposing rules to incorporate LRAPA rules into the Oregon State Implementation Plan. This includes rules for open burning, permit streamlining, and permitting requirements including new source review and prevention of significant deterioration requirements for fine particulate pollution and greenhouse gases, and national emission standards for hazardous air pollutants. The LRAPA rules were adopted by the LRAPA Board of Directors several years ago and have been in effect in Lane County since their adoption.

Typically, DEQ submits LRAPA rules to the Environmental Quality Commission for incorporation into the State Implementation Plan immediately upon adoption by the LRAPA Board. However, in this case, DEQ determined that the public notice process held jointly by DEQ and LRAPA several years ago did not meet requirements for State Implementation Plan rules, which are above and beyond requirements for normal rulemaking. Adopting new rules is resource intensive and DEQ was unable to perform the additional public notice requirements until now.

DEQ is holding a public comment period beginning in December 2013 to incorporate relevant portions of the LRAPA rules as a modification to the Oregon State Implementation Plan. DEQ has authorized LRAPA to act as hearings officer on behalf of the EQC and accept for public comment. DEQ plans to bring the proposed rules to the EQC for consideration in March 2014.

There are three rule packages. The announcement and documents will be posted online as follows:

- [Open burning](http://www.oregon.gov/deq/RulesandRegulations/Pages/2013/LRAPAOB.aspx): <http://www.oregon.gov/deq/RulesandRegulations/Pages/2013/LRAPAOB.aspx>
- [Permit streamlining](http://www.oregon.gov/deq/RulesandRegulations/Pages/2013/LRAPAPS.aspx): <http://www.oregon.gov/deq/RulesandRegulations/Pages/2013/LRAPAPS.aspx>
- [Permitting requirements for NSR, PSD and national emission standards for hazardous air pollutants](http://www.oregon.gov/deq/RulesandRegulations/Pages/2013/LRAPAFED.aspx): <http://www.oregon.gov/deq/RulesandRegulations/Pages/2013/LRAPAFED.aspx>

DEQ will hold a public hearing on the proposed rule changes on January 22, 2014 at 5:30 pm at 1010 Main Street, Springfield, Oregon 97477. Oral and written comments will be accepted at the hearing. Written comments may be submitted anytime to the above address, or submitted through the online comment forms accessible through the website, but comments must be received no later than 5:00 pm on January 27, 2014. If you have questions, please contact me at Gartenbaum.andrea@deq.state.or.us or 503-229-5946.

Sincerely,

Andrea Gartenbaum
