ISC 2010

Currently on hold 09/20/12 DEQ: DEQ's SPIIT3 was approved by EPA on 09/21/12 (tomorrow). Is this the same as the industrial streamlining rules? If so, I will delete the duplication once confirmed. Does this get combined with current SIPs? It was a clean up of the ISR and can be submitted as one group but was done at 2 separate times. 11/08/12 DEQ: Mention 2010, 2008 ISR Future SIPs with Current SIPs OR-03-002, OR-42-1-6522, OR-03-003 when submitted

Will include Title 38 - waiting for EPA approval of ODEQ. Will supersede the version of Title 38 that was submitted with OR 42-1-6522 on 4/13/94 and never acted on.
