Summary: The Oregon Department of Environmental Quality (DEQ) is proposing that the Environmental Quality Commission (EQC) adopt standards that implement and in some cases go beyond new and amended federal air quality regulations. The objective of this rulemaking is to ensure that the emissions reductions required under the new and amended federal air quality regulations are made in Oregon, and to go beyond the federal regulations where further reductions are needed to protect Oregonians. The expected result of this rule is the maintenance of Oregon's delegation of the federal standards, the use of low mercury coal and/or mercury controls in Oregon, and the reduction of benzene emissions in Oregon.

Summary: Adopt new LRAPA Titles: 29, 31, 35, 37, 40, 41, 42, and 44. Amend existing LRAPA Titles: 12, 30, 32, 33, 34, 36, 37, 38, 46, 48, 49, and 50. Repeal existing LRAPA Title 35. Renumber existing LRAPA Title 37 to Title 44.

This rulemaking proposes to streamline and update the air quality permitting process by clarifying requirements, eliminating duplicative and conflicting standards, keeping rules in line with federal requirements, and correcting errors. If adopted, the proposed revisions would simplify, and better align rules with the Federal Clean Air Act while maintaining the same level of environmental protection and stringency.
