Subject: Courtesy Copy: The Oregon Department of Environmental Quality Will Recommend Adoption of Revised Freshwater Ammonia Criteria

This is a courtesy copy of an email bulletin sent by Trina Brown.

This bulletin was sent to the following groups of people:

Subscribers of Water Quality Standards (3402 recipients)

On Jan. 7-8, DEQ will recommend that the Environmental Quality Commission (EQC) adopt revisions to Oregon's water quality criteria for ammonia. These criteria protect aquatic life such as fish, aquatic insects and mussels. These revisions will likely address [EPA's Jan. 31, 2013 disapproval](#) of the ammonia freshwater criteria that the EQC adopted in 2004. DEQ is also proposing several corrections to its water quality standards rules. For more information about the ammonia revisions and corrections, see the [Water Quality Standards Revisions for Freshwater Ammonia 2014](#) website.

DEQ has posted the EQC meeting agenda and materials to the following website:
<http://www.oregon.gov/deq/EQC/Pages/EQCMeetings.aspx>

If you have questions or need additional information, you may also contact Andrea Matzke at 503-229-5384 or by [email](#).
