Rob	Vance	vance.robert@deq.state.or.us	DEQ	OR	There is a typo in Div 264-0130 (A), Multnomah burn rules on where the burn bountay is. after looking at it and going over the information I have I believe the typo is 172nd and I believe it should be 162nd. I attach a map of the discrepancy. please give me a call and I can fill you in on what I found.

Gitanjali	Hursh	anju@bust.com	home owner & private citizen	Oregon	I have lived in Oregon for 35 of my 41 yrs. In recent years I have developed asthma & I can't help but wonder if moving back into SE, near Johnson Creek & Precision Cast parts has something to do with my half lung capacity.I understand that PCP might provide local jobs but at the cost of what? Stricter regulations on air pollutants is a no brainer.

Pat	clark	nmppj@comcast.net		OR	I know you cannot avoid this change because of Supreme Court rulings. However, I am heartbroken that my Oregon has to abandon, in this instance, its quest to protect our land, our wildlife and our people. We are different. We are Oregon.
