Colleen,

Here's the corrected version.

Oh alright, Julie and I were just looking at the schedule and wanted to offer just in case. :)  
The corrected document looks great, we've got all the rules numbers , except one moved correctly. 340-225-0090 that was listed on the amend & renumber line ( 3rd from bottom and over a bit, probably why it was missed) still needs to be added to the amend line. Then we are good to go!

Thanks for this offer. I'm not working on Jeannette's rulemaking and it's unrelated, but I wouldn't be able to join tomorrow anyway.

**Subject:** Re: corrections for 6/12/14 notice.

Thank you Andrea! I will look through it and let you know if I have questions. I appreciate you making those

correction and walking through the process with me today.

I did have one other question, Jeannette from DEQ is coming in for a training session tomorrow, she is working on a rather large upcoming filing. I wondered if you were working on that as well — perhaps this notice relates to it? and wondered if you are interested in coming down for the session as well. It is at 9am in the Archives.

Thanks again,  
Colleen

**To:** VANDEHEY Maggie

**Subject:** corrections for 6/12/14 notice.

Hi Maggie-

I am processing your notice and see there will be a number of corrections in the renumber, and the amend & renumber sections. Essentially, all the rules listed on the renumber to would be new adopts, as 340-206-0410 doesn't currently exist.

And you cannot amend & renumber portions of rules. So all the rules listed on the amend & renumber would either be on the amend line (some already are), the "to's" would be listed on the adopt line.

So far the rest is looking ok, But I wanted to email you before the end of the day, as you and I will need to work on getting a correction tomorrow.

You'll have questions! Let's chat tomorrow!

Colleen
