NOTICES OF PROPOSED RULEMAKING

Department of Corrections Chapter 291

Rule Caption: Assignment of Maximum Custody Inmates to Special Security Housing

Stat. Auth.: ORS 179.040, 423.020, 423.030 & 423.075

Stats. Implemented: ORS 179.040, 423.020, 423.030 & 423.075

Proposed Amendments: 291-055-0019, 291-104-0111

Last Date for Comment: 1-15-14, 5 p.m.

Summary: These rule amendments are necessary in order for the department to clarify and conform its administrative rules to reflect the department's historical policy and practice of classifying inmates that are pending retrial in a case in which a death sentence may be re-imposed as maximum custody, and assigning these inmates to special security housing separate from the general inmate population, to provide the maximum level of inmate security, control, and supervision. The department intends that these temporary rule amendments apply retroactively to persons sentenced to the legal and physical custody of the department before, on or after the effective date of these rule amendments.

Summary: DEQ proposes rules to adopt new and amended federal air quality regulations. This includes adopting:

New federal standards for boilers and process heaters, stationary internal combustion engines, nitric acid plants, and crude oil and natural gas production, transmission and distribution

Newly amended federal standards

Rules to implement new federal emission guidelines for commercial and industrial solid waste incineration units; and adopting the federal plan for hospital, medical, and infectious waste incinerators

BACKGROUND: The federal Clean Air Act requires the U.S. Environmental Protection Agency to establish National Emission Standards for Hazardous Air Pollutants, known as NESHAPs, for both major and area sources of hazardous air pollutants. EPA finished establishing major source standards in 2004. EPA began establishing area source standards in 2006 and concluded in 2011. EPA may adopt additional NESHAPs in the future for new source categories or source categories it may have missed.

This proposed rulemaking is the final phase for Oregon's adoption of area source standards. The first four phases concluded in December 2008, December 2009, February 2011 and March 2013.

The Clean Air Act also requires EPA to develop New Source Performance Standards for categories of sources that cause or sig-

nificantly contribute to air pollution that may endanger public health or welfare. Such regulations apply to each new source within a category without regard to source location or existing air quality. When EPA establishes New Source Performance Standards for a category of sources, it may also establish emission guidelines for existing sources in the same category. States must develop rules and a state plan to implement Emission Guidelines or request delegation of the federal plan. State plans, called Section 111(d) plans, are subject to EPA review and approval.

EPA performs a residual risk analysis for major source NESHAPs and periodic technology reviews for New Source Performance Standards and NESHAPs. These reviews are ongoing and in some cases result in EPA updating the standards. EPA also revises NESHAPs to address errors, implementation issues and lawsuits.

DEQ Extends Public Comment Period for Proposed Rulemaking that Addresses Federal Air Quality Regulations

DEQ has received a request from the Northwest Pulp & Paper Association and Oregon Forest Industries Council to extend the public comment period for the proposed update to Oregon's air quality rules to address federal regulations, which had been scheduled to close on December 23, 2013. DEQ is extending the public comment period for this rulemaking until **Friday, Jan. 10, 2014 at 5:00 p.m.** to provide additional time for comment.

DEQ has proposed rules that implement new and amended federal air quality regulations. DEQ requests public comment on the proposed rules.

DEQ also requests public comment on the State plan to implement the federal Emission Guidelines for commercial and industrial solid waste incineration units and Delegation request to implement the Federal Plan Requirements for hospital, medical, and infectious waste incinerators.

The objective of this rulemaking is to update DEQ rules to ensure Oregon regulations are up to date with respect to federal air quality regulations. This rulemaking also seeks to protect public health, implement federally-delegated programs that regulate hazardous air pollutants and other air pollutants, and improve Oregon's implementation of these programs.

The draft rules, rulemaking announcement & rulemaking documents are posted [online](#). To receive a hard copy of these documents, call Jerry Ebersole, (503) 229-6974. Written comments may be mailed to the attention of Jerry Ebersole at DEQ, 811 SW Sixth Avenue, Portland, OR 97204, faxed to 503-229-5675, or submitted through the [online comment form](#).
