

## ADMINISTRATIVE RULES

(i) The public agency's existing CWSRF loan or debt obligation for treatment works is not in default.

(ii) The median household income in the area that the treatment works of the public agency serves is less than 70 percent of the statewide median household income.

(iii) The public agency's existing CWSRF loan or debt obligation for treatment works has a remaining term of 10 years or greater.

(iv) The public agency's existing CWSRF loan or debt obligation for treatment works does not include any American Recovery and Reinvestment Act funds or provide for principal forgiveness.

(B) The public agency must:

(i) Submit written confirmation to DEQ by May 1, 2014 that it intends to refinance its existing CWSRF loan or debt obligation for treatment works with the proceeds of a bond for treatment works issued by the public agency and purchased by DEQ; and

(ii) Complete the issuance and sale of the bond for treatment works by February 1, 2016.

(C) When DEQ purchases a debt obligation to replace an existing CWSRF loan or debt obligation, the amortization period of the debt obligation may not exceed the lesser of:

(i) The useful life of the asset, or

(ii) Thirty years minus the number of years that the existing CWSRF loan or debt obligation has been in repayment.

(D) The interest rate for the bond for treatment works DEQ purchases as described in subsection (b) of this section of the rule is determined under subsection (b) of section (7) of this rule.

(c) Refinancing an interim loan. A public agency may sell a bond to DEQ to refinance an interim loan or reimburse itself for self-generated funds used to pay DEQ-approved project costs for treatment works if the public agency meets the conditions in OAR 340-054-0056(3).

(6) Conditions for bond purchase. The terms, conditions and requirements set out in OAR 340-054-0060 apply to a bond purchase.

(7) Bond purchase, terms and interest rates.

(a) Bonds. A bond DEQ purchases under this rule must be a revenue bond for a term not to exceed 30 years and meet the requirements specified in OAR 340-054-0065(2).

(b) Interest rates. OAR 340-054-0065(4)(b) specifies the base rate for a bond purchase. DEQ will provide the following interest rates for bond purchases:

(A) For bond purchase agreements for treatment works executed between February 1, 2014 and January 31, 2016, DEQ will calculate the interest rates in accordance with Table 3 of this section.

(B) For bond purchase agreements executed on or after February 1, 2016, interest rates will be calculated in accordance with OAR 340-054-0065(4)(f)(B).

(c) Interest accrual and payment. OAR 340-054-0065(5) sets the terms for interest accrual and payment for bond purchases under this rule.

(d) Annual fee. OAR 340-054-0065(6) specifies the annual fee for a bond purchase.

(e) Commencement of bond repayment. OAR 340-054-0065(7) prescribes when a public agency must begin principal and interest repayment for a bond DEQ purchased under this rule.

(f) Term. A public agency must fully repay bond purchases under this rule in accordance with a schedule DEQ prescribes. The term of the bond DEQ purchases under this rule will not exceed 30 years after project completion or the useful life of the asset financed by the bond, whichever is less.

(g) Minor variations in bond terms. DEQ may, as OAR 340-054-0065(9) specifies, authorize minor variations in financial terms of a bond purchased under this rule to facilitate administration and repayment of the bond.

(h) Principal forgiveness. DEQ may provide principal forgiveness for a bond purchase in the same manner as for a loan under OAR 340-054-0065(11).

.....

**Rule Caption:** Infrastructure SIP PM2.5 Standard Update

**Adm. Order No.:** DEQ 10-2015

**Filed with Sec. of State:** 10-16-2015

**Certified to be Effective:** 10-16-15

**Notice Publication Date:** 8-1-2015

**Rules Amended:** 340-200-0040, 340-202-0060, 340-250-0030

**Subject:** DEQ proposes the Oregon Environmental Quality Commission approve the proposed rules for incorporation into the Oregon Clean Air Act State Implementation Plan and submittal to the U.S. Environmental Protection Agency for its approval under the federal Clean Air Act. After the public notice period, DEQ will submit the proposed rules to EQC for approval. Following the commission's approval, DEQ will submit the proposed rules to EPA for its approval.

The proposed rule amendments incorporate a revised annual National Ambient Air Quality Standard for PM 2.5 and amend the definition of NAAQS to include PM 2.5 in Oregon's administrative rule. These changes will allow Oregon to meet Clean Air Act requirements and request that EPA approve Oregon's revised State Implementation Plan.

The proposal includes the following actions:

- Amend Oregon Administrative Rule 340-200-0040 to update the Oregon Clean Air Act State Implementation plan. If EQC adopts the amendments, the actions proposed in this rulemaking will be incorporated into and made part of the Oregon SIP.

- Amend OAR 340-202-0060(3) to incorporate the annual national primary ambient air quality standard for PM 2.5, adopted by the EPA, Dec. 14, 2012, and effective on March 18, 2013.

- Amend OAR 340-250-0030(22) to include PM 2.5 as part of the definition of NAAQS.

In addition to the rule amendments outlined above, a "crosswalk" titled "Infrastructure SIP Submittal for Purposes of Clean Air Act Sections 110(a)(1) and (2) for the 2012 PM 2.5 NAAQS" is included with this proposal. The crosswalk identifies existing Oregon Administrative Rules and corresponding Oregon Revised Statutes that demonstrate DEQ has the necessary authorities in place to implement requirements of Sections 110(a)(1) and (a)(2) of the CAA with respect to the current NAAQS for PM 2.5. They are included for EQC approval and submittal to EPA as documentation that the infrastructure elements of the Oregon SIP meet the requirements of the CAA as they relate to the PM 2.5 NAAQS.

The interstate transport provision in the CAA, section 110(a)(2)(D)(i), (also called "the good neighbor" provision) requires each state to submit a SIP that prohibits emissions that will have certain adverse air quality effects in other states. This section of the SIP is due within three years of the EPA establishing a new or revised NAAQS. DEQ's State Implementation Plan addresses the interstate transport of PM 2.5. Note: The interstate transport submittal also addresses Sulfur Dioxide (SO<sub>2</sub>), Nitrogen Dioxide (NO<sub>2</sub>) and Lead (Pb) SIP standards updated in 2013. (Attachment C).

### 340-200-0040

#### State of Oregon Clean Air Act Implementation Plan

(1) This implementation plan, consisting of Volumes 2 and 3 of the State of Oregon Air Quality Control Program, contains control strategies, rules and standards prepared by DEQ and is adopted as the state implementation plan (SIP) of the State of Oregon pursuant to the federal Clean Air Act, 42 U.S.C.A 7401 to 7671q.

(2) Except as provided in section (3), the Commission will revise the SIP pursuant to the rulemaking procedures in division 11 of this chapter and any other requirements contained in the SIP and will direct DEQ to submit such revisions to the United States Environmental Protection Agency for approval. The Commission last adopted revisions to the State Implementation Plan on Oct. 15, 2015.

(3) Notwithstanding any other requirement contained in the SIP, DEQ may:

(a) Submit to the Environmental Protection Agency any permit condition implementing a rule that is part of the federally-approved SIP as a source-specific SIP revision after DEQ has complied with the public hearings provisions of 40 CFR 51.102 (July 1, 2002); and

(b) Approve the standards submitted by a regional authority if the regional authority adopts verbatim any standard that the Commission has adopted, and submit the standards to EPA for approval as a SIP revision.

**NOTE:** Revisions to the State of Oregon Clean Air Act Implementation Plan become federally enforceable upon approval by the United States Environmental Protection Agency. If any provision of the federally approved Implementation Plan conflicts with any provision adopted by the Commission, DEQ shall enforce the more stringent provision.

## 340-202-0060

### Suspended Particulate Matter

Concentrations of the fraction of suspended particulate that is equal to or less than ten microns in aerodynamic diameter in ambient air as measured by an approved method must not exceed:

(1) 150 micrograms of PM10 per cubic meter of air as a 24-hour average concentration for any calendar day. This standard is attained when the expected number of days per calendar year with a 24-hour average concentration above 150 micrograms per cubic meter as determined in accordance with **Appendix K of 40 CFR 50** is equal to or less than one at any site. Concentrations of the fraction of suspended particulate that is equal to or less than 2.5 microns in aerodynamic diameter in ambient air as measured by an approved method must not exceed:

(2) 35 micrograms of PM2.5 per cubic meter of air as a 3-year average of annual 98th percentile 24-hour average values recorded at each monitoring site. This standard is attained when the 3-year average of annual 98th percentile 24-hour average concentrations is equal to or less than 35 micrograms per cubic meter as determined in accordance with **Appendix N of 40 CFR 50**.

(3) 12 micrograms of PM2.5 per cubic meter of air as a 3-year average of the annual arithmetic mean. This standard is attained when the annual arithmetic mean concentration is equal to or less than 12 micrograms per cubic meter as determined in accordance with **Appendix N of 40 CFR 50**.

**NOTE:** This rule is included in the State of Oregon Clean Air Act Implementation Plan as adopted by the Environmental Quality Commission under OAR 340-200-0040.

## 340-250-0030

### Definitions

The definitions in OAR 340-200-0020, 340-204-0010 and this rule apply to this division. If the same term is defined in this rule and 340-200-0020 or 340-204-0010, the definition in this rule applies to this division.

(1) "Affected federal land manager" means the federal agency or the federal official charged with direct responsibility for management of an area designated as Class I under the Act that is located within 100 km of the proposed federal action.

(2) "Applicable implementation plan" or "applicable SIP" means the portion (or portions) of the applicable SIP or most recent revision thereof, which has been approved under Section 110 of the Act, or promulgated under Section 110(c) of the Act (Federal implementation plan), or promulgated under Section 301(d) of the Act which implements the relevant requirements of the Act.

(3) "Areawide air quality modeling analysis" means an assessment on a scale that includes the entire nonattainment area or maintenance area which uses an air quality dispersion model to determine the effects of emissions on air quality.

(4) "Cause or contribute to any new violation of any standard in any area" means a federal action that:

(a) Causes a new violation of a NAAQS at a location in a nonattainment area or maintenance area which would otherwise not be in violation of the standard during the future period in question if the federal action were not taken; or

(b) Contributes, in conjunction with other reasonably foreseeable actions, to a new violation of a NAAQS at a location in a nonattainment area or maintenance area in a manner that would increase the frequency or severity of the new violation.

(5) "Caused by," as used in the terms "direct emissions" and "indirect emissions," means emissions that would not otherwise occur in the absence of the federal action.

(6) "Criteria pollutant" means any pollutant for which there is established a NAAQS at 40 CFR part 50 (July 1, 1994).

(7) "Direct emissions" means those emissions of a criteria pollutant or precursors of a criteria pollutant that are caused or initiated by the federal action and occur at the same time and place as the action.

(8) "Emergency" means a situation where extremely quick action on the part of the Federal agencies involved is needed and where the timing of such federal activities makes it impractical to meet the requirements of this division, such as natural disasters like hurricanes or earthquakes, civil disturbances such as terrorist acts, and military mobilizations.

(9) "Emissions budgets" means those portions of the applicable SIP's projected emissions inventories that describe levels of emissions (mobile, stationary, area, etc.) that provide for meeting reasonable further progress milestones, attainment, or maintenance for any criteria pollutant or precursors of a criteria pollutant.

(10) "Emissions offsets", for purposes of OAR 340-250-0080, means emissions reductions which are quantifiable, consistent with OAR 340 division 268 and 340-224-0090, and the applicable SIP attainment and reasonable further progress demonstrations, surplus to reductions required by, and credited to, other SIP provisions, enforceable at both the state and federal levels, and permanent within the timeframe specified by the program.

(11) "Emissions that a federal agency has a continuing program responsibility for" means emissions that are specifically caused by an agency carrying out its authorities, and does not include emissions that occur due to subsequent activities, unless such activities are required by the federal agency. Where an agency, in performing its normal program responsibilities, takes actions itself or imposes conditions that result in air pollutant emissions by a nonfederal entity taking subsequent actions, such emissions are covered by the meaning of a continuing program responsibility.

(12) "EPA" means the United States Environmental Protection Agency.

(13) "Federal action" means any activity engaged in by a department, agency, or instrumentality of the federal government, or any activity that a department, agency or instrumentality of the federal government supports in any way, provides financial assistance for licenses, permits, or approves under title 23 U.S.C. or the Federal Transit Laws (49 U.S.C. Chapter 53). Where the federal action is a permit, license, or other approval for some aspect of a nonfederal undertaking, the relevant activity is the part, portion, or phase of the nonfederal undertaking that requires the federal permit, license, or approval.

# ADMINISTRATIVE RULES

(14) “Federal agency” means a federal department, agency, or instrumentality of the federal government.

(15) “Increase the frequency or severity of any existing violation of any standard in any area” means to cause a nonattainment area to exceed a standard more often or to cause a violation at a greater concentration than previously existed or would otherwise exist during the future period in question, if the project were not implemented.

(16) “Indirect emissions” means those emissions of a criteria pollutant or precursors of a criteria pollutant that:

(a) Are caused by the federal action, but may occur later in time or may be farther removed in distance from the action itself but are still reasonably foreseeable; and

(b) The federal agency can practicably control and will maintain control over due to a continuing program responsibility of the federal agency.

(17) “Local air quality modeling analysis” means an assessment of localized impacts on a scale smaller than the entire nonattainment area or maintenance area, including, for example, congested roadway intersections and highways or transit terminals, which uses an air quality dispersion model to determine the effects of emissions on air quality.

(18) “Maintenance area” means an area with a maintenance plan approved under Section 175A of the Act.

(19) “Maintenance plan” means a revision to the applicable SIP, meeting the requirements of Section 175A of the Act.

(20) “Metropolitan Planning Organization” or “MPO” means that organization designated as being responsible, together with the state, for conducting the continuing, cooperative, and comprehensive planning process under 23 U.S.C. 134 and 49 U.S.C. 1607.

(21) “Milestone” has the meaning given in Sections 182(g)(1) and 189(c)(1) of the Act.

(22) “National ambient air quality standards” or “NAAQS” means those standards established pursuant to Section 109 of the Act and include standards for carbon monoxide (CO), lead (Pb), nitrogen dioxide (NO<sub>2</sub>), ozone, particulate matter (PM<sub>10</sub>, PM 2.5), and sulfur dioxide (SO<sub>2</sub>).

(23) “NEPA” means the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321 et seq.).

(24) “Nonattainment area” means an area designated as nonattainment under Section 107 of the Act and described in 40 CFR part 81 (July 1, 1994).

(25) “Precursors of a criteria pollutant” means:

(a) For ozone, nitrogen oxides (NO<sub>x</sub>), unless an area is exempted from NO<sub>x</sub> requirements under Section 182(f) of the Act, and volatile organic compounds (VOC); and

(b) For PM<sub>10</sub>, those pollutants described in the PM<sub>10</sub> nonattainment area applicable SIP as significant contributors to the PM<sub>10</sub> levels.

(26) “Reasonably foreseeable emissions” means projected future indirect emissions that are identified at the time the conformity determination is made; the location of such emissions is known and the emissions are quantifiable, as described and documented by the federal agency based on its own information and after reviewing any information presented to the federal agency.

(27) “Regional water or wastewater projects” include construction, operation, and maintenance of water or wastewater treatment facilities, and water storage reservoirs which affect a large portion of a nonattainment area or maintenance area.

(28) “Regionally significant action” means a federal action for which the direct emissions and indirect emissions of any pollutant represent 10 percent or more of a nonattainment area’s or maintenance area’s emissions inventory for that pollutant.

(29) “Total of direct and indirect emissions” means the sum of direct emissions and indirect emissions increases and decreases caused by the federal action; i.e., the “net” emissions considering all direct emissions and indirect emissions. The portion of emissions which are exempt or presumed to conform under OAR 340-250-0020(4), (5), (6) or (7) are not included in the “total of direct and indirect emissions.”

[NOTE: This rule is included in the State of Oregon Clean Air Act Implementation Plan as Adopted by the Environmental Quality Commission under OAR 340-200-0040.]

## Department of Fish and Wildlife Chapter 635

**Rule Caption:** Retention of Non-Adipose Fin-clipped Chinook in Youngs Bay, Youngs and Klaskanine Rivers Prohibited.

**Adm. Order No.:** DFW 142-2015(Temp)

**Filed with Sec. of State:** 10-16-2015

**Certified to be Effective:** 10-16-15 thru 12-31-15

**Notice Publication Date:**

**Rules Amended:** 635-014-0090

**Rules Suspended:** 635-014-0090(T)

**Subject:** This amended rule prohibits retention of non-adipose fin-clipped Chinook salmon in portions of Youngs Bay and the Youngs River from the commercial fishing deadline at Battle Creek Slough upstream to Youngs River Falls; and the Klaskanine River upstream from the confluence with Youngs River, North Fork Klaskanine upstream to Klaskanine Hatchery Dam, and South Fork Klaskanine upstream to the first falls (approximately RM 4.7) beginning Sunday, October 18 through Saturday, October 31, 2015.

#### Inclusions and Modifications

(1) The **2015 Oregon Sport Fishing Regulations** provide requirements for the Northwest Zone. However, additional regulations may be adopted in this rule division from time to time and to the extent of any inconsistency, they supersede the **2015 Oregon Sport Fishing Regulations** pamphlet.

(2) Notwithstanding all other requirements provided in the 2015 Oregon Sport Fishing Regulations pamphlet, the following additional rules apply to wild coho salmon angling in waters of the Northwest Zone during the period September 1–December 31, 2015:

(a) For the purposes of regulations described in section (2) of this rule, wild coho are defined as fish with an intact adipose fin.

(b) For all waters in the Northwest and Southwest zones that are open to wild coho harvest, anglers may not take more than 1 wild adult coho and 1 wild jack coho per day regardless of location. There is no seasonal limit on wild coho jacks regardless of location. The seasonal limit on wild coho adults for the Northwest and Southwest zones is 5 fish in aggregate from all waters. Harvest of wild coho salmon is allowed in the following waterbodies with restrictions as specified in sections (2)(c) through (2)(i) of this rule.

(A) No more than 1 adult wild coho may be harvested for the season from either the Nestucca River Basin or the Tillamook River Basin. Wild adult coho taken from these areas do not count towards the 2 fish limit described in section (2)(b)(B) of this rule, but do count towards the overall 5 fish aggregate limit for the Northwest and Southwest zones;

(B) No more than 2 adult wild coho in total for the season may come from any combination of the following areas: Siletz River, Yaquina River, Alsea River, Siuslaw River, Umpqua River, Beaver Creek (Ona Beach), Floras Creek/New River, Coos River, and Coquille River. Wild adult coho taken from these areas do not count towards the 1 fish limit described in section (2)(b)(A) of this rule, but do count towards the overall 5 fish aggregate limit for the Northwest and Southwest zones; and

(C) No more than 5 adult wild coho in total for the season may come from any combination of the following areas: Siltcoos Lake, Tahkenitch Lake, and Tenmile Lake (SW Zone). Wild adult coho taken from these areas do not count against aggregate limits described in sections (2)(b)(A) and (2)(b)(B) of this rule, but do count towards the overall 5 fish limit for the Northwest and Southwest zones as specified in section (2)(b) of this rule.

(c) Tillamook Bay tidewater from the jetty tips upstream to Highway 101 Bridge on Miami, Kilchis, Wilson, and Trask rivers and Burton Bridge on Tillamook River is open on Fridays and Saturdays only for wild coho salmon from September 18 through October 31. Daily and seasonal catch limits as described in section (2)(b) of this rule apply.

(d) Nestucca Bay tidewater (excluding Little Nestucca tidewater) from the bay mouth upstream to the Cloverdale Bridge (RM 7.1) is open on Sundays and Mondays only for wild coho salmon from September 20 through November 2. Daily and seasonal catch limits as described in section (2)(b) of this rule apply.

(e) Siletz River and Bay upstream to an ODFW marker sign approximately 1,200 feet upstream of Ojalla Bridge (RM 31) is open for wild coho salmon from September 15 through October 6; Siletz River and Bay upstream to Illahee Boat Ramp is open for wild coho salmon from October
