RULE SUMMARY

DEQ proposes the Environmental Quality Commission approve new proposed rules to correct a miscalculation of how the clean fuel standards and the carbon intensity values of two fuel pathways were calculated in the rules adopted by the EQC on Dec. 9, 2015.

The EQC adopted temporary rules on April 21, 2016 to correct the miscalculation described above; this rulemaking will make those corrections permanent.

A public rulemaking hearing may be requested in writing by 10 or more people, or by an association with 10 or more members, within 21 days following the publication of the Notice of Proposed Rulemaking in the *Oregon Bulletin* or 28 days from the date Notice was sent to people on the agency mailing list, whichever is later. If sufficient hearing requests are received, the notice of the date and time of the rulemaking hearing must be published in the *Oregon Bulletin* at least 14 days before the hearing.

The Agency requests public comment on whether other options should be considered for achieving the rule's substantive goals while reducing negative economic impact of the rule on business.
