Subscribers of Rulemaking or Water Quality Permits (8991 recipients)

On Thursday, September 13, 2018, the Environmental Quality Commission adopted proposed rule amendments revising rules that affect quality permit fees. The affected rules are in OAR 340-045-0075 and 340-071-0800.

Summary

The proposed rule amendments increase water quality fees for fiscal year 2019 by seven percent. These fees apply to National Pollutant Discharge Elimination System permits and Water Pollution Control Facility permits. As part of this rulemaking rule amendments also increase permit fees for the municipal separate storm sewer system permits, commonly called MS4.

Additional Information

To learn more about this rulemaking you can view the rulemaking web page at: [WQ Permit Fees Web Page](#).

The EQC staff report contains the information presented to EQC for its decision and also includes copies of the rule amendments that EQC adopted. You can view a copy of the EQC staff report [HERE](#).
