STANDARDS APPLICABLE TO GENERATORS OF HAZARDOUS WASTE

340-102-0065

Hazardous Waste Generator Fees

[Note: Summary of changes: Amends fees for generators.]

(1)(a) A person must pay an annual hazardous waste generation fee if that person:

(A) Generates more than 100 kilograms (220 pounds) of hazardous waste in any calendar month, or

(B) Generates more than 1 kilogram (2.2 pounds) of acutely hazardous waste in any calendar month, or

(C) Accumulates more than 1,000 kilograms (2,200 pounds) of hazardous waste at any time in a calendar year.

(b) The Department will assess fees annually for hazardous waste management activities conducted in the previous year.

(2)(a) The Department will assess a late charge equal to ten percent of the fee due if the Department does not receive the fees by the due date on the invoice.

(b) The Department will assess an additional late charge of ten percent of the unpaid amount for each 30 days that the invoice remains unpaid.

(c) The Department will not assess any additional late charges ~~After 90 days, no further Department late charges shall be assessed;~~ hHowever, the Department may take whatever action it determines necessary to collect the outstanding amount. This may include, but is not limited to, referring such invoices ~~may be referred~~ to the Department of Revenue for collection or collecting ed in Small Claims Court. The Department will increase ~~A~~accounts referred to the Department of Revenue for collection or collected in Small Claims Court ~~shall be increased~~ by 20 percent of the unpaid amount or \$100, whichever is greater, to recover a portion of the costs for referral or collection.

(3)(a) ORS 466.165 sets the base hazardous waste generation fee.

(b) In order to determine annual hazardous waste generation fees, the Department may use generator reports required by OAR 340-102-0041, facility reports required by OAR

340-104-0075, information derived from manifests required by 40 C.F.R. Section 262.20, and any other relevant information.

(c) Unless density information is reported, the Department will use the following conversion factors: one metric ton = 1,000 kilograms = 2,205 pounds = 1.10 short tons = 1.31 cubic yards = 264.23 gallons = 4.80 drums (55 gallon).

(de) The Department will calculate each person's hazardous waste generation fee by multiplying the base fee by the weight of each hazardous waste stream and by the fee factors listed below in Table 1 for the management method the person reports in the annual generation report (OAR 340-102-0041), as follows:

(e) Permitted Operating Hazardous Waste Disposal Administrative Fee: In addition to the fee assessed under paragraph (c) of this section, the Department will assess operating permitted disposal facilities an annual administrative fee of \$5.50 per metric ton of waste disposed into a permitted Subtitle C land disposal unit. A facility subject to this fee may elect to pay on a monthly or quarterly basis.

~~(4) Permit Modification Fee: Upon discussion with the permittee to determine the appropriate permit modification classification, the Department will assess the applicant shall be assessed for any permit modification, excluding modifications related to corrective action, as follows:~~

(b) Within 60 days after receiving ~~of receipt of~~ a request for a hazardous waste delisting and declassification, variance from treatability or from the definition of hazardous waste or solid waste, or hazardous waste petition for a universal waste listing, the Department may determine that the nature of the request, including the complexity of the proposed action and the factors required to be met for the request to be processed, indicate that a higher fee would be required. If the Department makes such a determination, the Department ~~shall~~ will require the requestor to pay ~~payment of~~ a higher fee, but not to exceed an additional \$100,000.
