PLANS: An accurate and scaled site plan, scaled elevation views, and other supporting drawings illustrating the location and dimensions of the proposed solar facility, including but not limited to support structure(s), alternative support structure(s), equipment enclosures, any and all other devices and attachments. Scaled free-hand drawings are acceptable.

Community Development Code Article 16: Solar Energy

16.035 (A) (1) All applications for permits for the placement and construction of solar facilities, except those listed in Section 16.010.B shall be accompanied by the following:

- A complete description of the proposed solar facility system including use of concealment technology, height, location, siting/site plan, color, and design, and description of services the applicant intends to provide from the facility. Manufacturer specification sheets on the equipment shall be provided.
- 2. Proof of ownership of the land upon which the solar facility is proposed; or evidence of an appropriate easement, lease, rental agreement, or land use application signed by the applicant and signed by the underlying property owner.
- 3. If mounted on a tower, data pertaining to the tower's safety and structural stability, including safety results from test facilities.
- 4. An accurate and scaled site plan, scaled elevation views, and other supporting drawings illustrating the location and dimensions of the proposed solar facility, including but not limited to:
 - a. Support structure(s)
 - b. Alternative support structure(s)
 - c. Equipment enclosures
 - d. Any and all other devices and attachments.

Not required for facilities listed as Outright in Section 16.030.A. {HB 3516}

- 5. If Federal funds are involved, evidence demonstrating that the applicant has filed a request with the State Historic Preservation Office (SHPO) to review the application under Section 106 of the National Historic Preservation Act (NHPA), or evidence demonstrating that the applicant has complied with all State Historic Preservation Office requirements as a result of the Section 106 consultation.
- 6. Payment of fees. Not required for facilities listed as Outright in Section 16.030.A.
- 7. All such additional information as the Community Development Director may identify as being relevant to the permitting process.
- 8. No small scale solar energy systems shall be constructed or operated within the City limits until all necessary City, State, and Federal approvals have been secured. Evidence of approvals shall be provided to the City.

- 9. Manufacturer information on the reflective nature of the solar facility to evaluate the potential light reflection into adjacent properties and rights-of-way.
 - Not required for facilities listed as Outright in Section 16.030.A.
- 10. Visual impact analysis and demonstrations including mock-ups and/or photo simulations from at least three (3) directional perspectives. Simulations should include:
 - a. Perspectives from all directions that could impact view corridors;
 - b. Perspectives from above the site for roof mounted facilities;

Not required for facilities listed as Outright in Section 16.030.A.

- 11. Landscape and/or screening plan as required by Section 16.040.E.
- 12. Applicant shall submit the fee, copies of a complete application and plans, and other required information in accordance with Article 16. Only one copy shall be submitted for Type I and Type II applications reviewed administratively as an Outright Use and/or Administrative Conditional Use. For Type III applications requiring Planning Commission Conditional Use review, ten (10) copies shall be submitted. Digital copies of plans and required information is encouraged.
- B. All applications for solar facilities specified in Section 16.010.B.1 shall be accompanied by the following:
 - 1. A complete description of the proposed solar facility system including use of concealment technology, height, location, siting/site plan, color, and design, and description of services the applicant intends to provide from the facility. Manufacturer specification sheets on the equipment shall be provided.
 - 2. Proof of ownership of the land upon which the solar facility is proposed; or evidence of an appropriate easement, lease, rental agreement, or land use application signed by the applicant and signed by the underlying property owner.
 - 3. Photo of the proposed location as viewed from the street.
