INTRODUCTORY SECTION

CITY OF ASTORIA

Founded 1811 • Incorporated 1856

December 29, 2009

Honorable Mayor, Members of the
City Council and the City Manager
City of Astoria, Oregon 97103

State law requires that every general-purpose local government publish, within six months of the close of each fiscal year, a complete set of audited financial statements. This report is published to fulfill that requirement for the fiscal year ended June 30, 2010.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

As required by Generally Accepted Accounting Principles (GASB Statement No. 14), this report includes the government and its component units, entities for which the government is considered to be financially accountable. Blended component units, although legally separate entities, are in substance, part of the government's operations and, so, data from these units are combined with data of the primary government. See Footnote 1.A for further elaboration.

Merina & Company, LLP, Certified Public Accounts, has issued an unqualified ("clean") opinion on the City of Astoria's financial statements for the year ended June 30, 2010. The independent auditor's report is located in the front of the financial section of this report.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

Profile of the Government

The City of Astoria is located in Clatsop County in the northwestern corner of Oregon. Situated on the shores of Young's Bay and the Columbia River, just seven miles from the Pacific Ocean, the area is noted for its spectacular scenery, its history, natural resources and outstanding recreational opportunities.

The City is the oldest permanent American settlement west of the Rocky Mountains. It was first settled in 1811 by fur traders working for New York fur merchant John Jacob Astor, after whom the City draws its name. Astoria was first incorporated as a city in 1856. During the late 1800s, with its bustling salmon canneries, forest products and shipping industries, Astoria was known as the liveliest boom town between Seattle and San Francisco.

The City operates under the council-manager form of government. Policy-making and legislative authority are vested in a governing council consisting of the mayor and four other members. The governing council is responsible for, among other things, passing ordinances, adopting the budget, appointing committees, and hiring the government's manager, attorney and municipal judge. The government's manager is responsible for carrying out the policies and ordinances of the governing council, for overseeing the day-to-day operations of the government, and for appointing the heads of the various departments.

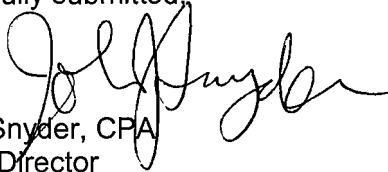

Members of the council are elected on a non-partisan basis. The members serve four-year staggered terms, with two council members elected every two years. Each member represents a geographical ward and must live within that ward. The mayor is elected at large to serve a four-year term.

Accounting System and Budgetary Control

The accounting system was designed with consideration given to a system of internal controls that: (1) safeguard assets against loss from unauthorized use or disposition, and (2) maintain the reliability of financial records for preparation of financial statements and accountability for assets. Budgetary control is maintained at the department level, in those funds having departments, and at the object level in all other funds by the encumbrance of estimated purchase amounts prior to the release of purchase orders to vendors

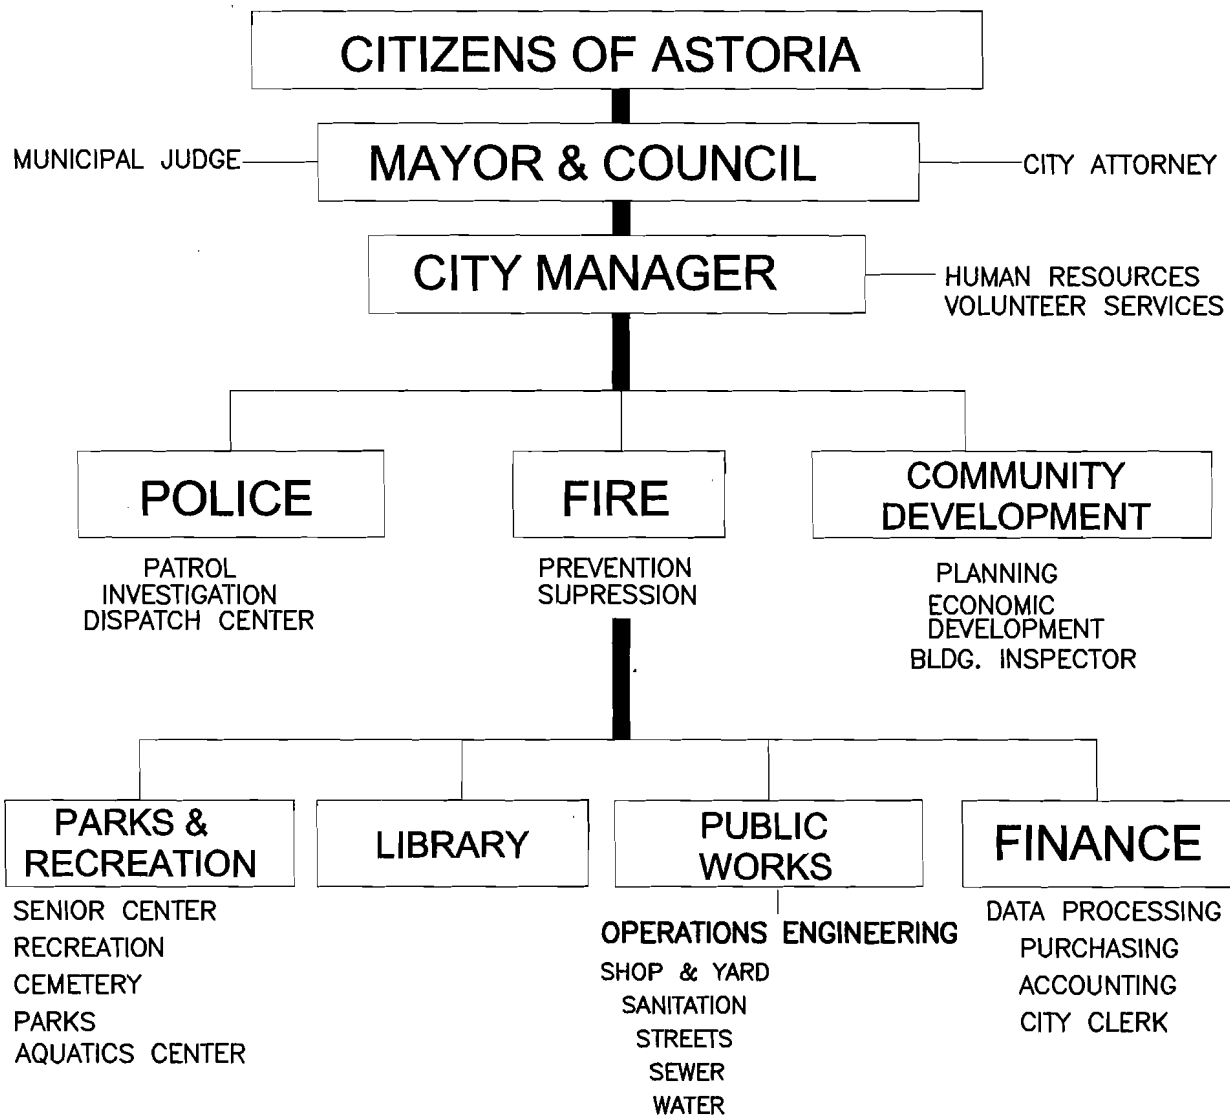

The annual budget serves as the foundation for the City's financial planning and control. All departments of the City are required to submit requests for appropriation to the government's manager during February of each year. The city manager uses these requests as the starting point for developing a proposed budget. As required by Oregon Local Budget Law, the manager then presents this proposed budget to a budget committee comprised of the five members of the City Council and five residents of the City who are appointed by the Mayor. The budget committee holds a public hearing and then reviews, revises and approves the budget. The budget is then submitted to the city council. The council is required to hold a public hearing on the approved budget and to adopt a final budget before June 30, the close of the City's fiscal year. The appropriated budget is prepared by fund, function (e.g., general), and department (e.g., police). Department heads may transfer resources within a department as they see fit. Transfers between departments, however, are done by resolution of the council in accordance with Oregon Local Budget Law.

Respectfully submitted,

John J. Snyder, CPA
Finance Director

FINANCIAL SECTION

INDEPENDENT AUDITOR'S REPORT

The Honorable Mayor and City Council
City of Astoria
Astoria, Oregon

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Astoria, Oregon (the City), as of and for the year ended June 30, 2010, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City, as of June 30, 2010, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 29, 2010, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquires of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquires, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. The budgetary comparison information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's financial statements as a whole. The introductory section, other supplementary information, and budgetary comparison schedules – non-major governmental and proprietary funds as listed in the table of contents are presented for purposes of additional analysis and are not a required part of the financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the financial statements. The other supplementary information, budgetary comparison schedules – non-major governmental and proprietary funds and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

MANAGEMENT'S DISCUSSION AND ANALYSIS

This discussion and analysis presents the highlights of financial activities and financial position for the City of Astoria (City). The analysis focuses on significant financial issues, major financial activities and resulting changes in financial position, budget changes, and specific issues related to funds and the economic factors affecting the City.

Management's Discussion and Analysis (MD&A) focuses on current year activities and resulting changes. Please read it in conjunction with the Transmittal Letter and the City's financial statements.

FINANCIAL HIGHLIGHTS

The City's net assets total \$36,797,616. This includes general and business-type fixed assets. Infrastructure improvements have been added for these financial statements.

Governmental revenues increased by \$787,263 (or 6.7%). This increase is attributable to an increase in charges for services, property tax collections and grant proceeds, as shown below.

Business-type activities revenues increased by \$100,645 (or 1.5%). This is attributable to charges for services and grants for public works projects.

Overall, City expenses for both fund types decreased by \$135,422 (or -.79%). This is attributable to cost saving efforts by management.

These items are described later on in this discussion.

REPORT LAYOUT

The City's annual financial report consists of several sections. Taken together they provide a comprehensive financial look at the City. The components of the report include the following:

Management's Discussion and Analysis. This section of the report provides financial highlights, overview and economic factors affecting the City.

Basic Financial Statements. These include Statement of Net Assets, Statement of Activities, fund financial statements and the notes to the financial statements. Statements of Net Assets and Activities focus on an entity-wide presentation using the accrual basis of accounting. They are designed to be more corporate-like in that all activities are consolidated into a total for the City.

- The Statement of Net Assets focuses on resources available for future operations. In simple terms, this statement presents a snapshot view of the assets the community owns, the liabilities it owes and the net difference. The net difference is further separated into amounts restricted for specific purposes and unrestricted amounts.
- The Statement of Activities focuses on gross and net costs of city programs and the extent to which such programs rely upon general tax and other revenues. This statement summarizes and simplifies the user's analysis to determine the extent to which programs are self-supporting and/or subsidized by general revenues.
- Fund financial statements focus separately on major governmental funds and proprietary funds. Governmental fund statements follow the more traditional presentation of financial statements. The City's major governmental funds are presented in their own column and the remaining funds are combined into a column titled "Other Governmental Funds." Statements for the City's proprietary funds follow the governmental funds and include net assets, revenues, expenses and changes in fund net assets, and cash flows. The budgetary statements for the major

governmental and proprietary funds are located in the Required Supplementary Information section.

- The notes to the financial statements provide additional disclosures required by governmental accounting standards and provide information to assist the reader in understanding the City's financial condition.

Other Supplementary Information. Readers desiring additional information on non-major funds can find it in the Combining Statements of Non-major Funds and/or the Supplementary Information-Budgetary Comparison sections of this report. Components within this section include:

- Combining Statements. Non-major funds are presented here, whereas major funds are included within the Basic Financial Statements. These statements include balance sheets and statements of revenues, expenditures and changes in fund balances that are carried forward to the Basic Financial Statements.
- Budgetary Comparisons. Budgetary information for all non-major governmental and proprietary funds is presented here.
- Capital Assets and Other Financial Schedules complete the Financial Section of the report.

Reports by independent certified public accountants. Supplemental communication on city compliance and internal controls as required by Oregon statutes.

STATEMENT OF NET ASSETS AT JUNE 30, 2010

Governmental Activities

A comparison of governmental current assets indicates an overall increase of \$768,348.

	<u>2009</u>	<u>2010</u>	<u>Difference</u>
Total Governmental Current Assets	\$12,025,939	\$12,794,287	\$768,348

This is attributable, for the most part, to increases in assets of the nonmajor governmental funds.

Business-type Activities

The transactions of the Public Works Improvement Fund are classified as a business-type activity because this fund receives water and sewer revenues that fund public works capital improvements. Also, the City has entered into an agreement with the Department of Environmental Quality to design and construct combined sewer overflow infrastructure. The two funds related to this project are added to the business-type funds. Infrastructure is included in the assets of the Public Works Fund. This increases the net assets of the business-type funds.

A portion of the year-end net assets is restricted for specific purposes. The restrictions represent legal or contractual limitations on how the assets may be expended. Within the governmental activities category examples are assets designated for cemetery care and collections limited to repayment of debt.

Governmental Activities

Governmental revenues increased by \$787,263 (or 6.7%). The increase is attributable to increases in charges for services, property tax collections and grant proceeds. The increase for property tax collections relates to the refund of the Wauna Mill taxes withheld pursuant to an intergovernmental agreement to sell bonds, if Wauna Mill prevails in its suit. Other revenue increases are attributable to grants and charges for services.

Business-type Activities

Business-type activities revenues increased by \$100,645 (or 1.5%). This increase relates to business-type charges for services and grants for public works projects.

BUDGETARY HIGHLIGHTS

Adjustments were made to several budgets for FYE June 30, 2010. The Non and Interdepartmental and Community Development budgets were adjusted for \$20,000 and \$7,500, respectively, for a variety of professional services expenditures. \$23,000 was transferred from the General Fund to the Unemployment Fund to cover claims. \$41,180 was appropriated to the Community Policing Fund for grant receipts. CSO loan proceeds for the CSO Operations Fund and the CSO-ARRA Fund were appropriated in the amounts of \$307,740 and \$3,000,000, respectively.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

As of June 30, 2010 the City had invested \$42,105,741 in capital assets, net of accumulated depreciation, as reflected in the following table. The result of the additions and deletions for this fiscal year is an overall increase to capital assets in the amount of \$7,060,054. After depreciation, the capital assets increased by \$5,560,731.

There were two increases on borrowings, as such, for the year June 30, 2010. The Public Works Fund borrowed \$1,472,569 for construction of covers for Reservoir 3. The City has entered into an agreement with the Department of Environmental Quality to borrow money for the design and construction of combined sewer overflow infrastructure. To date the City has begun to pay back and owes \$3,138,298 for Phase 1 and 2,496,767 for Phase 2 for a total of \$5,635,065 for these two phases of CSO related projects. Payback for the Phase 1 borrowing began as of December 1, 2006 and for the Phase 2 borrowing as of May 2008. The City has borrowed \$6,273,410 for the Denver Street Phase 2 project. The total loan balances for all CSO projects as of June 30, 2010 are \$11,908,475.

For more detailed information on the City's debt and amortization terms refer to the notes.

ECONOMIC FACTORS

Oregon does not have a sales tax and thus property taxes are a major resource component of many communities. Property taxes are important to the City. They represent 65% of resources of the General Fund and 51% of governmental revenues overall. Other resources include franchise fees, motel taxes, charges for services and fines. Investment earnings decreased through 2009-10 due to an ongoing decrease in interest rates. To deal with its limited resources the City constrains unnecessary spending.

The City maintains a variety of governmental funds for special purposes. The Capital Improvement Fund received revenues from state taxes, the sale of City property, grants and other sources in the amount of \$819,205, including \$87,550 from the harvest of timber blow down, with expenditures of \$1,385,867. The Building Inspection Fund received fees of \$121,825, with expenditures of \$198,202 and a transfer to the General Fund for \$35,210. The Emergency Communication Fund provides dispatch services for the City and other area entities. It received 911 proceeds and other charges for services in the amount of \$791,851, with expenditures of \$702,011. The Aquatic Facility Activity Fund received charges for services in the amount of \$502,479 with expenditures of \$601,790. A transfer of \$95,000 from the General Fund supplied the difference. The Aquatic Facility made an interfund loan of \$24,900 from the Revolving loan Fund. The Astor East and West Urban Renewal Districts are blended component units of the City. They received revenues of \$987,992 with expenditures of \$708,336. Finally, the Promote Astoria Fund received \$479,182 as its allocation of motel tax collections, along with a reimbursement of \$90,426 from the Friends of the Astoria Column for the Column step project. Distributions in the amount of \$718,690 were expended. These are the most significant of the governmental special purpose funds.

The business-type activities are funded with utility charges. During fiscal year ended June 30, 2010 the City increased the water rates by 8%. Sewer rates were increased by 3.5%. A sewer surcharge of 59% was dedicated to the Combined Sewer Overflow Debt Service Fund. Resources will be accumulated in this fund to payback loans incurred for the combined sewer overflow infrastructure project. A total of \$5,627,354 was expended for capital improvements, of which \$3,665,997 was for the CSO Denver Street Storage project.

Uncertainties about future economic changes and financial impacts are common in all cities. The City continues to constrain spending to items and personnel necessary to provide quality services for its citizens. City staff continues to investigate and initiate opportunities for economic development to provide increased resources for the City's operations.

FINANCIAL CONTACT

The City's financial statements are designed to present users (citizens, taxpayers, customers, investors, and creditors) with a general overview of the City's finances and to demonstrate the City's accountability. If you have questions about the report or need additional financial information, please contact the City's Finance Director at 1095 Duane Street, Astoria, OR 97103. Complete financial statements of the blended component unit, the Astoria Development Commission, can be obtained from the same address.

FUND FINANCIAL STATEMENTS

Proprietary Funds

Enterprise Funds

These funds are used to account for operations that are financed and operated in a manner similar to private business enterprises. The intent of the governing body is that the costs of providing the services to the general public on a continuing basis be financed primarily through user charges. These funds represent five segments of operations – Public Works Improvement, Combined Sewer Overflow Operations, Cemetery, Public Works, and 17th Street Dock Fund. Included in these segments are:

Public Works Improvement Fund #176

This fund is designed to provide funding to plan, budget for, and accomplish major public works construction and improvement projects.

Combined Sewer Overflow Operations

Combined Sewer Overflow Projects Fund #181

This fund is designated to provide fiscal accounting for the projects required by the Final Stipulation and Order that the City has signed with the Oregon Department of Environmental Quality (DEQ) to separate water runoff from sewer outflow into the Columbia River.

Combined Sewer Overflow Projects Fund #180

This fund is designated to provide fiscal accounting for the projects required by the Final Stipulation and Order that the City has signed with the Oregon Department of Environmental Quality (DEQ) to separate water runoff from sewer outflow into the Columbia River.

Combined Sewer Overflow Debt Service Fund #270

This fund accounts for the debt service on loans and bond issues used to finance the combined sewer overflow projects undertaken in the Combined Sewer Overflow (CSO) Project Fund.

Cemetery Fund #325

This fund provides for the operation and maintenance of Ocean View Cemetery, which is owned by the City of Astoria.

Public Works Fund #301

Accounts for the costs associated with operating and maintaining the City's streets, water and sewer systems.

17th Street Dock Fund #330

Accounts for payments made by the U.S. Coast Guard to lease dock space for two local Coast Guard vessels and for rent paid by tour boats that moor in downtown Astoria to be near the mouth of the Columbia River

For Generally Accepted Accounting Principles purposes, these aforementioned funds are consolidated and included as five separate Enterprises funds.

**NOTES TO
BASIC FINANCIAL STATEMENTS**

(1) Summary of Significant Accounting Policies

The financial statements of the City of Astoria (City) have been prepared in accordance with Generally Accepted Accounting Principles (GAAP). GAAP statements include all relevant Governmental Accounting Standards Board (GASB) pronouncements. The financial statements have incorporated all applicable GASB pronouncements as well as Financial Accounting Standards Board (FASB) Statements and Interpretations, Accounting Principles Board Opinions and Accounting Research Bulletins of the Committee on accounting procedures issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements. No FASB statements and interpretations issued after November 30, 1989 have been applied.

The Governmental Accounting Standards Board issued Statement 34, Basic Financial Statements and Management Discussion and Analysis for State and Local Governments (GASB 34). This statement requires reporting of the local government's infrastructure (roads, paths, street lights, etc.), along with other required supplementary information. The City's financial statements for the fiscal year ended June 30, 2009 comply with the requirements of GASB 34.

A. Description of Reporting Entity

The City of Astoria, Oregon (City) was incorporated October 20, 1876 under the provisions of Oregon Revised Statutes, Chapter 221.220. The City operates under a Council-Manager form of government and provides the following services, as authorized by its charter: community development, public safety (police and fire protection), culture and recreation (parks, recreation and library), public works (water, sewer, garbage and infrastructure engineering), streets maintenance, cemetery operation, and traffic and parking control.

As required by generally accepted accounting principles, these financial statements present the government and its component units, entities for which the government is considered to be financially accountable. Blended component units, although legally separate entities, are in substance, part of the government's operations and so data from these units are combined with data of the primary government. Each blended component unit has a June 30 year end.

Blended Component Unit - Astoria Development Commission (Commission)

The City's statements include all funds, agencies and boards that are in substance part of the primary government's operations, including the Commission that oversees the Astor East Urban Renewal District and the Astor West Urban Renewal District, legally separate Oregon municipal corporations. Although the Commission is responsible for its own budget and financial statements, results of its operations and its financial position are included in these statements. The Commission's capital assets and long-term debt are blended with the City's accounts and are presented in the City's Statements of Activities and Net Assets. Its results of operations and current financial position are reported as a special revenue fund and the debt service portion is reported as a debt service component unit. The "blended" presentation is used, primarily, because the Commission is substantively the same as the City's elected officials. The City's Finance Director is the Commission's Treasurer who maintains sole access to the Commission's financial records, and, accordingly, pays approved invoices, invests surplus funds, files budgets and issues financial statements for the Commission. The Commission's financial statements may be obtained at City Hall, 1095 Duane, Astoria, Oregon, 97103.

The City Council has established, by resolution, several commissions, boards and committees. None of them have funds or financial considerations and are not municipal corporations, pursuant to State Law. Therefore, their activities are not included within the scope of these financial statements.

Financial statements for the City's pension plans are not included because they are administered by boards independent of the City. City management does not exert any control and the assets of the plan are not the property of the City.

B. Basic Financial Statements

Basic financial statements are presented at both the government-wide and fund financial level. Both levels of statements categorize primary activities as either governmental or business-type. Governmental activities, which are normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

Government-wide statements

The statement of net assets and the statement of activities display information about the City as a whole. These statements include all the financial activities of the City. Eliminations have been made to minimize the double-counting of internal activities.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the City's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Indirect expense allocations that have been made in the funds have been reversed for the statement of activities. *Program revenues* include (a) fees, fines, and charges paid by the recipients of goods or services offered by the programs, and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Fund financial statements

These statements display information at the individual fund level. Each fund is considered to be a separate accounting entity. Funds are classified and summarized as governmental or proprietary. Major individual governmental funds are reported as separate columns in the fund financial statements. Non-major funds are consolidated into a single column in the financial section of the basic financial statements and are detailed in the supplemental information.

C. Basis of Presentation

The financial transactions of the City are recorded in individual funds. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, liabilities, reserves, fund equity, revenues and expenditures/expenses. The various funds are reported by generic classification within the financial statements.

The GASB 34 model sets forth minimum criteria (percentage of the assets liabilities, revenues or expenditures/expenses of either fund category or the governmental and proprietary combined) for the determination of major funds. Non-major funds are combined in a column in the fund financial statements and detailed in the combining section.

The City reports the following major governmental funds:

- *General Fund*
- *Housing Rehabilitation Loan Fund*
- *Astoria Road District Fund*
- *Capital Improvement Fund*

Additionally, the City reports the following non-major governmental funds within the governmental fund type:

- *Special Revenue Funds*
These funds account for revenues derived from specific taxes or other earmarked revenue sources, including state gas tax and state revenue sharing entitlements, which are legally restricted to expenditures for specified purposes.
- *Debt Service Funds*

These funds are used to account for financial resources to be used for the repayment of general obligation and other long term debt.

- *Permanent Funds*

These funds are used to account for financial resources the interest from which is to be used for a designated purpose. The principal resources of these funds are nonexpendable.

The City reports all of its proprietary funds as major funds. These funds are used to account for operations that are financed and operated in a manner similar to private business enterprises. The intent of the governing body is that the costs of providing the services to the general public on a continuing basis be financed primarily through user charges. These funds represent the following operations – Public Works, Streets, Water, Sewer, Dock and Cemetery. The City reports the following proprietary funds:

- *Public Works Fund*

This fund includes engineering, shops, streets, sewer and water operations

- *17th Street Dock Fund*

This fund includes construction, repairs and operations of the 17th Street Dock

- *Public Works Improvement Fund*

This fund includes public works capital improvement projects

- *Combined Sewer Overflow (CSO) Operations*

The projects funds include design and construction of combined sewer overflow infrastructure
The debt service fund receives the sewer surcharge revenues to pay for the CSO loan

- *Cemetery Fund*

This fund includes the operations of the Ocean View Cemetery

D. Measurement Focus and Basis of Accounting

Measurement focus is a term used to describe which transactions are recorded with the various financial statements. Basis of accounting refers to when transactions are recorded regardless of the measurement focus.

The government-wide financial statements and the Proprietary Funds Financial Statements are reported using the *economic resources measurement focus* and the *full accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement *focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, long-term compensated absences are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period

is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the City.

A deferred revenue liability arises in the Governmental Funds Balance Sheet when potential revenue does not meet both the measurable and available criteria for recognition in the current period. This unavailable deferred revenue consists primarily of uncollected property taxes and assessments not deemed available to financial operation of the current period. In the government-wide Statement of Net Assets, with a full accrual basis of accounting, revenue must be recognized as soon as it is earned regardless of its availability. Thus, the liability created on the Governmental Fund Balance Sheet for unavailable deferred revenue is eliminated. Note that deferred revenues also arise outside the scope of measurement focus and bases of accounting, such as when the City receives resources before it has a legal claim to them. For instance, when grant monies are received prior to incurring qualifying expenditures.

Similar to the way its revenues are recorded, a governmental fund records only those expenditures that affect current financial resources. Principal and interest on general long-term debt are recorded as fund liabilities only when due, or when amounts have been accumulated in the debt service fund for payments to be made early in the following year. Vested compensated absences are recorded as expenditures only to the extent that they are expected to be liquidated with expendable financial resources. In the government-wide financial statements, however, with a full accrual basis of accounting, all expenditures affecting the economic resource status of the government must be recognized. Thus, the expense and related accrued liability for long term portions of debt and compensated absences must be included.

Since the governmental fund statements are presented on a different measurement focus and basis of accounting than the government-wide statements' governmental column, a reconciliation is necessary to explain the adjustments needed to transform the fund based financial statements into the governmental column of the government-wide presentation. This reconciliation is part of the financial statements. Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services, and producing and delivering goods in connection with a proprietary fund's principle ongoing operations. The principal operating revenues of the City's Public Works, 17th Street Dock, Public Works Improvement Fund, CSO Projects, CSO Debt Service and Cemetery Fund are charges to customers for sales and services. The Public Works Fund also recognizes fees intended to recover the cost of connecting new customers to the City's utility systems as operating revenue. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses and overheads, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The bases of accounting described above are in accordance with generally accepted accounting principles.

E. Cash and Investments

For purposes of the statements of cash flows, the City considers cash equivalents as all highly liquid debt instruments purchased with maturity of three months or less.

Investments included in cash and cash equivalents are reported at fair value. The City invests in the State of Oregon Local Government Investment Pool, which is authorized by Oregon Revised Statutes. Interest earned from pooled investments is allocated based on a fund's portion of the total

investment balance. The City maintains depository insurance under Federal depository insurance funds and state and financial institution collateral pools for its cash deposits and investments, except the Local Government Investment Pool, which is exempt from statutes requiring such insurance.

F. Receivables and Payables

Activity between funds that represent lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either “due to/from other funds” (i.e. the current portion of interfund loans) or “advances to/from other funds” (i.e. the non-current portion of interfund loans). All other outstanding balances between funds are reported as “due to/from other funds”. There were no such transactions recorded for the fiscal year ended June 30, 2010.

Receivables of the proprietary funds are recognized as revenue when earned, including services provided but not billed. Management believes that any uncollectible accounts included in the governmental fund receivable balances are not significant, and therefore no provision for uncollectible accounts has been made. Receivables in proprietary funds are stated net of an allowance for uncollectible accounts.

G. Inventories

Inventories consist of expendable supplies held for maintenance, improvements or operations. Inventories are stated at cost on a first-in/first-out basis and charged to expenses as used.

H. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g. roads, street lights, etc.), are reported in the applicable governmental or business-type activities column in the governmental-wide financial statements. Capital assets are charged to expenditures as purchased in the governmental fund statements, and capitalized in the proprietary fund statements. Capital assets are recorded at historical cost, or estimated historical cost if actual cost. Donated capital assets are recorded at their estimated fair market value at the time received.

As a practical matter, for purposes of maintaining an inventory of moveable assets, capital assets are recorded on the basis of a useful life of three years or more with a cost of \$500. Additions or improvements and other capital outlays that significantly extend the useful life of an asset, or that significantly increase the capacity of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred.

Depreciation for exhaustible assets is recorded as an allocated expense in the Statement of Activities with accumulated depreciation reflected in the Statement of Net Assets and is provided on the straight-line basis over the following estimated useful lives.

<u>Asset</u>	<u>Years</u>
Buildings	50
Improvements	20
Utility Systems & Infrastructure	20 – 50
Vehicles	5 - 10
Furniture & Equipment	5 - 10

One-half year of depreciation is taken in the year the assets are acquired or retired. Gains or losses from sales or retirements of capital assets are included in operations of the current period.

I. Deferred Revenues

Deferred revenues represent uncollected property taxes and other revenues not deemed available to finance operations of the current period.

J. Compensated Absences

Vested or accumulated vacation and holiday leave of Proprietary Funds is recorded as an expense and liability of those funds as the benefits accrue to employees. For Governmental Funds, the liability is reported as current as it may be used at anytime. Sick leave does not vest and is recorded in all funds as taken.

K. Long-term Debt

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the Statement of Net Assets. Bond premiums and discounts are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are treated as period costs in the year of issue and are shown as other financial uses.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs during the current period. The face amount of debt issued is reported as other financial sources while discounts on debt proceeds received are reported as debt service expenditures.

L. Fund Equity

Tentative plans for utilization of fund balances in future periods are recorded as designations of fund balance in the fund-level financial statements. Planned expenditures include future capital projects, debt service, equipment reserves and other commitments for which fund balances have not been appropriated or specifically segregated.

M. Use of Restricted Resources

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources, as they are needed.

N. Property Tax Calendar

Real and personal property taxes are levied in July of each fiscal year. Property taxes attach as an enforceable lien on property as of July 1, and are payable in three installments on November 15, February 15, and May 15. All property taxes are billed and collected by Clatsop County and remitted to the City. Uncollected taxes, including delinquent amounts, are considered substantially collectible or recoverable through liens, and accordingly no allowance for uncollected taxes has been established.

(2) Stewardship, Compliance, and Accountability

A. Budgetary Information

On or before June 30 of each year, the City enacts a resolution approving the budget, appropriating the expenditures, and levying the property taxes. Prior to enacting this resolution, the proposed budget is presented to a budget committee consisting of members of the City Council and a like number of interested citizens. The budget committee presents the budget to the City Council for

budget hearings prior to enactment of the resolution. The City budgets all funds as required by Oregon Local Budget Law.

The resolution authorizing appropriations for each fund sets the legal level of control by which expenditures cannot legally exceed appropriations. Total expenditures by department as established by the resolution are the legal level of control for the General and Public Works Funds. Expenditure categories of personal services, materials and services, capital outlay, debt service transfers, and contingency are the legal level of control for all other funds. The detail budget document, however, is required to contain more specific information for the above mentioned expenditure categories. Unexpected additional resources may be added to the budget through the use of a supplemental budget. A supplemental budget requires hearings before the public, publications in newspapers, and adoption by the City Council. Management may modify original and supplemental budgets by the use of appropriation transfers between the legal levels of control within a fund. Such transfers require approval by the City Council. Management may not amend the budget without seeking the approval of the Council. The city had appropriation transfers during the year-ended June 30, 2010. Appropriations lapse as of year-end.

B. Deficit Fund Equity

The City has four instances of funds that had a deficit in fund equity as of June 30, 2010.

(3) Cash and Cash Equivalents

At June 30, 2010 investments included in cash and cash equivalents consist of the following:

	Weighted Average Maturity (Years)	Fair Value
Investments in the State Treasurer's Local Government Investment Pool	0.00	\$ 12,159,789
Certificates of deposit	1.00	100,000
 Total cash equivalents		 \$ 12,259,789

A. Interest rate risk

The City does not have a formal investment policy that limits investments maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

B. Credit risk

State statutes authorize the City to invest in general obligations of the U.S. Government and its agencies, certain bonded obligations of Oregon municipalities, bank repurchase agreements, bankers' acceptances, and the State Treasurer's Oregon Local Government Investment Pool, among others. The City has no investment policy that would further limit its investment choices. The State Treasurer's Investment Pool operates in accordance with appropriate state laws and regulations, but is not regulated by other laws, organizations or regulations. The reported value of the Pool is the same as the fair value of Pool shares. Investments are regulated by the Oregon Short-Term Fund Board and approved by the Oregon Investment Council (ORS 294.805 to 294.895). The State Treasurer's Oregon Local Government Investment Pool is not registered with the SEC as an investment company and is unrated.

C. Concentration of credit risk

The City does not currently have an investment policy for concentration of credit risk.

D. Custodial credit risk – deposits

This is the risk that in the event of a bank failure, the City's deposits may not be returned. The Federal Depository Insurance Corporation (FDIC) provides insurance for the City's deposits with financial institutions up to \$250,000 each for the aggregate of all non-interest bearing accounts and the aggregate of all interest bearing accounts at each institution. Deposits in excess of FDIC coverage with institutions participating in the Oregon Public Funds Collateralization Program are considered fully collateralized. As of June 30, 2010, none of the City's bank balances were exposed to credit risk.

E. Custodial credit risk – investments

For an investment, this is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The City had no investments of this kind during fiscal year 2009-10 and has no investments of this kind at June 30, 2010.

(5) Special Assessments Receivable

Special assessments receivable represent the uncollected amounts levied against benefited property for the cost of local improvements. Because the assessments are liens against the benefited property, an allowance for uncollectible amounts is not deemed necessary. Assessments receivable are offset by deferred revenue and, accordingly, have not been recorded as revenue.

(6) Receivables

Revenues of the Public Works Fund are reported net of uncollectible amounts. Total uncollectible amounts are as follows:

	<u>Amount</u>
Uncollectibles related to water sales	\$ 82,443
Uncollectibles related to sewer charges	60,341
Uncollectibles related to sewer surcharge	<u>34,097</u>
 Total uncollectibles of the current fiscal year	 <u>\$ 176,881</u>

(10) Pension Plans

A. Defined Benefit Pension Plan

a) Plan Description

The City contributes to two pension plans administered by the Oregon Public Employees Retirement System (PERS). The Oregon Public Employees Retirement Fund (OPERF) applies to the City's contribution for qualifying employees who were hired before August 29, 2003, and is a cost-sharing multiple-employer defined benefit pension plan. The Oregon Public Service Retirement Plan (OPSRP) is a hybrid successor plan to the OPERF and consists of two programs: The Pension Program, the defined benefit portion of the plan, applies to qualifying City employees hired after August 29, 2003, and to inactive employees who return to employment following a six-month or greater break in service. Benefits are calculated by a formula for members who attain normal retirement age. The formula takes into account final average salary and years of service. Beginning January 1, 2004, all PERS member contributions go into the Individual Account Program (IAP), the defined contribution portion of the plan. PERS members retain their existing PERS accounts, but any future member contributions are deposited into the member's IAP, not the member's PERS account.

Both PERS plans provide retirement and disability benefits, post employment healthcare benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. PERS is administered under Oregon Revised Statute Chapter 238, which establishes the Public Employees Retirement Board as the governing body of PERS. PERS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to PERS, PO Box 23700, Tigard, OR, 97281-3700 or by calling 503-598-7377.

b) Funding Policy

Members of PERS are required to contribute 6.00% of their salary covered under the plan, which is invested in the OPSRP Individual Account Program. The City is required by ORS 238.225 to contribute at an actuarially determined rate for the qualifying employees under the OPERF plan, and a general service rate for the qualifying employees under the OPSRP plan. The annual pension cost was \$665,236. The contribution requirements for plan members are established by ORS Chapter 238 and may be amended by an act of the Oregon Legislature.

c) Annual Pension Cost

Contribution information for the years ended June 30, 2010, 2009, and 2008 were as follows:

<u>Fiscal Year Ended</u>	<u>Annual Pension Cost (APC)</u>	<u>% of APC Contributed</u>	<u>Net Pension Obligation</u>
6/30/08	737,982	100%	-
6/30/09	795,368	100%	-
6/30/10	665,236	100%	-

B. Defined Contribution Pension Plan

The City provides pension benefits for employees who have completed one year of service, except PERS Pension Plan members, through a defined contribution plan. In a defined contribution plan, pension benefits depend solely on amounts contributed to the plan, plus defined earnings on contributions. Eleven (11) employees participated in this plan at June 30, 2010.

The defined contribution pension plan is the City of Astoria Retirement Plan administered by Standard Insurance. The plan is amended by action of the city council.

Employer contributions are contractually defined at 9.2% of each participant's basic compensation; these contributions (and interest earned on them) are fully vested after five years of continuous service. Contributions and interest forfeited by employees who leave employment prior to five years of service are used to reduce the City's current-period contribution requirement. Employer contributions of \$ 51,465 were based on total basic compensation of \$559,405, 10.01% of total subject payroll of \$5,588,239. Effective September 1994, employee contributions are established at 6% of basic compensation and are paid by the employees. Employee-paid contributions totaled \$33,564 for the current year.

As of June 30, 2010, total plan assets (valued at market) were \$2,166,954.

C. Deferred Compensation Plan

The City offers its employees a deferred compensation plan, created in accordance with Internal Revenue Code Section 457. The plan, available to all employees, permits them to defer up to 25% of their salary, or \$15,000 per year, whichever is less. Deferred income is not included for federal or state tax calculations. The deferred compensation is not available to participants until termination, death, retirement or unforeseeable emergency.

The funds accumulated are held and invested, in trust, by a third party.

D. Other Post Employment Benefits (OPEB)

The City implemented GASBS No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions* for FYE June 30, 2009 on a prospective basis. The City is participating in a program provided by City County Insurance Services (CIS) to engage Milliman, Inc., a Portland, Oregon based actuarial service, to calculate the Annual Required Contribution (ARC) and the financial disclosures required by GASBS No.45. Milliman's valuation process includes: 1) projected payouts for the next 10 years; 2) the present value of total benefits; 3) the actuarial liability; 4) the actuarial results for August 1, 2008; 5) a determination of the ARC and annual OPEB cost under GASBS No. 45 for FYE June 30, 2010; and, 6) the financial statement disclosures required by GASBS No. 45, as presented in this footnote. As of August 1, 2008, the City had 38 eligible individuals to factor into Milliman's calculations.

The City's post-employment healthcare plan is administered by CIS, an agent multiple-employer healthcare plan provider. The City's post-employment healthcare plan administrator issues a publicly available financial report that includes financial statements and required supplementary information for CIS. This report may be obtained by writing to the CIS Main Office, 1212 Court Street NE, Salem, OR 97301, or by accessing the CIS website at www.cisservices.com.

Eligibility for OPEB is limited to City employees hired prior to certain dates in the early 1990s who meet certain requirements. These requirements are specified in the City's personnel manual and union contracts. Employees hired after the specified dates are not eligible. Participants are eligible for five years of coverage unless they are eligible for Medicare. The plan provides eligible retirees and their dependents under age 65 the same health care coverage at the same premium rates as offered to active employees. The retiree is responsible for any portion of the premiums not paid by the City.

The City makes the contributions for this post-employment benefit on a year-to-year basis from funds available. Eligible employees receiving post-employment benefits are responsible for any portion of the healthcare premiums not paid by the City.

The City's annual OPEB cost (expense) is calculated based on the *annual required contribution of the employer* (ARC), an amount actuarially determined in accordance with the guidance of GASBS No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal costs each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed fifteen years. The following table shows the components of the City's annual OPEB cost for the fiscal year ending June 30, 2010, the amount actually contributed to the plan and changes in the City's net OPEB

Fiscal Year Ended	Annual OPEB Cost	Percentage Of OPEB Cost Contributed	Net OPEB Obligation
2009-10	\$126,217	52%	\$133,544
2008-09	\$138,773	47%	\$73,202
2007-08	\$100,250	57%	\$42,788

The City's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation for 2010 is as follows:

Determination of Annual Required Contribution

Normal Cost at Year End	\$ 38,297
Amortization of Unfunded Actuarial Accrued Liability	<u>94,787</u>
Annual Required Contribution (ARC)	\$130,084

Determination of Net OPEB Obligation

Annual Required Contribution (ARC)	\$130,084
Interest on prior year Net OPEB Obligation	3,294
Adjustment to ARC	<u>7,161</u>
Annual OPEB Cost	\$126,217
Explicit Benefit Payments	65,875
Implicit Benefit Payments	<u>0</u>
Increase in Net OPEB Obligation	\$ 60,342
Net OPEB Obligation - beginning of year	\$ 73,202
Net OPEB Obligation - end of year	\$133,544

As of August 1, 2008, the most recent actuarial valuation date, the plan was zero percent funded. The actuarial accrued liability for benefits was \$930,662, and the actuarial value of assets was zero, resulting in an unfunded accrued liability of \$930,662.

(11) Deficit Fund Balances / Net Assets

The Aquatic Facility Activity Fund had a deficit fund balance at June 30, 2010 of (\$38,921) and the Parks and Recreation Fund of (\$16,137). The deficits will be financed through future revenues of the fund.

The Public Works Improvement Fund had deficit net assets at June 30, 2010 of (\$3,968,939). The Combined Sewer Overflow Operations had deficit net assets at June 30, 2010 of (\$12,706,423). These deficits are the result of transferring the assets acquired during the fiscal year ended June 30, 2010 from these funds to the Public Works Fund where the assets of Public Works operations reside. The Public Works Fund had net assets at June 30, 2010 of \$29,905,187. The overall net assets for public works operations, as such, is \$13,229,825.

(12) Risk Management

The City is exposed to various risks of loss related to torts: theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City carries commercial insurance for risks of loss including workers' compensation, property damage, general liability, automobile liability, boiler and machinery, inland marine, public official bond, and employee dishonesty coverage. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three years.

(13) Contingent Liabilities

Amounts received from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of the expenditures which may be disallowed by the grantor cannot be determined at this time, although the City of Astoria expects such amounts, if any, to be immaterial.

The City of Astoria operated a municipal solid waste landfill (landfill) which stopped taking refuse in the early 1980s. All closure requirements up to capping the landfill have been accomplished. The City is performing ongoing monitoring of leachate and the City's tests are within accepted limits. The testing is budgeted at \$2,000 per year.

Subsequent to June 30, 2007, the Department of Environmental Quality (DEQ) informed the City that the status of the landfill is under review. This review may be an indication of further action by DEQ to require the City to finish capping the landfill and finalizing the closure. Currently, discussions are proceeding between the waste hauler for Astoria, Western Oregon Waste, DEQ and the City regarding this matter. Due to uncertainties regarding timing and other requirements, the City has not been able to make a cost estimate for this matter and, therefore, no liability has been accrued for the remaining cost in the financial statements.

The budget for the Reservoir Covers Project (which includes design services for Phase 1 - Site Improvements and Phase 2 - Cover Design, as well as construction costs for Phase 1) totals \$3,473,200. As of June 30, 2010, \$2,902,351 has been expended; of which \$ 2,902,351 are loan funds passed through the Oregon Economic and Community Development Department. Subsequent to June 30, 2010 \$228,971 has been expended and the project is at the punch list stage of completion.

The Denver Street Storage project was initiated in February 2010. At June 30, 2010 the City had received loan proceeds of \$1,973,410 from the ARRA loan program. The total amount of ARRA proceeds is \$4,000,000. Subsequent to June 30, 2010 the City received additional loan proceeds from DEQ in the amount of \$1,590,970 to continue the project. The Denver Storage project is at the punch list stage with an anticipated completion date of January 2011.

The City entered into an intergovernmental agreement for payment of a potential tax refund with Clatsop County on August 17, 2009. The intergovernmental agreement was entered into based on a property tax appeal by Georgia-Pacific Consumer Products, owner of Wauna Mill. If Georgia-Pacific Consumer Products prevails in this appeal, Clatsop County proposes to sell bonds to meet the obligation. Estimates of a bond amount indicate that future tax disbursements may be withheld of which the City's share, including the component unit Urban Renewal Districts, is approximately \$220,000 per year.

(14) Related Party

In October 2009, the City hired J. P. Moss as interim Parks and Community Services Director. The appointment is temporary until a regular appointment is made. Mr. Moss is also the proprietor of Swim Essentials Inc. Purchasing merchandise from Swim Essentials Inc. constitutes a related party transaction as of the date of Mr. Moss' appointment as interim Parks and Community Services Director. Swim Essentials Inc. provided goods and services through FYE June 30, 2010 in the amount of \$229,275.

(15) Subsequent Events

Two events took place in December 2010. The floor of the previous Safeway site caved in as a result of heavy rains on December 12, 2010. Engineering estimates for filling in the site are being prepared. Second, around 10 P. M. on December 16, 2010 the #10 Sixth Street building caught fire and was destroyed. The City owns the Sixth Street viewing platform adjacent to the site. Estimates of damage to the platform are being prepared.

Such statements and schedules include:

- Combining Statements – Non-major Governmental Funds
- Budgetary Comparison Schedules
- Other Financial Schedules

COMBINING STATEMENTS Nonmajor Governmental Funds

Special Revenue Funds

These funds account for revenue derived from specific taxes or other earmarked revenue sources, which are legally restricted to expenditures for specified purposes. Funds included in this category are:

Unemployment Fund #104

Accounts for payment of unemployment claims under a self-insured plan.

Revolving Loan Fund #122

Accounts for a revolving loan program for business development.

Building Inspection Fund #128

Accounts for the activity of the City's building inspection program.

Emergency Communication Fund #132

Accounts for a Regional Communications Center, which provides emergency and non-emergency call answering and dispatching services for north Clatsop County.

Community Policing Fund #136

Accounts for grants and donations made to the Astoria Police Department for the acquisition of equipment or programs that enhance the city's commitment to community policing.

Parks and Recreation Fund #146

Accounts for money, donated as gifts or in memory of a person, specifically for parks related programs.

Maritime Memorial Fund #148

Accounts for donations from private citizens, businesses, and organizations to commemorate someone who either died in a local maritime accident or who had strong ties to the Columbia River and Pacific Ocean.

Senior Center Fund #150

Accounts for donations from citizens, businesses and organizations who wish to support the ongoing maintenance of the building used for senior citizen activities.

Astoria Column Restoration Fund #152

Accounts for resources to be used for the restoration and preservation of the Astoria Column, a monument of unique design listed on the National Register of Historic Places.

Aquatics Facility Activity #156

Accounts for the operational costs of the indoor Astoria Aquatic Center.

State Tax Street Fund #172

Accounts for the City's portion of a state gasoline tax for street and highway maintenance and improvement.

Trails Reserve Fund #174

Accounts for 1% of the City's portion of a state gasoline tax designated for the improvement of trails and pedestrian access adjacent to highways.

Urban Renewal Agency

Accounts for receipt of property tax increments for activities of the Astor East Urban Renewal District.

Promote Astoria Fund #410

Accounts for portions of the transient room tax designated for activities that promote the region as a visitor destination, and for specific projects like the Port of Astoria/Chamber of Commerce conference center project.

Logan Memorial Library Trust Fund #412

Accounts for a bequest from Lorens F. Logan estate designated for new library construction.

Debt Service Funds

These funds are used to account for revenues and expenditures related to the servicing of general long-term debt:

Local Improvement Debt Service Fund #250

Accounts for debt service requirements of a bond issue made for the financing of several local improvement projects.

Aquatics Facility Debt Service Fund #260

Accounts for debt service requirements of a bond issue made to finance construction of the Astoria Aquatic Center.

7th Street Dock Debt Service Fund #267

Accounts for debt service requirements of a State of Oregon Economic Development Department loan that was used to finance the reconstruction of the 7th Street Dock, the main access to two businesses on the waterfront.

Urban Renewal District Bond Fund #114

Accounts for debt service requirements of a bond issue made for loan to the Liberty Theatre Restoration Group to purchase and restore this historic building.

East Astoria Waterline Debt Service Fund #265

Accounts for debt service requirements of a State of Oregon Economic Development Department loan that was used to finance waterline improvements serving the Tongue Point industrial area and the Blue Ridge and Emerald Heights housing areas on the eastern edge of the City.

Permanent Funds

These funds are used to report resources that are legally restricted to the extent that only earning, not principal, may be used for purposes that support the reporting government's programs.

Aquatic Facility Trust Fund #401

Accounts for a gift of \$10,000 to be used specifically to ensure that underprivileged youth have access to the Astoria Aquatic Center.

Astoria Public Library Endowment Fund #403

Accounts for the gift given by Mr. Don A. Goodall to establish an endowment fund for library needs in memory of his parents, Harris Allen and Mabel Mae Goodall.

Senior Citizen Endowment Fund #406

Accounts for gifts made to build an endowment fund to continue the senior center program.

Cemetery Irreducible Fund #408

Accounts for a portion of each grave sale to be invested for perpetual care of the Ocean View Cemetery when it becomes full.

CITY OF ASTORIA, OREGON
AUDIT COMMENTS AND DISCLOSURES REQUIRED BY STATE REGULATIONS
June 30, 2010

Introduction

Oregon Administrative Rules 162-10-000 through 162-10-330 incorporate the Minimum Standards for Audits of Oregon Municipal Corporations. These standards, prescribed by the Secretary of State in cooperation with the Oregon State Board of Accountancy, enumerate the financial statements, schedules, comments and disclosures required in audit reports. The required statements and schedules are set forth in the preceding section of this report. Required comments and disclosures related to our audit of such statements and schedules are contained in this section.

Internal Accounting Control

We have audited the financial statements of the City of Astoria, Oregon (the City) for the year ended June 30, 2010 and have issued our report thereon dated December 29, 2010.

The management of the City is responsible for establishing and maintaining an internal control structure. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures. The objectives of an internal control structure are to provide management with reasonable, but not absolute, assurance that assets are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with accounting principles generally accepted in the United States of America. Because of inherent limitations in internal control, including the possibility of management override of controls, misstatements due to error or fraud may occur and not be detected by such controls. Also, projection of any evaluation of the structure to future periods is subject to the risk that procedures may become inadequate because of changes in conditions or that the effectiveness of the design and operations of policies and procedures may deteriorate.

We noted certain matters that we reported to management of the City, in a separate letter dated December 29, 2010.

This report is intended solely for the information and use of the management, the Honorable Mayor and City Council, and the State of Oregon, Secretary of State, Division of Audits, and is not intended to be and should not be used by anyone other than these specified parties.

In connection with our audit:

Accounting Records

We found the accounting records of the City to be adequate for audit purposes considering the size and complexity of the municipal corporation.

Collateral

The City was in compliance with ORS Chapter 295 regarding collateral securing deposits for fiscal year ended June 30, 2010.

CITY OF ASTORIA, OREGON
AUDIT COMMENTS AND DISCLOSURES REQUIRED BY STATE REGULATIONS
June 30, 2010

Indebtedness

During our audit, nothing came to our attention that caused us to believe the City was not in compliance with limitation and the provision of bond indentures and other agreements.

Budgets

We reviewed budgets adopted by the City for the current and ensuing fiscal year. Budget preparation and adoption procedures followed by the City appear to be in compliance with Oregon Local Budget Law (ORS Chapter 294.305 to 294.520), with the following exceptions:

Expenditures in the following fund exceeded appropriations for the year ended June 30, 2010:

<u>Fund</u>	<u>Budget Category</u>	<u>Amount of Over-expenditure</u>
General Fund	Transfers out	\$ 95,030
Housing Rehabilitation	Materials and service	68,622
Unemployment	Personal service	457
Aquatics Facility Activity	Materials and service	917
Combined Sewer Overflow Projects # 181	Capital outlay	665,997
Public Works Improvement	Materials and service	\$ 539,184

The following funds reported a deficit budgetary fund balance:

Parks and Recreation Fund	\$ 16,137
Aquatics Facility Activity	18,172
Combined Sewer Overflow Projects # 181	\$ 1,692,509

On August 15, 2010 the City Council adopted a budget transfer by resolution for the 2009/2010 budget. Per ORS 294.450 paragraph 4, transfers for any budget period may occur after the budget has been approved and during the fiscal year or budget period.

Insurance and Fidelity Bonds

We reviewed policies relating to insurance and fidelity bond coverage and ascertained that such policies appeared to be in force. We are not competent by training to state whether the insurance policies covering City-owned property in force at June 30, 2010 are adequate.

Programs Funded from Outside Sources

We reviewed and tested, to the extent we considered necessary in the circumstances, transactions and reports relative to federal and state grant programs. The City appeared to have appropriate procedures for making expenditures on behalf of, and reporting for, such programs.

Highway Funds

The City was in compliance with legal requirements pertaining to the use of Highway Funds.

CITY OF ASTORIA, OREGON
AUDIT COMMENTS AND DISCLOSURES REQUIRED BY STATE REGULATIONS
June 30, 2010

Investments

The City's investments for the year ended June 30, 2010 were tested and appear to be in compliance with Oregon Revised Statutes Chapter 294 with regard to legal restrictions pertaining to the investment of public funds.

Public Contracts and Purchasing

We reviewed and tested the City's procedures for awarding public contracts. The City appears to be in compliance with the cost accounting guidelines developed by the State of Oregon Executive Department with regard to the City's construction projects and ORS Chapter 279 in the awarding of public contracts and the construction of public improvements.

Independently Elected Officials

The Independently Elected Officials of the City do not receive and disburse funds. Accordingly a Schedule of Accountability for Independently Elected Officials is not included.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING
STANDARDS***

The Honorable Mayor and City Council
City of Astoria
Astoria, Oregon

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Astoria (the City), as of and for the year ended June 30, 2010, which collectively comprise the City's basic financial statements and have issued our report thereon dated December 29, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the City's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed one instance of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which is described in the accompanying schedule of findings and questioned costs as item 2010-1.

We noted certain matters that we reported to management of the City, in a separate letter dated December 29, 2010.

The City's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. We did not audit the City's response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of management, the Honorable Mayor and City Council, others within the entity, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

**REPORT ON COMPLIANCE WITH REQUIREMENTS
APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL
OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133**

The Honorable Mayor and City Council
City of Astoria
Astoria, Oregon

Compliance

We have audited the compliance of the City of Astoria, Oregon, with the types of compliance requirements described in the *OMB Circular A-133 Compliance* Supplement that could have a direct and material effect on each of the City of Astoria's major federal programs for the year ended June 30, 2010. The City of Astoria's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the City of Astoria, Oregon's management. Our responsibility is to express an opinion on the City of Astoria, Oregon's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City of Astoria, Oregon's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the City of Astoria, Oregon's compliance with those requirements.

In our opinion, the City of Astoria, Oregon, complied, in all material respects, with the requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2010. However, the results of our auditing procedures disclosed instances of noncompliance with those requirements, which are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying schedule of findings and questioned costs as item 2010-1.

Internal Control Over Compliance

Management of the City of Astoria, Oregon, is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the City of Astoria, Oregon's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City of Astoria, Oregon's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, we identified certain deficiencies in internal control over compliance that we consider to be significant deficiencies as described in the accompanying schedule of findings and questioned costs as item 2010-1. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charges with governance.

The City of Astoria, Oregon's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. We did not audit the City of Astoria, Oregon's responses and, accordingly, we express no opinion on the responses.

This report is intended solely for the information and use of management, Honorable Mayor and City Council, others within the entity, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

CITY OF ASTORIA, OREGON
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
June 30, 2010

Note 1. General

The accompanying schedule of expenditures of federal awards presents the activity of all federal financial assistance programs of the City of Astoria, Oregon.

Note 2. Significant Accounting Policies

Reporting Entity: The reporting entity is fully described in Note 1 to the City's basic financial statements. The schedule includes all federal financial assistance programs administered by the City for the year ended June 30, 2010.

Basis of Presentation: The accompanying schedule of expenditures of federal awards includes the federal grant activity of the City of Astoria, Oregon. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in or used in preparation of the general-purpose financial statements.

Federal Financial Assistance: Pursuant to the Single Audit Act and OMB Circular A-133, federal financial assistance is defined as assistance provided by a federal agency, either directly or indirectly, in the form of grants, contracts, cooperative agreements, loans, loan guarantees, property, interest subsidies, insurance or direct appropriations. Accordingly, nonmonetary federal assistance, including federal surplus property, is included in federal financial assistance and, therefore, is reported on the Schedule, if applicable. Federal financial assistance does not include direct federal cash assistance to individuals. Solicited contracts between the state and federal government for which the federal government procures tangible goods or services are not considered to be federal financial assistance.

Major Programs: The Single Audit Act and OMB Circular A-133 establish criteria to be used in defining major federal financial assistance programs. Major programs for the City are those programs selected for testing by the auditor using a risk-assessment model, as well as certain minimum expenditure requirements, as outlined in A-133. Programs with similar requirements may be grouped into a cluster for testing purposes.

Revenue Recognition: The receipt and expenditure of federal awards are accounted for under the modified accrual method of accounting. Revenues are recorded as received in cash or when measurable and available. Expenditures are recorded when the liability is incurred.

Section II – Financial Statement Findings

None

Section III – Federal Awards Findings and Questioned Costs

2010-1

Condition: It was noted during the testing that the City did not have adequate controls in place to ensure that the Section 1512 ARRA reports were being submitted timely and accurately.

Criteria: Under the reporting requirements in the OMB Circular A-133 Compliance Supplement, Section 1512 reporting should include the award number, award amount, total federal amount ARRA funds received/invoiced, and total federal amount of ARRA expenditures. Reports must be submitted by the prime recipient no later than the 10th day after the end of each quarter.

Effect: Without consistent oversight and review of reporting, section 1512 reports were not being filed timely and were not complete when submitted.

Cause: The City of Astoria had not developed or implemented procedures and controls around grant reporting for departments.

Recommendation: We recommend that the City develops and helps departments implement sufficient controls around grant reporting.

Response: Finance staff will coordinate with the City's departments that receive federal grant funds to implement centralized processes to support compliance with grant reporting and other requirements.
