

ORDINANCE No. 845-A

Introduced by Commissioner all City Commissioners

REPEALING ORDINANCE NOS. 479-A, 528-A, 619-A, 621-A, 622-A, 650-A, 685-A,, 715-A, 723-A, 747-A, 751-A, 754-A, 762-A, 764-A, 765-A, 766-A, 780-A, 781-A, 789-A, 794-A, 806-A, 818-A; AND ESTABLISHING MOORING BASIN RULES AND REGULATIONS

The City of Warrenton, Oregon, ordains as follows:

Section 1. BERTHAGE:

(1) Owners of vessels desiring to berth must apply to the harbormaster/agent at the basin. The agent will assign berths upon receipt of advance payment of moorage, either daily, weekly or annually. Vessels will be restricted to use of berths assigned by the agent. Any vessel not assigned berthage shall be subject to restraint or removal for trespassing. The city reserves the right to refuse moorage to any vessel whose owner has failed to pay the amount charged or to abide by basin rules and regulations. The harbormaster may enforce the laws, rules, regulations and ordinances covering usage of the city mooring basin and small boat launching area. Conduct by a tenant or his/her visitors that may cause injury to any person or damage to property shall be cause for immediate removal of the vessel or person(s) involved.

(2) The City of Warrenton will not be responsible for any loss, damage or theft of private property by third persons. In renting space for moorage, the city retains no control over the vessels or property on vessels or floats. Any person mooring at the basin assumes any and all risk for damage and loss, including vandalism. The city does not provide a watchman for supervision of moored vessels.

(3) The city is authorized to board any vessel moored in the basin for the purpose of placing notices, securing vessels and insuring integrity of the vessels. Berthage includes only use of moorage space along the float, access for supplies along the walkway/dock and limited use of the float adjacent to the vessel's berth for minor repairs. Such repairs must not interfere with other users of the float or constitute any hazard to person or property.

Section 2. BERTH ASSIGNMENT:

(1) Vessels are permitted to moor in only their own stalls or those assigned/sublet by the harbormaster.

(2) Moorage or berthing spaces shall not be sublet, transferred or used by more than one lessee without prior written permission of the harbormaster.

Section 3. RATES & ASSIGNMENT OF BERTHS:

(1) The assignment of berths and moorage rate quotations are the responsibility of the harbormaster.

(2) All vessels will be charged at the rate provided by city resolutions. The rate shall be based on overall length across deck, bow to stern, including outdrives, outboards, bowsprits, fish boxes and splashboards; anchors are not included.

Section 4. LAUNCHING RAMP:

All boats utilizing the launching ramp will pay a fee set by resolution. Floats on either side of the ramp will be used for launching and recovery of boats only. No long-term tie-up will be permitted. Boat owners desiring to use the ramp for loading or unloading of nets, crab pots or supplies will pay the fee as required and load or unload only at times of minimal sport boat launching and recovery.

Section 5. BILLING PERIODS:

(1) Annual moorages will be billed fifteen (15) days in advance of due date for the following year. If moorage is unpaid and there is no response within the subsequent 30-day period, berths will be made available to a new renter.

(a) **Pleasure vessels** - 1 May through 30 April. (12 months)

(b) **Commercial Vessels** - 1 September through 31 August. (12 months)

(c) **Transient moorage** - All transient moorage fees must be paid in advance. It is the responsibility of the vessel owner/operator to determine the number of days moorage will be required. No refunds will be made if the vessel is voluntarily removed prior to the expiration of paid transient moorage.

(2) The harbormaster will assign moorage space for each transient vessel and only that space will be used.

(3) In the event the harbormaster orders a vessel removed from the marina, a refund will be made equal to the fee paid for unused full days.

(4) Transient moorages are subject to space availability and to any other conditions that would create safety hazards to persons, other vessels or public property.

Section 6. ELECTRICITY:

Electricity will be provided for those making application and complying with all appropriate regulations and conforming to the following:

(1) Applicants shall show the dates requested for service. Transient users must disclose termination date and pay daily rates in advance. Rates will be set in accordance with P.U.C. order number 33 as amended.

(2) After the 20th of the billing month, if an account is not paid in full, a \$2.50 collection charge per delinquent month shall be collected. If unpaid after the 20th of the third month, the electricity shall be shut off. Payment in full will then be required in order to resume service.

(3) The applicant may maintain a lock on his meter box, at his expense, to prevent use by others. The applicant shall agree to be responsible for all usage shown on his meter, from whatever source, and assume all risk of improper and unauthorized usage. When ordering electricity turned off, a user is required to remove his lock so that a city lock can be placed on the meter.

(4) The applicant(s) registered with the city will be held jointly and severally liable for all accounts, including both moorage and electrical charges. All contacts or payments shall be made in the name of applicant.

(5) Vessel owners requesting power will be required to furnish their own connector. No wiring may be made direct to the meter box other than through the adaptor. Sufficient slack shall be left in the shore power line to allow the vessel normal movement without placing strain on power stands.

Section 7. STORAGE OF MATERIAL AND FENDERING:

No fenders, tires, nameplates or signs will be fastened to the walkways or finger floats unless approved by the harbormaster. No person shall place, or allow to be placed, gear, nets, boat parts, crab pots or other items that in the opinion of the harbormaster shall cause damage to the facility or create a hazard to persons using the facility. When the vessel is out of the berth, mooring lines secured to cleats shall be coiled on float.

Section 8. ANIMALS:

No uncontrolled animals shall be allowed on floats.

Section 9. POLLUTION CONTROL:

- (1) All refuse, garbage and debris must be deposited in the shoreside dumpster. Nothing shall be dumped into basin waters.
- (2) No oil, gas or oily bilge water shall be deposited or discharged in basin waters. Dumping or discharging of oily waste into the basin will result in immediate loss of moorage, with the cost of clean-up to be paid by the vessel owner and/or those responsible.
- (3) Refueling of vessels within the confines of the basin is prohibited.

Section 10. OWNER'S RESPONSIBILITY:

- (1) Vessel operators shall comply with all ordinances, rules and regulations of the city. Violations may result in termination of the moorage space.
- (2) Unattended vessels shall be securely moored with stern, bow and spring lines. The owner of any vessel causing damage to basin facilities may be liable for the cost of repairs.
- (3) The operator of each vessel shall be responsible for its wake and shall not operate in excess of five (5) nautical miles per hour within the basin.
- (4) The harbormaster shall be notified at the time of any transfer of ownership of any vessel berthed within the mooring basin.

Section 11. SERVICE DOCK:

- (1) Use of the service dock may be restricted to vessels that have moorage at the Warrenton municipal basin.
- (2) The service dock shall not be used without prior approval of the harbormaster.
- (3) The service dock shall be used in a manner not to interfere with normal traffic.
- (4) The dock and moorage approach shall be cleared immediately for use by emergency vehicles.
- (5) Limited parking on the service dock may be permitted only for loading and off-loading of supplies and equipment.
- (6) Vessels using service dock shall be responsible for cleaning the area when work is completed. Should the city have to clean the area, a charge will be levied against the boat owner at a rate determined to be fair and equitable by the harbormaster.
- (7) Vessels needing to pull drag wire or repair nets shall have approval of the harbormaster before using the basin dike road or parking area.
- (8) The hoist may be used with permission of the harbormaster. The city accepts no liability for damage caused to vessel or equipment while using the hoist.
- (9) Vessels shall be moored to dock with sufficient slack in the lines to accommodate tides. Repair of damage to the dock through the fault of vessel movement due to improper mooring may be charged to the vessel owner.

Section 12. PARKING LOTS AND PARKING:

The city provides a separate parking lot for commercial boat owners and crew which is to be used for all extended parking. Thirty-minute parking is allowed on the west side of the dike approach road to the service dock; no parking is allowed on the east side. Violators may be ticketed for illegal use or overtime parking.

Section 13. GENERAL RULES

- (1) During periods of inclement weather and high winds, basin installation is checked for problems. Inspection is made for condition of pilings, floats, pier and cleats. Should damage to installation be caused by a vessel due to improper mooring, the owner may be required to pay cost of repair.
- (2) The City of Warrenton does not accept vessels for storage and shall not be liable in any manner for the safekeeping or condition of vessels. The relation between parties is simply that of landlord and tenant. The city or its agent is not responsible for any damage or loss to the vessel, its equipment or property, either upon said vessel or upon the premises of the basin, from any cause whatever; or for injury to the tenant or invitees, occasioned by any cause, upon the mooring basin premises.
- (3) All users of the city moorage, electricity and facilities agree to indemnify and hold the City of Warrenton, its agents, officers and employees harmless from any and all claims, complaints or demands of whatever nature, whether negligent or non-negligent out of their use of the City of Warrenton premises. Users further specifically agree to pay reasonable costs of defense of all such claims, complaints and demands, whether groundless or not, and the city shall have the right to control such defense and select the attorney to conduct such defense. The claims shall include loss from fire, theft, vandalism and injury to, or death of, any person or persons, or loss or damage or injury to any property, from any cause whatsoever.
- (4) In the event legal action by the city is necessary to enforce its rights, including collection of any charges due herein, the city shall be entitled to recover reasonable attorneys' fees, including those incurred on appeal, in addition to costs and disbursements.
- (5) Any vessel which, in the opinion of the city, is in danger of sinking, has sunk or is a hazard to other vessels on the premises, may be removed forthwith at the sole expense and risk of the owner of said vessel and without liability on behalf of the city or its agents. "Hazard" is defined as fire, explosion, gas leak or unsecured vessel. Should the city or its agents be obliged to render salvage services to any vessel, the costs thereof shall be charged to the account of the vessel's owner and shall be due and payable to the city within thirty (30) days of mailing notices of said billing to owner.

Section 14. TERMINATION:

Any renter who violates any condition of the basin rules and regulation shall be subject to losing his rental privileges and to eviction, after being given ten (10) days notice. If the owner fails to remove the vessel, the city may restrain or move said vessel to another location at the sole expense and risk of its owner and without liability on behalf of the city or its agents. If any vessel is not removed by the owner or his agent within sixty (60) days of termination of rental agreement with the city, the vessel shall be considered abandoned and subject to public auction upon proper notice.

If any article, section, subsection, subdivision, phrase, clause or word in this ordinance shall, for any reason, be held invalid or unconstitutional by any court of competent jurisdiction, it shall not nullify the remainder of the ordinance but shall be confined to the article, section, subsection, subdivision, clause, sentence or word so held invalid or unconstitutional.

Section 16. Repeal

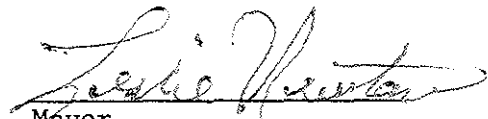

Ordinance 479-A, adopted June 6, 1966, Ordinance 528-A, adopted June 2, 1969, Ordinance 723-A adopted December 16, 1981, and all conflicting Ordinance or amendments, are repealed.

First reading: 4/19/89

Second reading: 5/3/89

PASSED by the City Commission of the City of Warrenton, Oregon, this 3rd day of May 1989.

APPROVED by the Mayor of the City of Warrenton, Oregon, this 3rd day of May 1989.
