

In the Matter of a drainage District for the drainage of the following described area of the City of Lebanon, to-wit:

Beginning at the intersection of the center line of Hiatt Street and the center line of the Southern Pacific Railroad Tract, thence South along the center line of Hiatt Street to the intersection of the center line of Hiatt Street and the center line of Elmore Street, thence East along the center line of Elmore Street to the intersection of the center line of Elmore Street and the center line of Franklin Street, thence South along the center line of Franklin Street to the South City Limit line, thence Westerly along the South City Limit line to the intersection of the South City Limit line and the right bank of the Lebanon and Santiam Canal, thence North and Northeasterly along said bank of said canal to the center line of the Southern Pacific Railroad, thence East along the center line of said Railroad to the point of beginning.

RESOLUTION # 5

FOR 1949

RESOLUTION APPROVING PLANS  
AND SPECIFICATIONS

WHEREAS, for the past several years the facilities for draining off the surface waters from the area above described have been inadequate and a portion of said water has drained into the sanitary sewer, and during periods of heavy rain the sanitary sewers have been inadequate to dispose of the sanitary sewage and drain waters, and, as a result of this, the waters backed from the sanitary sewer into the streets creating an unsanitary condition and constituting a menace to the health of the residents living within the area above described, and

WHEREAS, a main trunk line has been constructed for the purpose of draining the surface waters from this area, and in order to provide the necessary drainage it is necessary that lateral drainage lines be constructed and it is for the best interests of the property owners and citizens residing upon the property abutting upon the streets within this area that these laterals be constructed, and

WHEREAS, the property owners abutting upon many streets

in the above described area have filed petitions requesting a that the streets therein referred to be paved, which cannot be done until drainage facilities have been provided, and

WHEREAS, the owners of property abutting upon said streets will be specially benefitted by the construction of lateral sewers which will carry off the surface waters, and

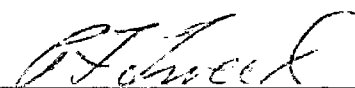

WHEREAS, the City Engineer has made a study of the topography of the City of Lebanon, and has determined the area required to be drained, in order to properly prepare said streets and adjoining streets upon which there probably will be further petitions for paving; and has recommended that the above described area is the proper area for drainage in order to accomplish the same in the most efficient and inexpensive manner,

NOW, THEREFORE, BE IT RESOLVED, that the Council should, and does hereby, declare the above described area be the necessary and proper area of the City to be drained at this time, and the drainage of the streets in said district to be necessary and proper and for the best interest of the owners of property abutting upon the streets to be drained; and hereby adopts said described area as a drainage district which shall be hereafter known as Drainage District # 4.

BE IT FURTHER RESOLVED that the plans, specifications and estimates for the drainage of said district filed by the City Engineer, be and the same, are hereby approved and adopted.

BE IT FURTHER RESOLVED that the City Recorder shall cause notice of intention to make said improvements in the manner provided by the Charter of the City of Lebanon.

Passed by the Council and approved by the Mayor this 5th day of April, 1949.
