BE IT RESOLVED BY THE COUNCIL OF THE CITY OF LEBANON AS FOLLOWS:

Section 1. The City Council finds that unforeseeable damage has occurred to the Santiam Canal Industrial Park water control structure. The damage was caused by a recent low-water event in the canal and consequent jamming of the structure's control gate.

Section 2. The City Council finds the damage to cause an emergency condition to exist upstream of the control structure and within the Santiam Canal Industrial Park due to substantially reduced water levels. Said damage requires the prompt execution of a contract to remedy the damage.

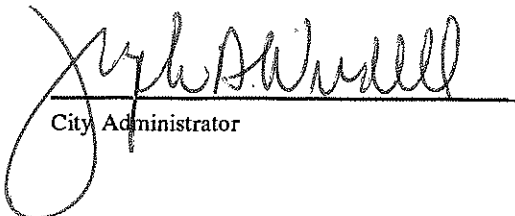

Section 3. The City Engineer is hereby authorized and directed to proceed with an emergency contract in accordance with Section 3.04.050 of the *Lebanon Municipal Code* which adopts *Oregon Administrative Rule 125-310-030*.
