This Budget proposal has been revised and approved by the Budget Committee for the City of Lebanon. The Committee consists of:

Robert O. Adams
Jack Buchanan
Richard D. Mudrow

Layton Arnold
Jay Pierce
Arthur H. Springer

and City Council Members:

Arthur G. Denker

The fourth budget election for 1976-66 will be September 28, 1976. We will be submitting the same budget for the third time. This is because this budget is at an absolute minimum to continue our present city services.

A new format has been used in the preparation of this document. In order to save paper and enable more rapid correlation, the only pages that will be colored are the Resource pages, pink; Commentary, green; and Budget Message and Summary Detail, yellow. Both sides of the page will be used whenever practical and the commentary has been listed by classification number and curtailed. The approved document reflects a very tight budget with all Capital Outlay items being transferred into Revenue Sharing. This is the first time we have used Revenue Sharing in this manner.

The major changes are the 7.4 percent increase in gross salaries, 14¢ per mile reimbursement permitted for use of a personal vehicle for city business, the Educational Incentive in Police, Public Works, Communications and Fire budgets and the exclusion of the current salary step program from the Fire/Ambulance Departments. These all resulted from negotiations with employee groups.

The general policy of the City has been to provide other employees the same percentage increase in wages and the same benefits as the negotiated contracts. "Other employees" refers to Department Heads, Directors of Divisions (Librarian, Senior Center Supervisor, etc.), Executive and Confidential Secretaries and any personnel not a member of a bargaining unit.

Because of the new bookkeeping machine, we have received for the past year, monthly reports of income and expenditures which provided much better information from which to prepare a budget. This is the first time such information has been available for the City of Lebanon. The result is that there is no guess work in establishing the amount needed in each category as they are established on the previous years actual expenditures, which we feel are very reliable even though unaudited at this time.

The increase over last year's budget is 2.748 or \$2.75 per thousand evaluation. It is 4.125 less than proposed and defeated in May, 1976. The actual amount is 11.471 mills or \$11.47 per thousand dollars.

The increase in the bonds due to addition of the sewer treatment plant bond

is: 11.06%

The increase in the general fund is: 21.46%

for a total increase over 1975-76 year of 31.52%

In the general fund the increases are as follows:

salaries 7.40%

payroll taxes and benefits 4.75%

for a total of actual personnel increases of 12.15%

materials and supplies increased 9.31%

Total increase in general fund 21.46%

Materials and supplies increased the most in Police and Fire Departments. The Police increase was mostly due to operations of vehicles. The Fire Department increases were due to more expenses in maintaining the new station and Lacombe sub-station.

The Public Works, Administrative and Parks budgets were reduced considerably for materials and supplies by a total of \$7,895.00.

All we have in the general fund are personnel and materials and supplies. If we cut materials and supplies we will have nothing left for personnel to work with. If we cut personnel we have to cut services to the public, as, after all, Government is services and it takes manpower to provide these services.

The sewage treatment plant has been moved from the general fund since with sewer use charges for revenue, it is carrying itself without property taxes.

The equipment reserve funds have been eliminated except for purchases needed this year, and balances from previous years budgets have been turned back to the general fund. This was a request of the Budget Committee. The amount was \$31,334.

The services presented in this budget are just adequate to continue services as we now have them, except that we have cut the Library and Senior Citizen's Center budgets, and are operating on reduced hours at both facilities.

We are very fortunate this year to have funds from combined Federal, State and County grants to help with our city programs. The total is surprising. They are as follows:

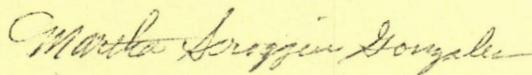

Crime prevention program	\$ 17,039
Juvenile diversion program	20,280
Weldwood Park	30,000
Senior Citizen's Center	5,625
Sewer Treatment plant construction	1,528,428
Federal Revenue Sharing	<u>150,000</u>
for a total of	\$1,751,372

We have appropriated \$40,000 from Federal Revenue sharing for street maintenance. Otherwise, there would be no repair of streets this year as there is no provision in the general fund for this purpose.

The work involved with these grants will keep our personnel very busy combined with the usual upkeep and emergency services.

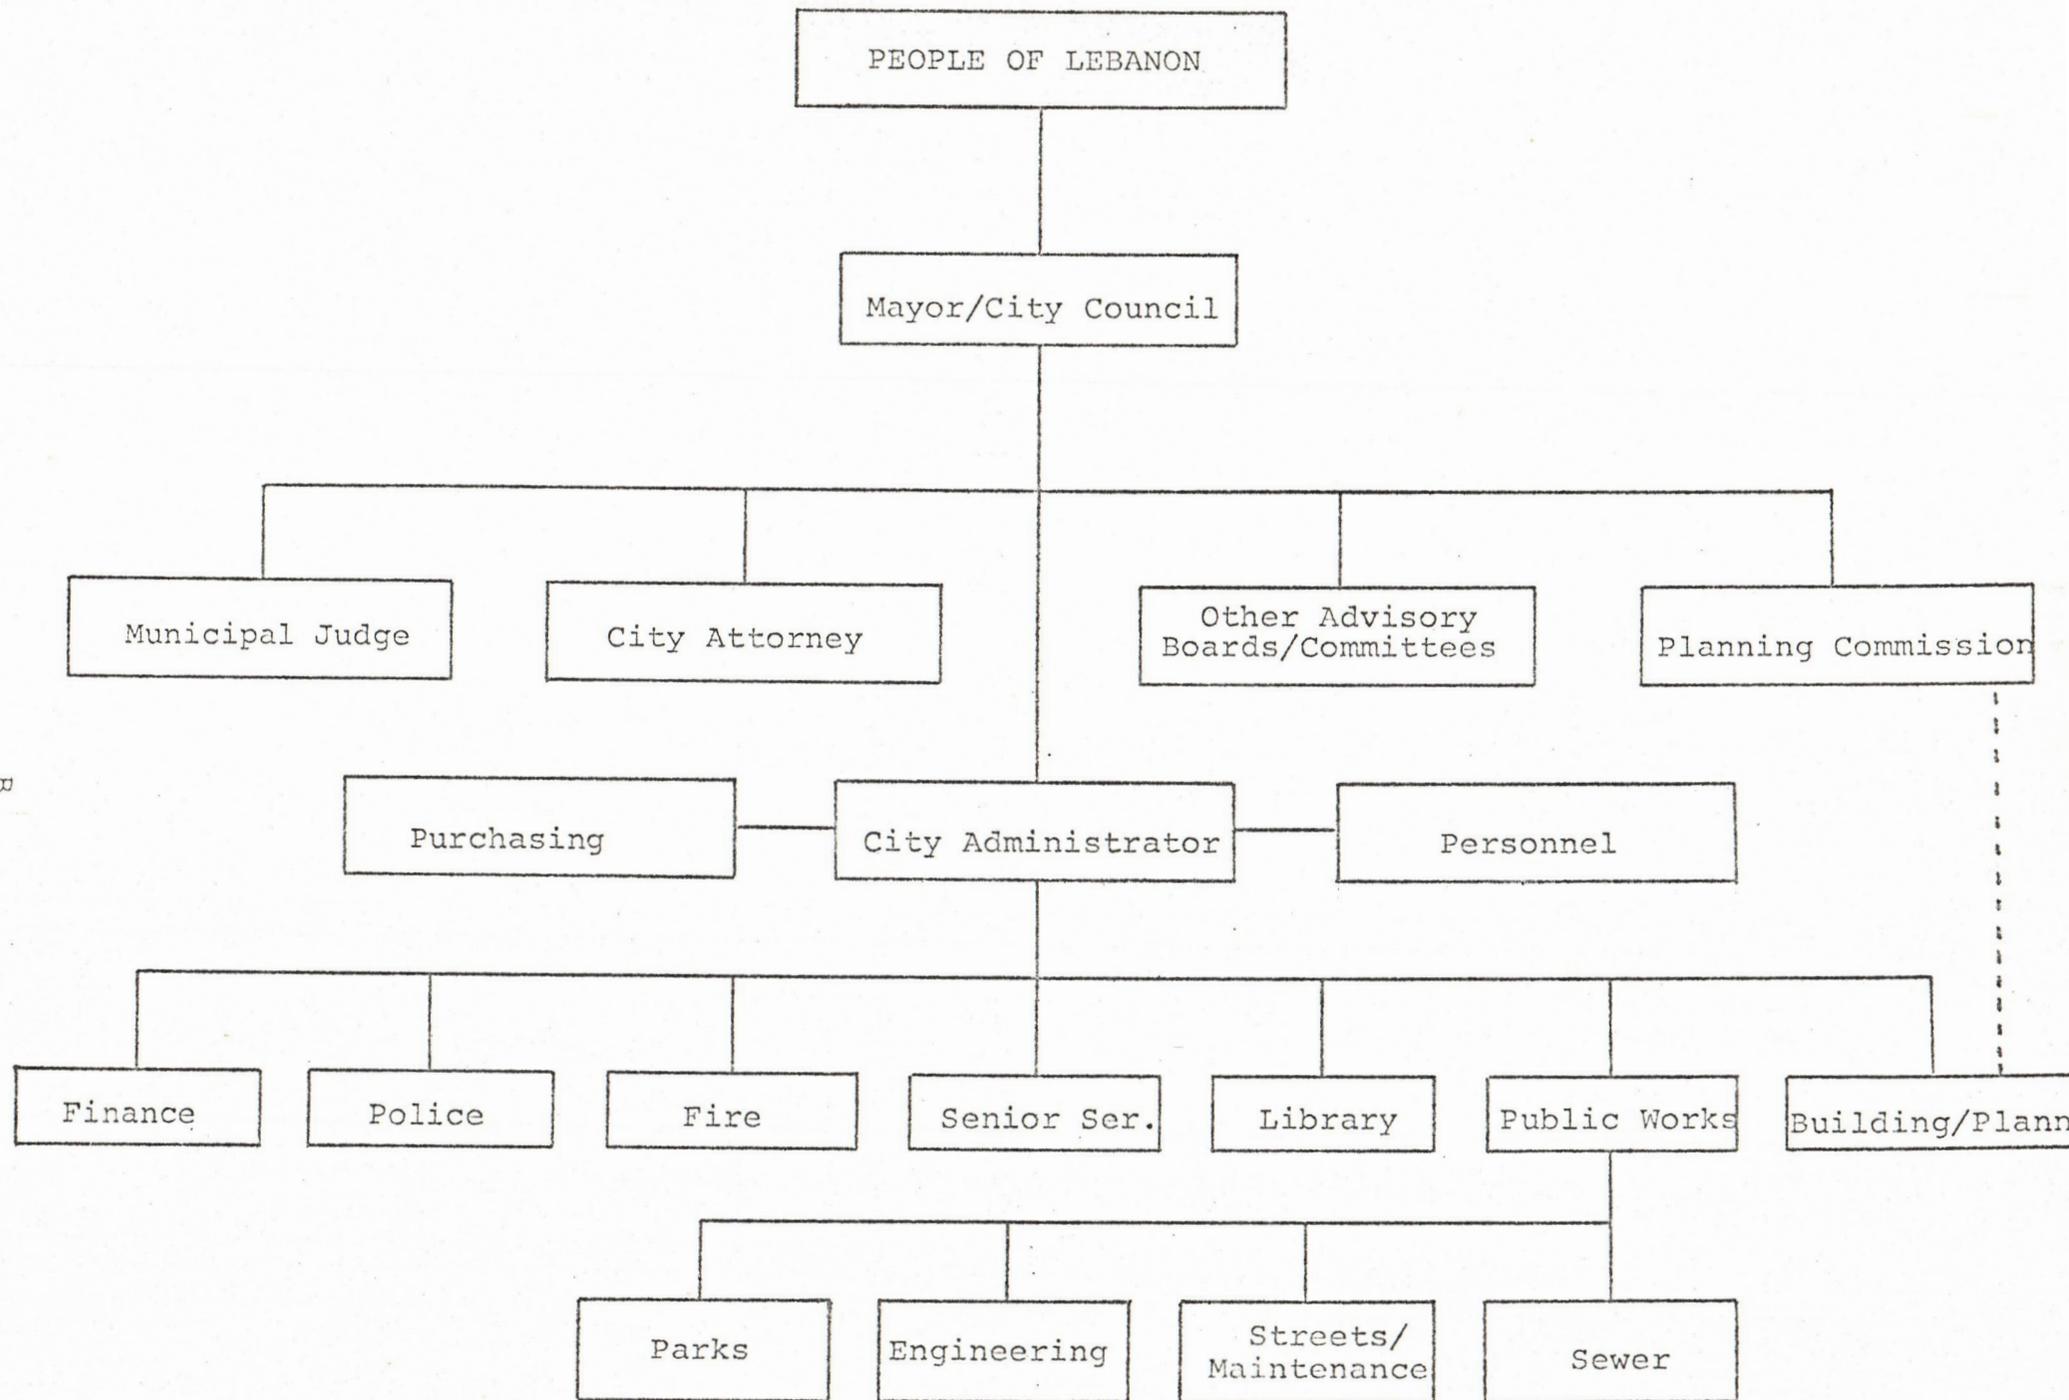

The city staff is working very hard to provide the best services possible to the citizens of Lebanon. The Council and staff are always open to suggestions for improvements we can make to perform more economically and efficiently.

Respectfully submitted,

Mayor Martha Scroggin Gonzales

FOOTNOTE: The Budget was defeated on September 28, 1976, modified and resubmitted to the voters and approved on November 3, 1976. The summaries and Budget document reflect the dollar modifications as submitted on November 3, 1976.

*Total expenditures for Senior Services was \$12,041.71. This amount exceeds the appropriation of \$4,930.00 in the Special Expenditures Division of the General Fund, 1974-75 fiscal year. There were revenues of \$14,295.52 over and above the \$4,930.00 available from the General Fund. These included monies from the Federal Government, Linn County, Helping Hands and private donations. This means, as of 7-1-75, there is a reserved amount remaining in the General Fund totaling \$7,325.91 available for disbursement.

* Due to reporting error at time budget was prepared, it has been determined that amount shown is excess of need.

** Error in addition. Total amount should have been \$1,000 higher i.e., \$58,682. Since tax levy is in the correct amount, Council will need a \$1,000 mid-year appropriations increase.
