INDEPENDENT AUDITOR'S REPORT

To the Honorable Mayor, Members of the
City Council
City of Lebanon
925 South Main
Lebanon, Oregon 97355

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Lebanon, Oregon as of and for the year ended June 30, 2008, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City's management. Our responsibility is to express opinions on these financial statements based on our audit.

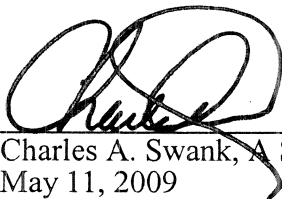

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Lebanon, Oregon as of June 30, 2008, and the respective changes in financial position and the cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Management's discussion and analysis is not a required part of the basic financial statements, but is supplementary information required by accounting principles generally accepted by the United States of America. We have applied certain limited procedures that consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Lebanon's basic financial statements. The schedules of revenues, expenditures and changes in fund balance - budget and actual for the General Fund, Intergovernmental Fund, Capital Projects Fund, and NW Urban Renewal Fund and the other supplementary information, as listed in the table of contents, are presented for purposes of additional analysis and are not required parts of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Management's Discussion and Analysis

Readers of the City of Lebanon's Comprehensive Annual Financial Report (CAFR) are offered this narrative overview and analysis of the financial activities of the City for the fiscal year ended June 30, 2008 by management. Readers are encouraged to consider the information presented here in conjunction with additional information that has been furnished in the financial statements, which follow this section.

Financial Highlights

- The assets of the City of Lebanon exceeded liabilities at the close of the fiscal year by \$45,072,759 (net assets), a decrease of \$1,529,065 from June 30, 2007. Of this amount, \$6,886,481 (unrestricted net assets) may be used to meet the government's ongoing obligations to citizens and creditors.
- Net assets decreased for governmental activities by \$1,558,397, a decrease of 6% from June 30, 2007. Net assets increased for business-type activities by \$29,332, an increase of .1% from June 30, 2007.
- As of the close of FY 07-08, the City of Lebanon's governmental funds reported combined ending fund balances of \$25,586,565, a decrease of \$2,224,420 from the prior year.
- At the end of FY 07-08, unreserved fund balance in the General Fund was \$1,046,316 or 22% of the total General Fund expenditures. This was an increase of \$385,747 from June 30, 2007, based on better financial performance than expected.
- Total governmental activities debt decreased by \$615,462 or 2% during FY 07-08. Total business-type activities debt increased by \$3,826,015 or 44% as the result of making all required debt service payments. The increase was the net result of issuing \$4,311,575 for the Cannibal Project Financing, and making all required debt service payments.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City of Lebanon's basic financial statements which are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This report also contains supplementary information in addition to the basic financial statements themselves.

Government-wide Financial Statements Government-wide financial statements display information about the reporting government as a whole. For the most part, the effect of interfund activity has been removed from these statements. These statements focus on the sustainability of the City as an entity and the change in aggregate financial position resulting from the activities of the fiscal period. These aggregated statements consist of the Statement of Net Assets and the Statement of Activities.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services or privileges provided by a given function or segment, and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (called governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (called business-type activities). The governmental activities of the City include police, library, senior services, parks, general administration, public works, and community development. The business-type activities of the City include water and wastewater. The government-wide financial statements can be found on pages 13-14 of the financial statements.

Fund Financial Statements A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into two categories: governmental funds and proprietary funds.

Governmental Funds Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of expendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statements of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City of Lebanon maintains eight individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General, Intergovernmental, Capital Projects, and NW Urban Renewal funds, all of which are considered to be major funds. Data from the other four funds is combined into a single aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

The City adopts an annual appropriated budget for its General Fund, along with all other funds. Budgetary comparison statements have been provided for the General Fund and major special revenue funds to demonstrate compliance with this budget. Budgetary comparisons for all other funds have been provided as supplementary information.

The basic governmental fund financial statements can be found on pages 15-18 of this report.

Proprietary Funds The City of Lebanon has one enterprise fund comprised of seven departments. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses the enterprise fund to account for its Water, Water CIP, Small Water Line, Wastewater, Wastewater CIP, Railroad, and Storm Drainage operations.

Proprietary fund financial statements provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund departmental financial statements provide information for the Water, Wastewater, Water CIP, Wastewater CIP, Small Waterline, and Railroad activities.

The basic proprietary fund financial statements can be found on pages 19-21 of this report.

Fiduciary Funds The City has no fiduciary funds.

Notes to the Basic Financial Statements The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements and should be read in conjunction with the financial statements. The notes to the basic financial statements can be found on pages 22-37 of this report.

Supplementary Information Supplementary information includes the combining statements referred to earlier in connection with non-major governmental funds; budgetary comparisons for non-major, and enterprise funds; and other financial schedules. This information can be found on pages 38-61 of this report.

Government-wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a government’s financial position. In the case of the City, assets exceeded liabilities by \$45,072,759 at the close of FY 07-08. This represented a \$1,529,065 or 3% decrease in net assets.

Net Assets						
As of June 30, 2008 and 2007						
	Governmental Activities		Business-type Activities		Totals	
	2008	2007	2008	2007	2008	2007
Current and other assets	\$ 30,076,026	\$ 30,753,632	\$ 6,565,455	\$ 4,645,268	\$ 36,641,481	\$ 35,398,900
Capital assets	27,899,632	27,627,574	26,693,527	23,845,276	54,593,159	51,472,850
Total assets	57,975,658	58,381,206	33,258,982	28,490,544	91,234,640	86,871,750
Current and other liabilities	1,987,727	1,216,055	1,773,810	300,927	3,761,537	1,516,982
Long-term debt	30,555,227	32,332,410	11,845,117	8,713,503	42,400,344	41,045,913
Total liabilities	32,542,954	33,548,465	13,618,927	9,014,430	46,161,881	42,562,895
Net assets						
Investment in capital assets, net of debt	14,548,489	14,360,902	14,200,797	15,597,777	28,749,286	29,958,679
Fund net assets						
Restricted	9,436,992	9,222,913	-	-	9,436,992	9,222,913
Unrestricted	1,447,223	1,248,926	5,439,258	3,878,337	6,886,481	5,127,263
Total net assets	\$ 25,432,704	\$ 24,832,741	\$ 19,640,055	\$19,476,114	45,072,759	\$ 44,308,855

The second largest portion of the City’s net assets (32%) reflects the City’s investment in capital assets (land, building, machinery, and equipment), less any related debt used to acquire those assets that is still outstanding. The City’s investment in capital assets decreased \$1,209,393 or 4% from June 30, 2007. The City’s major capital assets are investments in infrastructure – the water, and wastewater systems of treatment plants and collection/distribution facilities, and the street and sidewalk system. The City uses the capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City’s investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay the debt must be provided from other sources since the capital assets themselves cannot be used to liquidate these liabilities.

Net assets totaling \$9,436,992 or 20% represent resources that are subject to external restrictions on how they may be used. This represents an increase in the dollar value of the City's restricted net assets from June 30, 2007 of \$214,079 or 2%. The remaining balance of unrestricted net assets, \$6,886,481, may be used to meet the City's ongoing obligations to citizens and creditors.

Unrestricted net assets for governmental activities totaled \$1,447,223 or 6% of the total net assets for governmental activities. Business-type activities unrestricted net assets totaled \$5,429,258 or 28% of the total net assets for business-type activities. At the end of FY 07-08, for the government as a whole, the City of Lebanon is able to report positive balances in all three categories of net assets.

Changes in Net Assets
For the years ended June 30, 2008 and 2007

	Governmental Activities		Business-type Activities		Totals	
	2008	2007	2008	2007	2008	2007
<i>Receipts</i>						
<i>Program receipts</i>

<i>Change in fund net assets before transfers</i>	(3,133,858)	422,116	1,604,793	1,579,836	(1,529,065)	2,001,952
<i>Transfers</i>	1,575,461	490,709	(1,575,461)	(490,709)	-	-
<i>Beginning fund net assets</i>	26,991,101	23,919,916	19,610,723	18,386,987	46,601,824	42,306,903
Ending fund net assets	\$ 25,432,704	\$ 24,832,741	\$ 19,640,055	\$ 19,476,114	\$ 45,072,759	\$ 44,308,855

- Governmental activities decreased the City's net assets by \$1,558,397. This was primarily the result of an increase in expenditures of 29%.

- Business-type activities increased the City's net assets by \$29,332. There was one rate increase during the year. Transfers increased 221%.

Financial Analysis of the Government's Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of expendable resources. Such information is useful in assessing the City's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a city's net resources available for spending at the end of the fiscal year.

As of June 30, 2008, the City's governmental funds reported combined ending fund balances of \$25,586,565, a decrease of \$2,224,420 in comparison with the prior year. This entire amount is classified as unreserved fund balance.

The General Fund is the main operating fund for the City. At the end of FY 07-08, unreserved fund balance of the General Fund was \$1,046,316. As a measure of the General Fund's liquidity, it may be useful to compare the fund balance to total fund expenditures. The unreserved fund balance represents 22% of the total General Fund operating expenditures.

The fund balance of the General Fund increased by \$385,747 during FY 07-08. Revenues increased by 9% while operating expenses increased 5%. Most of the revenue increase occurred in property taxes and franchise fees while much of the operating expense increase was in Public Safety. There was a large decrease in capital outlay spending in Public Safety as the Police department completed a project to install mobile data terminals in police patrol vehicles.

In the Intergovernmental Fund, the fund balance decreased \$271,693 during FY07-08. The building department saw a decrease in revenue of over 52% as commercial building activity slowed.

The NW Urban Renewal Fund fund balance decreased \$1,081,889 from the prior year. Capital outlay accounted for the majority of expenditures.

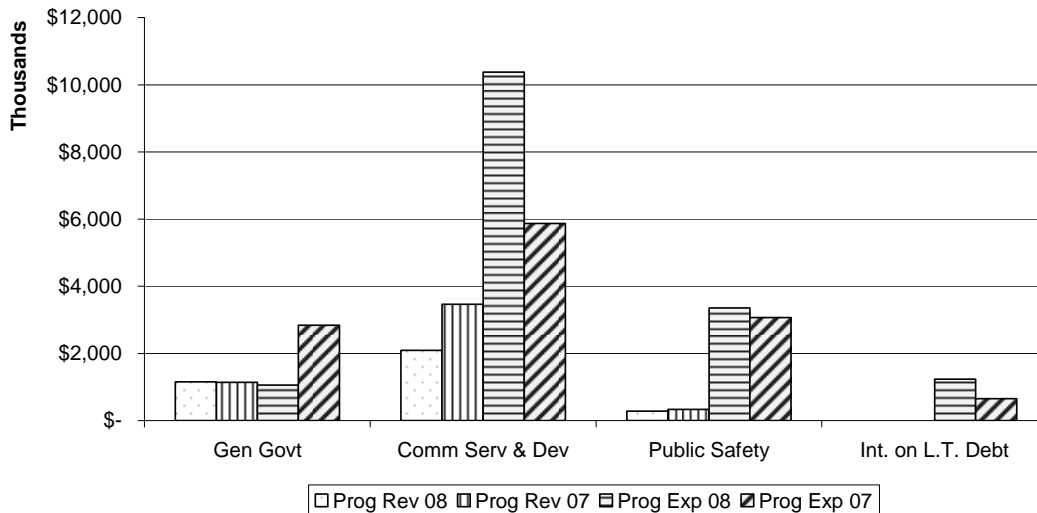

In the Capital Projects Fund, the ending fund balance was \$732,913 lower than the prior year. Spending for the construction of a justice center and library got underway totaling \$1,770,395.

Projects included Lowes Truck Route North, Lowes Wetlands work, highway utility work, and a Connect Oregon rail project.

Revenue by Source - Governmental Funds

Program Revenue and Expenses - Governmental Funds

Proprietary Funds The City's proprietary fund provides the same type of information found in the government-wide financial statements, but in more detail. Activities in the proprietary fund increased the City's net assets by \$29,332. Key elements of this increase are as follows:

- The Wastewater and Wastewater CIP departments accounted for an increase of \$305,126, although in FY 06-07 the increase from these two departments was \$828,094.
- Water fees were not increased in FY07-08, and have not been increased since July 2001. Wastewater fees were increased 10% July 1, 2007. Charges for service decreased 8% for Water and increased 11% for Wastewater. Water consumption decreased for the year causing the decrease in water charges for service.

Program Revenue and Expenses - Business-type Activities

Revenues by Source - Business-type Activities

Budgetary Highlights

There were small differences between the original budget and final amended budgets during the year. The City Council adopted a resolution to transfer \$45,000 in appropriations from Administrative and Economic Development (\$35,000) and Parks (\$10,000) to the Human Resources Department (\$12,000) for unanticipated labor attorney costs and to non-departmental (\$33,000) for repair of damage to the SCIP rail trestle. This transfer of appropriation occurred in the General Fund resulting in a net \$0 increase in the General Fund budget.

The Nondepartmental department appeared to under expend its budget by \$355,001. This department includes the General Fund Contingency, which is not spent and gives the appearance of a large underexpenditure.

Capital Asset and Debt Administration

Capital Assets The City's investment in capital assets for its governmental and business-type activities as of

June 30, 2008, amounts to \$54,593,159 (net of accumulated depreciation). This investment in capital assets includes land, buildings, vehicles, machinery and equipment, office equipment, infrastructure, and construction in progress. The total increase in the City's investment in capital assets for the current fiscal year was 6%. This total includes a 1% increase in governmental activities and a 12% increase in business-type activities.

Major capital asset events during FY 07-08 included the following:

- Purchase of property for the Shop Site expansion for \$108,240.
- Improvements to equipment and structures in city parks, and a new vehicle totaled \$105,462.
- Rail trestle rebuilding for \$32,410.
- Continued work on the new Grant Street bridge added over \$733,655.
- Infrastructure projects for water, wastewater, municipal buildings, and streets totaled \$4,805,394.

Capital Assets
As of June 30, 2008 and 2007

	Governmental Activities		Business-type Activities		Totals	
	2008	2007	2008	2007	2008	2007
Land	\$ 2,098,150	\$ 2,786,429	\$ 830,113	\$ 564,554	\$ 2,928,263	\$ 3,350,983

Additional information on capital assets can be found on page 31 in the notes to the financial statements.

Long-Term Debt At the end of FY 07-08 the City had total debt outstanding of \$43,195,263. Of this amount \$28,896,631 comprised debt backed by the full faith and credit of the government, \$12,291,575 is revenue supported, backed by the revenue of the Water & Wastewater utility operation, and \$2,007,057 is limited-tax debt supported by operating funds of the City.

The City's total debt increased \$3,250,994 or 8% during FY 07-08. The increase was the result of new wastewater fund debt issued to construct the "Cannibal Project" at the wastewater treatment plant. SPWF funds totaling \$3,611,222 to complete infrastructure projects in the NW Urban Renewal area and \$1,710,409 to construct infrastructure in the Airport Industrial area in support of commercial development. The City's outstanding notes decreased \$24,734 (100%) during FY 07-08. The decrease was the result of paying scheduled debt payments.

Additional information on the City of Lebanon's long-term debt can be found on pages 32-34 of this report.

Economic Factors and Next Year's Budgets and Rates

- The unemployment rate for Linn County, where Lebanon is the second largest city, was 6.5% in June 2008. This is an increase from last June's 6.2% seasonally adjusted rate. Linn County continues to have unemployment rates higher than the State as a whole.
- Property tax revenue was projected to increase 7% in FY 08-09 based on the same rate of increase in the assessed value. At the end of the second week of October, the City was notified that actual assessed value had increased 6.88% which will result in approximately \$21,702 less in property tax revenue to the City, over what is in the adopted budget. This was largely the result of a high level of building activity occurring in the City.
- Utility revenue for Water and Wastewater are projected to increase 12% and 16% respectively from growth in the number of customers, rate increases, and consumption. There is a 13.5% wastewater rate increase planned for FY 08-09 in support of the wastewater CIP program and projects, and a 10% water rate increase needed since the water rate has not been updated since 2001.

All of these factors were considered when preparing the budget for the 2009 fiscal year.

During FY 07-08, unreserved fund balances in the General Fund increased to \$1,046,316. The City of Lebanon has appropriated \$463,787 of this amount for spending in FY 08-09. This left the contingency in FY 08-09 at \$582,529, or 9.6% of the General Fund total. The budgeted contingency as a percent of the General Fund total in FY 07-08 was 6.8%. The City Council has established a goal of building this amount to approximately 10% of the General Fund total, or \$680,000.

Requests for Information

This financial report is designed to provide a general overview of the City of Lebanon's finances for all those with an interest in the City's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Finance Director, City of Lebanon, 925 Main Street, Lebanon, Oregon 97355.

CITY OF LEBANON, OREGON

**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND
BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
YEAR ENDED JUNE 30, 2008**

Net change in fund balances - total governmental funds \$ (2,224,420)

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds defer revenues that do not provide current financial resources.

However, the Statement of Activities recognizes such revenues at their net realizable value when earned, regardless of when received. (189,201)

The amortization of the prepaid pension asset does not require the outlay of current financial resources and is not recorded as an expenditure in the governmental funds (20,540)

The Statement of Activities reports gains and losses arising from the disposal of existing capital assets, while governmental funds do not report any gains and losses on the disposal of existing capital assets. (29,984)

Governmental funds do not report expenditures for unpaid compensated absences, interest expense, or arbitrage since they do not require the use of current financial resources. However, the Statement of Activities reports such expenses when incurred, regardless of when settlement ultimately occurs. 28,125

Capital outlays are reported as expenditures in governmental funds. However, the Statement of Activities allocates the cost of capital outlay over their estimated useful lives as depreciation expense.

Capital outlay 3,133,707
Depreciation (2,831,665)

Proceeds from the issuance of long-term debt provide current financial resources to governmental funds and are reported as revenues. In the same way, repayments of long-term debt use current financial resources and are reported as expenditures in governmental funds. However, neither the receipt of debt proceeds nor the payment of debt principal affect the Statement of Activities, but are reported as increases and decreases in noncurrent liabilities in the Statement of Net Assets.

Proceeds from issuance of debt (450,933)
Debt principal paid 1,026,514

Change in net assets of governmental activities. \$ (1,558,397)

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Financial Reporting Entity

The City of Lebanon, Oregon is governed by an elected mayor and six council members who comprise the City Council. The City Council exercises supervisory responsibilities over the City operations, but day-to-day management control is the responsibility of a city manager. All significant activities and organizations for which the City is financially accountable are included in the financial statements for the year ended June 30, 2008.

The governing boards of the Urban Renewal Agency, the Cheadle Lake Urban Renewal Agency and the Northwest Urban Renewal Agency of the City of Lebanon consist of all of the members of the Lebanon City Council. The area served by the Agencies is either within the existing City limits of the City of Lebanon or under a delayed annexation agreement requiring annexation to the City at the option of the Lebanon City Council. The Urban Renewal Agency, the Cheadle Lake Urban Renewal Agency, and the Northwest Urban Renewal Agency are reported as blended component units of the City. These agencies do not issue separate financial statements.

There are certain governmental agencies and various service districts which provide services within the City. These agencies have independently elected governing boards and the City is not financially accountable for these organizations. Therefore, financial information for these agencies is not included in the accompanying basic financial statements.

Basic Financial Statements

Basic financial statements are presented at both the government-wide and fund financial level. Both levels of statements categorize primary activities as either governmental or business-type. Governmental activities, which are normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

Government-wide financial statements display information about the reporting government as a whole. For the most part, the effect of interfund activity has been removed from these statements. These statements focus on the sustainability of the City as an entity and the change in aggregate financial position resulting from the activities of the fiscal period. These aggregated statements consist of the Statement of Net Assets and the Statement of Activities.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services or privileges provided by a given function or segment, and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Fund financial statements display information at the individual fund level. Each fund is considered to be a separate accounting entity. Funds are classified and summarized as governmental, proprietary, or fiduciary. Currently, the City has governmental (general, special revenue, capital projects, debt service) and proprietary type funds. Major individual governmental funds, governmental and major individual proprietary funds are reported as separate columns in the fund financial statements. Non-major funds are consolidated into a single column in the financial section of the basic financial statements and are detailed in the other supplementary information.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of Presentation

The financial transactions of the City are recorded in individual funds. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, liabilities, reserves, fund equity, receipts and disbursements. The various funds are reported by generic classification within the financial statements.

The reporting model sets forth minimum criteria (percentage of the assets liabilities, revenues or expenses of either fund category or the government and enterprise combined) for the determination of major funds.

The City reports the following major governmental funds:

General Fund - this fund accounts for the activities of the City which are not accounted for in any other fund. Principal sources of revenue are property taxes, franchise fees and state and county shared revenues. Primary expenditures are for police protection, parks, planning and general government.

Special Revenue Fund

Intergovernmental Fund - this fund accounts for revenue derived from specific tax or other earmarked revenue sources, including state gas tax, grants and funds set aside to finance particular functions or activities.

Northwest Urban Renewal Fund - this fund accounts for revenue derived from specific tax or other earmarked revenue sources set aside to finance development in the northwest urban renewal district.

Capital Projects Fund

Capital Projects Fund - the City has one capital projects fund which accounts for the acquisition of capital assets or construction of major capital projects not being financed by the proprietary fund.

The City reports the following nonmajor governmental funds:

Special Revenue Funds

Urban Renewal Fund - this fund accounts for revenue derived from specific tax or other earmarked revenue sources set aside to finance development in the urban renewal district.

Cheadle Lake Urban Renewal Fund - this fund accounts for revenue derived from specific tax or other earmarked revenue sources set aside to finance development in the Cheadle Lake urban renewal district.

Recorder Fund - this fund accounts for transactions involving employee benefits.

Bail Refund Fund - this fund accounts for bails received from defendants awaiting a court appearance.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of Presentation (Continued)

Debt Service Funds

The City has two debt service funds, the Debt Service Fund and the Bancroft Bond Fund. These funds account for the payment of principal and interest on general obligation bonds.

The City reports one major proprietary fund:

Enterprise Fund

The City has one enterprise fund, which is comprised of seven departments. These departments account for the acquisition, operation and maintenance of the municipal sewer and water systems.

Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

The government-wide financial statements and the proprietary funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operations are included on the statement of net assets. Net assets are segregated into investment in capital assets, net of related debt, restricted and unrestricted components. Operating statements present increases (e.g., revenues) and decreases (e.g., expenses) in net total assets.

The modified accrual basis of accounting is used by all governmental fund types. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The City considers property taxes as available if they are collected within 60 days after year end. Expenditures are recorded when the related fund liability is incurred. Principal and interest on general long-term debt are recorded as fund liabilities when due or when amounts have been accumulated in the debt service fund for payments to be made early in the following year.

Those revenues susceptible to accrual are property taxes, franchise fees, licenses, interest revenue and charges for services. Fines and permits revenues are not susceptible to accrual because generally they are not measurable until received in cash. Receivables for court fines and permits are offset by deferred revenues.

The proprietary funds are accounted for utilizing the accrual basis of accounting. Under the accrual basis of accounting, revenues are recorded at the time they are earned and expenses are recorded at the time liabilities are incurred. The proprietary funds have adopted, under GASB No. 20, not to follow FASB pronouncements issued after November 30, 1989, unless specifically adopted by GASB.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus and Basis of Accounting (Continued)

Transfers between funds are to facilitate operations.

The basis of accounting described above are in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reporting amounts of certain assets, liabilities, revenues and expenses as of and for the year ended June 30, 2008. Actual results may differ from such estimates.

Cash and Investments

Statutes authorize the City to invest in obligations of the U.S. Treasury and U.S. agencies, banker's acceptances, repurchase agreements, commercial paper rated A-1 by Standard & Poor's Corporation or P-1 by Moody's Commercial Paper Record, and the State Treasurer's Investment Pool.

Investments are stated at cost, which approximates fair value. Fair value is defined as the amount at which an investment could be exchanged between willing parties, other than in a forced or liquidation sale. The fair value adjustment is an "unrealized" gain or loss and is reported with other interest income. No investments are carried at amortized cost.

For purposes of the statement of cash flows, the proprietary funds consider cash and cash equivalents to include cash and investment pool amounts since they have the characteristics of demand deposits.

Receivables and Deferred Revenues

Receivables for state, county and local shared revenues, included in accounts receivable, are recorded as revenue in the governmental funds as earned.

Receivables of the business-type funds are recorded as revenue as earned.

Property taxes receivable for the governmental fund types, which have been collected within sixty days subsequent to year end, are considered measurable and available and are recognized as revenues. All other property taxes are offset by deferred property tax revenues and, accordingly, have not been recorded as revenue. Real and personal property taxes are levied upon all taxable property within the City and become liens against the property as of July 1 of each year and are payable in three installments which are due on November 15, February 15, and May 15. Discounts are allowed if the amount due is received by February 15. Taxes unpaid and outstanding on May 16 are considered delinquent. Property taxes receivable by the City represent the City's allocated share of delinquent property taxes and other amounts to be collected from property owners.

Assessment liens in the governmental fund types are recognized as receivables at the time property owners are assessed for property improvements. All assessments receivable are offset by a deferred revenue account and, accordingly, have not been recorded as revenue on the fund financial statements.

Interest earned on assessments in the governmental fund types is accrued when due and is approximately offset by the related improvement bond interest expenditure which is also recognized when due.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Capital Assets

Capital assets are stated at cost or estimated historical cost. Donated assets are recorded at fair market value at date of donation. Estimated fair market value of donated assets is determined based on engineering estimates of current cost or price indexed cost.

Normal maintenance and repairs are charged to operations as incurred. Major additions, improvements and replacements are capitalized. Gains or losses from sales or retirements of fixed assets are included in operations.

Capital assets include land, right-of-way (included with land), buildings, improvements, equipment, infrastructure, and other tangible and intangible assets costing over \$5,000 used in operations that have initial useful lives extending beyond a single reporting period. Infrastructure is those capital assets that are stationary in nature and can be preserved for a significantly greater number of years than most other capital assets. Infrastructure reported in governmental activities consists of roads, bridges, sidewalks, and traffic and lighting systems. Infrastructure reported in business-type activities consists of water, stormwater and wastewater collection systems.

As permitted by the reporting model, the City has limited the retroactive capitalization of governmental fund infrastructure to fiscal years ended after June 30, 1980. Although, the majority of such infrastructure was placed in service before that date, it has not been included in these financial statements since they have been primarily depreciated.

Capital assets are depreciated unless they are inexhaustible in nature (e.g., land and right-of-ways). Depreciation is an accounting process to allocate the cost of capital assets to expense in a systematic and rational manner to those periods expected to benefit from the use of capital assets. Depreciation is not intended to represent an estimate in the decline of fair market value, nor are capital assets, net of accumulated depreciation, intended to represent an estimate of the current condition of the assets, or the maintenance requirements needed to maintain the assets at their current level of condition.

Depreciation is computed over the estimated useful lives of the capital assets. All estimates of useful lives are based on actual experience by City departments with identical or similar capital assets. Depreciation is calculated on the straight-line basis, except for infrastructure and improvements other than buildings reported in the governmental activities column of the government-wide financial statements, which are calculated using a composite depreciation method. The estimated useful lives of the various categories of assets are as follows:

Buildings	50 years
Water and sewer systems	40 years
Equipment	5-40 years
Infrastructure	50 years

Upon disposal of capital assets, cost and accumulated depreciation are removed from the accounts and, if appropriate, a gain or loss on the disposal is recognized. In accordance with the composite depreciation method, no gain or loss is recorded upon disposal, but rather, cost is removed from the capital asset account and charged to the accumulated depreciation account.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Long-Term Debt

Long-term debt directly related and expected to be paid from the enterprise funds is recorded in these funds. All other unmatured long-term debt is recorded on the Statement of Net Assets, and will be paid from the debt service funds.

Accrued Vacation Pay

Accumulated vested vacation pay is accrued in the enterprise funds as it is earned by employees. In governmental fund types the amounts, if any, expected to be liquidated with expendable available resources are accrued as liabilities of the funds and the amount payable from future resources is recorded on the Statement of Net Assets. Accrued compensated absences are generally paid by all funds except the debt service funds. Sick pay, which does not vest, is recorded in all funds when leave is taken.

Budget and Budgetary Accounting

A budget is prepared for each fund. Appropriations are adopted on the modified accrual basis of accounting, which is consistent with accounting principles generally accepted in the United States of America. Annual appropriated budgets are adopted for the general, special revenue, debt service, and capital projects. The City complies with the budgetary process requirements established by the appropriate sections of the Oregon Revised Statutes. Budgets are adopted at the department level in the general fund and expenditure type for other funds. The budgets for the enterprise fund are adopted on the same basis as the budgets for the governmental funds, except for revenues, which are budgeted when received. Expenditures may not legally exceed appropriations. Appropriations lapse at the end of each fiscal year. Budget amounts include original approved amounts and all subsequent appropriation transfers approved by the City Council. After budget approval, the City Council may approve supplemental appropriations if an occurrence, condition, or need exists which had not been ascertained at the time the budget was adopted. Management may not amend the budget. A supplemental budget requires hearings before the public, publications in newspapers and approval by the City Council. During the fiscal year ended June 30, 2008, several appropriation transfers were made and approved by the City Council.

Use of Restricted Assets

When disbursements are paid for purposes in which both restricted and unrestricted net assets are available, the City deems restricted assets to be spent first.

CITY OF LEBANON, OREGON
NOTES TO BASIC FINANCIAL STATEMENTS (Continued)
YEAR ENDED JUNE 30, 2008

CASH AND INVESTMENTS

The City maintains a cash and investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed as part of "cash and investments."

Cash and investments are comprised of the following at June 30, 2008:

	<u>Carrying Value</u>	<u>Fair Value</u>
Cash		
Cash on hand	\$ 1,450	\$ 1,450
Deposits with financial institutions	1,748,592	1,748,592
Investments		
Local Government Investment Pool	14,302,122	14,302,122
Federal securities	15,651,821	15,728,662
	<u>\$ 31,703,985</u>	<u>\$ 31,780,826</u>

Deposits

At June 30, 2008, the City's deposits with various financial institutions had a bank value of \$32,178,518. The difference is due to transactions in process. For deposits in excess of federal depository insurance, Oregon Revised Statutes require the depository institution to maintain on deposit with a custodian, in a collateral pool, securities having a value not less than 25% of the outstanding certificates of participation which are issued by the collateral pool manager. The certificates of participation are issued in the City's name and are held by the City.

Investments

As of June 30, 2008, the City held the following investments and maturities:

<u>Investment type</u>	<u>Carrying Value</u>	<u>Average Maturity (years)</u>	<u>Percent of Investment Portfolio</u>
Local government investment pool	\$ 14,302,122	< one year	48%
U.S. agency securities	15,651,821	< one year	52%
	<u>\$ 29,953,943</u>		<u>100%</u>

The "weighted average maturity in years" calculation assumes that all investments are held until maturity.

Custodial credit risk is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. All the investments above, except for the investment in the Local Government Investment Pool which is not evidenced by securities, are held in safekeeping by the financial institution counterparty in the financial institution's general customer account name.

CITY OF LEBANON, OREGON
NOTES TO BASIC FINANCIAL STATEMENTS (Continued)
YEAR ENDED JUNE 30, 2008

CASH AND INVESTMENTS (Continued)

The City's policy, which adheres to State of Oregon law, is to limit its investments to the following: Issuers within Oregon must be rated "A" (bonds) or A-2 / P-2 (commercial paper) or better by Standard & Poor's, Moody's Investors Service or any other nationally recognized statistical rating organization. Issuers not in Oregon must be rated AA/Aa (bonds) or A-1 / P-1 (commercial paper) or better.

At June 30, 2008, the City's investments are rated as follows:

Rating by Moody's Investors Service

<i>Investment type</i>	<i>Total</i>	<i>AAA</i>	<i>Not Rated</i>
Local government investment pool	\$ 14,302,122	\$ -	\$ 14,302,122
U.S. agency securities	15,651,821	15,651,821	-
	<u>\$ 29,953,943</u>	<u>\$ 15,651,821</u>	<u>\$ 14,302,122</u>

The City's policy for investing in individual issuers varies depending on the type of investments. U.S. treasury and agency securities do not have restrictions regarding concentration with any one issuer. At June 30, 2008, more than 5% of the City's portfolio is invested in FHLB, FNMA, and Freddie Mac securities. These investments are 7.97%, 7.94%, and 27.68%, respectively, of the City's total investments.

The State Treasurer of the State of Oregon maintains the Oregon Short-term Fund, of which the Local Government Investment Pool is part. Participation by local governments is voluntary. The State of Oregon investment policies are governed by statute and the Oregon Investment Council. In accordance with Oregon Statutes, the investment funds are invested as a prudent investor would do, exercising reasonable care, skill and caution. The Oregon Short-term Fund is the LGIP for local governments and was established by the State Treasurer. It was created to meet the financial and administrative responsibilities of federal arbitrage regulations. The investments are regulated by the Oregon Short-term Fund Board and approved by the Oregon Investment Council (ORS 294.805 to 294.895). At June 30, 2008, the fair value of the position in the Oregon State Treasurer's Short-term Investment Pool was approximately equal to the value of the pool shares. The investment in the Oregon Short-term Fund is not subject to risk evaluation. Separate financial statements for the Oregon Short-term Fund are available from the Oregon State Treasurer.

The 1995 general obligation refunding bonds were issued to prepay revenue-supported water bonds. The original amount of the debt was \$4,380,000. All outstanding bonds were called on July 13, 2007.

The 2000 Urban Renewal general obligation bonds were issued to provide financing for urban renewal projects. The original amount of the issue was \$5,435,000 and had interest rates ranging from 4.75% to 6.00%. Annual principal and semiannual interest payments range from approximately \$461,000 to \$469,000. The final bonds mature in 2019-20.

CITY OF LEBANON, OREGON

NOTES TO BASIC FINANCIAL STATEMENTS (Continued)

YEAR ENDED JUNE 30, 2008

LONG-TERM OBLIGATIONS (Continued)

The 2002 general obligation pension bonds were issued to pay down the City's actuarial liability with PERS. The original amount of the issue was \$2,081,188 and had interest rates ranging from 2.00% to 7.36%. Annual principal and semiannual interest payments range from approximately \$148,000 to \$325,000. The final bonds mature in 2027-28.

The 2007 general obligation refunding bonds were issued to prepay or partially prepay three outstanding general obligation bond issues, including \$1,245,000 on the 1995 general obligation refunding bonds. The original amount of the issue was \$19,970,000 and had interest rates ranging from 4% to 5%. Annual principal and semiannual interest payments range from approximately \$1,306,000 to \$2,000,000. The final bonds mature in 2036-27.

Drawdowns on the \$3,677,462 general obligation NW Urban Renewal District Special Public Works Fund loan were complete in 2007. The loan proceeds were used for urban renewal projects. The interest rates on the loan range from 4.00% to 4.375%. Annual payments range from approximately \$241,00 to \$246,000. The loan is scheduled to be repaid by 2032.

Drawdowns on the general obligation General Fund Special Public Works Fund loan were begun in 2007 and will continue until the full amount of \$2,085,000 has been disbursed. The interest rate is 3.77%. The loan is scheduled to mature in 2009-10.

The revenue supported 2000 wastewater revenue bonds were issued in the amount of \$3,320,000 with interest rates ranging from 4.7% to 5.7%. Annual principal and semiannual interest payments range from approximately \$284,000 to \$289,000. The final bonds mature in 2019-20.

The revenue supported 2003 wastewater revenue refunding bonds were issued to prepay a previously outstanding wastewater bond. The original amount of the issue was \$3,775,000 and had interest rates ranging from 2.00% to 4.125%. Annual principal and semiannual interest payments range from approximately \$291,000 to \$296,000. The final bonds mature in 2019-20.

The 2004 water refunding bonds are revenue supported and were issued in the original amount of \$3,000,000 to prepay a portion of a previously outstanding water bond issue. Interest rates range from 2.0% to 4.2%. Annual principal and semiannual interest payments range from approximately \$249,000 to \$259,000. The final bonds mature in 2020-21.

During the current year the City drew down the full amount of \$4,311,575 of the revenue supported 2007 Cannibal Project financing loan to pay the costs of wastewater improvement projects. Interest rates range from 2.1% to 4.22%. Annual principal and interest payments are \$415,956. The final payment will be in 2021-22.

CITY OF LEBANON, OREGON

NOTES TO BASIC FINANCIAL STATEMENTS (Continued)

YEAR ENDED JUNE 30, 2008

PENSION PLANS

Plan Description

The City is a participating employer in the Oregon Public Employees Retirement System (“OPERS”), a cost-sharing multiple-employer defined benefit pension plan. The 2003 legislature adopted certain changes in the Oregon Public Employee Retirement System, and created a new system for all people hired after August 29, 2003. The Public Employee Retirement System (PERS), which was established under Oregon Revised Statute (ORS) 238.600, applies to all employees who had established membership prior to August 29, 2003. The Oregon Public Service Retirement Plan (OPSRP), which was established under ORS 238A and went into effect on January 1, 2004, applies to all people who are first employed with a public employer after August 29, 2003. The Public Employees Retirement Board (PERB) governs and acts as a common investment and administrative agent for both plans which are the retirement plans for most public employers in the State of Oregon. Benefits are established by state statute, and employer contributions are made at the actuarially determined rate for each system as adopted by the PERB. The Oregon Public Employees Retirement System, a component unit of the State of Oregon, issues a comprehensive annual financial report, which may be obtained by writing to Public Employees Retirement System, P.O. Box 23700, Tigard, Oregon 97281-3700.

Both PERS and OPSRP plans provide retirement and disability benefits, post-employment healthcare benefits, annual cost of living adjustments, and death benefits to plan members and beneficiaries.

Funding Status

Covered employees are required by state statute to contribute 6.0 percent of their salary to the plan which is invested in the Individual Account Program (IAP). Employers are permitted to pay employee contributions to the fund.

The City is required by statute to contribute actuarially computed amounts as determined by OPERS. OPERS completes an actuarial valuation as of December 31 of odd numbered years for new rates to be implemented July 1 of the next odd numbered year. Rates are subject to change as a result of subsequent actuarial valuations and the proportion of the system that is funded for each local government employer. For rate changes implemented July 1, 2005, the PERB voted to phase in the rate changes for PERS (for most employers a rate increase). On July 1, 2007 the City’s rate decreased to 4.07 percent based on the 2005 actuarial valuation.

For OPSRP, all employers are included in a single pool, with separate rates assigned for police and fire participants and general service participants. These rates are 12.08% for Tier 1/Tier 2 subject payroll, 12.64% for OPSRP general service subject payroll, and 15.91% for OPSRP police and fire subject payroll based on the December 31, 2005 valuation.

Annual Pension Cost

The City’s contributions to PERS for the fiscal years ending June 30, 2006, 2007, and 2008 were \$943,385, \$859,410, and \$855,135, respectively, which equaled the required contribution for the year.

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, (2) move receipts restricted to debt service from the funds collecting the receipts to the debt service fund as debt service payments become due, and (3) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

RESTATEMENT OF BEGINNING FUND BALANCES

During the current year, the City discovered two errors in prior years' reports. First, designations of fund balance were erroneously reported as liabilities (reserved for claims). Secondly, the City discovered that the portion of accrued compensated absences being reported as fund liability was being calculated incorrectly. The beginning fund balances in the following funds have been restated as shown below.

	<i>General</i>	<i>Inter-governmental</i>	<i>Capital Projects</i>	<i>Debt Service</i>	<i>Bancroft Bond</i>	<i>Cheadle Lake Urban Renewal</i>
Fund balances, as previously reported	\$ 560,717	\$ 1,713,993	\$ 21,807,162	\$ 677,696	\$ 24,288	\$ 136,401
Reserved for claims	42,232	76,768	-	-	-	-
Accrued compensated absences	57,620	30,282	3,472	-	-	606
Fund balances, as restated	<u>\$ 660,569</u>	<u>\$ 1,821,043</u>	<u>\$ 21,810,634</u>	<u>\$ 677,696</u>	<u>\$ 24,288</u>	<u>\$ 137,007</u>

Additionally, the beginning balance of governmental activities in the statement of activities has been restated by \$2,027,597 to reflect the prepaid pension asset that was previously not recorded.

The beginning fund balance of the Enterprise Fund was restated by \$76,768 to correctly report amounts reserved for claims.

CITY OF LEBANON, OREGON
NOTES TO BASIC FINANCIAL STATEMENTS (Continued)
YEAR ENDED JUNE 30, 2008

INSURANCE RESERVES

For the past several years, the City has been setting aside funds in an insurance reserve account to use for self insurance against various risks. The deductibles on most City policies range from \$1,000 to \$5,000. However, the greatest portion of the reserve is set aside to meet the deductible on the earthquake policy, which is \$200,000. In addition, from time to time, when special expenditures are needed for safety reasons, funds from this reserve are used. The insurance reserves are classified as unrestricted net assets on the Statement of Net Assets.

CONTINGENCIES

From time to time, the City is a defendant in various litigation proceedings. Management believes any losses arising from these actions will not materially affect the City's financial position.

COMPLIANCE SECTION

CITY OF LEBANON, OREGON

***COMMENTS OF THE INDEPENDENT AUDITOR REQUIRED BY STATE OF OREGON MINIMUM STANDARDS FOR AUDITS OF OREGON MUNICIPAL CORPORATIONS
YEAR ENDED JUNE 30, 2008***

STATE OF OREGON COMPLIANCE SECTION

Oregon Administrative Rules 162-10-050 through 162-10-320 incorporated in the Minimum Standards for Audits of Oregon Municipal Corporations, prescribed by the Secretary of State in cooperation with the Oregon State Board of Accountancy, enumerate the financial statements, schedules, comments and disclosures required in audit reports. The required statements and schedules are set forth in the preceding sections of this report. Required comments and disclosures related to our audit of such statements and schedules are as follows.

We have audited the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City of Lebanon (the City), as of and for the year ended June 30, 2008, which collectively comprise the City's basic financial statements and have issued our report thereon dated May 11, 2009. We conducted our audit in accordance with auditing standards generally accepted in the United States of America.

Significant Accounting Policies

The significant accounting policies followed in preparing the City's financial statements are summarized in the notes to the basic financial statements.

Organization and Fund Structure

The organization and fund structure of the City is documented in the notes to the basic financial statements.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the City's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with accounting principles generally accepted in the United States of America such that there is more than a remote likelihood that a misstatement will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

CITY OF LEBANON, OREGON

**COMMENTS OF THE INDEPENDENT AUDITOR REQUIRED BY STATE OF OREGON MINIMUM
STANDARDS FOR AUDITS OF OREGON MUNICIPAL CORPORATIONS (Continued)
YEAR ENDED JUNE 30, 2008**

Adequacy of Accounting Records

The City's accounting records were reasonably maintained and adequate to support our audit of the basic financial statements.

The City uses an equity account in some funds as a reserve for claims. Some disbursements are charged directly to this account, and some receipts are credited directly to this account. As the account is an equity account, the transactions are not being recorded as revenues or expenditures. This practice is not in compliance with generally accepted accounting principles.

Indebtedness

The general obligation bonded debt of the City is in compliance with the limitation imposed by ORS 264.250 (3). We noted no defaults in principal, interest, sinking fund, or redemption provisions with respect to any of the City's liabilities, and no breach of the bond agreements, at June 30, 2008.

Adequacy of Collateral Securing Depository Balances

ORS 295 provides that each depository, throughout the period of its possession of public fund deposits, shall maintain on deposit with its custodians, at its own expense, securities having a value not less than 25% of the certificates of participation issued by the pool manager for funds in excess of those insured by the Federal Deposit Insurance Corporation. Our review of the adequacy of collateral securing depository balances indicated the collateral was sufficient during the year ended June 30, 2008.

Budget Compliance

The City appears to have complied with Local Budget Law (ORS 294.305 to 294.520) in the preparation, adoption and execution of its budget and tax levy for the fiscal years ending June 30, 2008 and 2009. A description of the budgeting process is in the notes to the basic financial statements.

Insurance and Fidelity Bonds

We have reviewed the City's insurance and fidelity bond coverage at June 30, 2008. We ascertained that such policies appeared to be in force and in compliance with legal requirements relating to insurance and fidelity bond coverage. We are not competent by training to comment on the adequacy of the insurance policies covering City-owned property at June 30, 2008.

Investments

Our review of deposit and investment balances indicated that the City was in compliance with ORS 294, as it pertains to investment of public funds, during the year ended June 30, 2008.

Public Contracting and Purchasing

Our review of the City's public contracting, purchasing procedures and construction of public improvement requirements (ORS 279) indicated that the City was in compliance.

CITY OF LEBANON, OREGON

COMMENTS OF THE INDEPENDENT AUDITOR REQUIRED BY STATE OF OREGON MINIMUM
STANDARDS FOR AUDITS OF OREGON MUNICIPAL CORPORATIONS (Continued)
YEAR ENDED JUNE 30, 2008

Use Of State Highway Funds

The City appears to have complied with the legal requirements relating to the use of revenue from taxes on motor vehicle use fuel.

Programs Funded from Outside Sources

We have reviewed the City's compliance with appropriate laws, rules, and regulations pertaining to programs funded wholly or partially by other governmental agencies. The City is in compliance with the guidelines in all material respects.

Financial Reporting Requirements

We have reviewed financial reports and other data relating to programs funded wholly or partially by other governmental agencies. This data, filed with other governmental agencies, is in agreement with and supported by the accounting records.

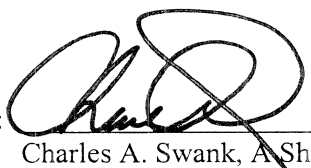

Other Matters

The urban renewal districts do not issue separate financial statements, and are not audited separately as required by ORS 297.425.

The City makes appropriations in the enterprise fund by department. The accompanying schedules show budgetary comparisons for each department, but there is no budgetary comparison for the enterprise fund as a whole.

This report is intended for the information of the City of Lebanon, the State of Oregon, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
