

January 1961

The regular meeting of the Library Board was held in the basement of the Library. Those present were Mary Frances Gilbert and Bea Dick.

The minutes of the last meeting were read and approved. The bills were read, signed and approved. The report for December was read by Mary Frances.

Mary Frances reported on the cost of the canape for the back door. Mid-State has three prices-- a sheet steel one that would serve but that would be unattractive in appearance, a slightly higher priced one that would be both functional and attractive, and a higher priced decorative one. It was decided to purchase the medium priced one.

A letter was read by Mr. Richards, who was supposed to do our survey, informing us that he was teaching for the rest of the school year. Mary Frances will write to the State Librarian to see if anyone else can do this.

The rest of the meeting was spent discussing the possibility of converting the County School Room in the basement into a Children's Department. It was decided to ask Mid-State for an estimate with the possibility that we include it in the budget for the next year.

There being no further business, the meeting was adjourned.

*Bea Dick, Secretary*
