RE: TRAFFIC PATTERN IN THE INTERSECTION OF EAST 10TH STREET  
AND WASHINGTON STREET IN THE DALLES, OREGON

Dear Jerry,

I have a suggestion for changing the traffic pattern at the intersection of East 10th and Washington Streets. This is the intersection on the east end of The Dalles High School.

My suggestion is to exchange the left turn lane and the safety island. I feel it would give better vision of the turning vehicle and a better vision for the vehicle turning west from Washington Street to move the left turn lane easterly. This would put the safety lane next to the right turning lane. The left turn lane would be in a line with the center line of East 10th Street giving a better view down East 10th to those headed west. Also vehicles headed west down East Tenth Street from Federal Street who wanted to turn south on Washington Street would have additional space to make the swing south. At present it is a little tight for school buses to make the turn south to park by the High School. I have attached two sketches; one showing the intersection as it is now and another sketch showing my suggested change.

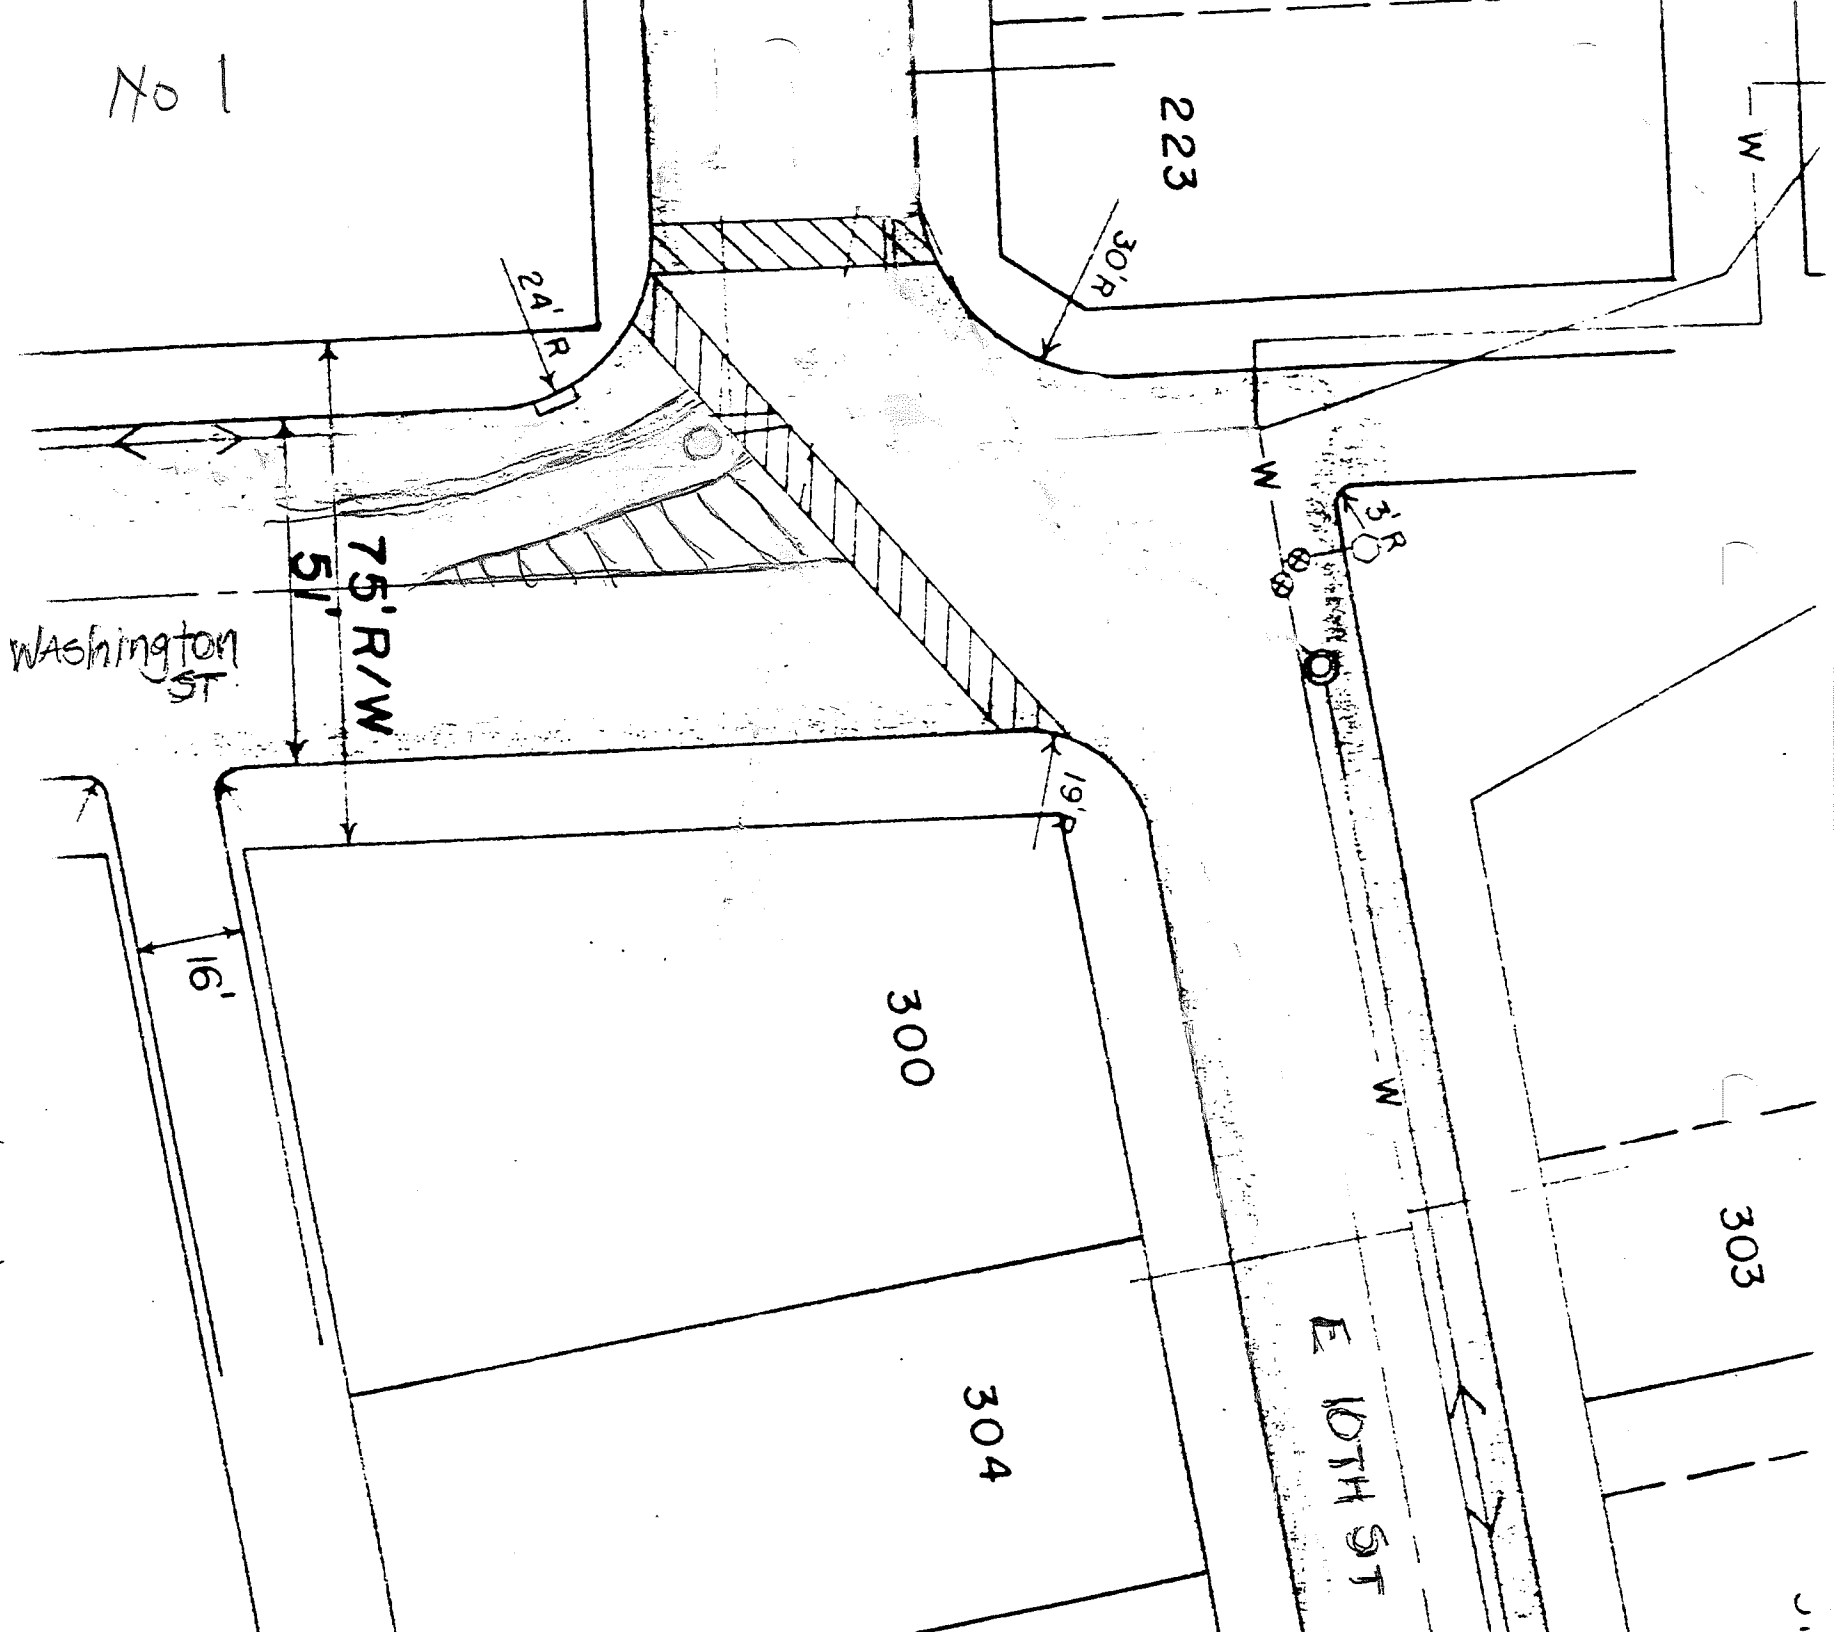

If you would like to visit with me about my suggestion please telephone me at 296-4371.

Thank you,

John Thomas

Dear Ladies & Gentlemen,

Some time ago I wrote to you requesting a 4 way stop sign be places at the intersection of 10<sup>th</sup> & Mt. Hood streets. To date, I have had no response, of any kind, to my request.

Since the harvest season is upon us, time is of the essence. I would respectfully urge you to please act favorably to my request at the earliest possible date.
