## **PRESS RELEASE**

**DATE:** July 16, 2022

**TOPIC:** Wastewater Treatment Plant Discharge Continues to Exceed *E. coli* Limit

**CONTACT:** Public Works Department (541) 296-5401

**FOR RELEASE:** IMMEDIATELY

---

Operations at the City of The Dalles Wastewater Treatment Plant are improving but are not yet back in compliance after a recent plant upset that resulted in discharge to the Columbia River of treated wastewater exceeding the plant's limit for *E. coli*. Wastewater treatment staff is working hard to restore the biological balance so that the plant can quickly return to normal operations.

On Thursday July 14, 2022 samples were taken at pre-arranged locations in the Columbia River to determine the effect of the discharge on water quality in the river. Tests on five samples taken between River Mile 186.5 and 189.5 show that *E. coli* levels at the sample locations were well below bacterial [criteria](#) set by the Oregon Department of Environmental Quality for freshwater recreation.

<b>E. coli in recreational waters</b>	<b>Average</b>	<b>Maximum</b>
DEQ Criteria OAR 340-041-0009 Bacteria	126.0 MPN/100L (90-days)	406.0 MPN/100L
Results from samples taken between Columbia River Mile 186.5 and 189.5 on July 14, 2022	4.0 MPN/100L	13.4 MPN/100L

MPN = Most Probably Number

As a precaution, signs will remain in place at locations of public river access until the discharge from the wastewater treatment plant returns to compliance. Signs are posted on the Oregon shore of the Columbia River, from The Dalles Riverfront Park to West Mayer Park boat launch. The signs say: "Warning - Contaminated Water - No water contact" and give phone numbers to call for information.

For information about Washington shore public river access, contact the Klickitat County Health Department at (509) 493-1558.

The Department is in communication with the Oregon Department of Environmental Quality and local health department officials to coordinate response. Questions can be directed to the Public Works Department office at (541) 296-5401.
