BUDGET MESSAGE

Members of the Budget Committee City of The Dalles The Dalles, Oregon 97058

Ladies & Gentlemen:

Transmitted herewith is the proposed 1985-86 budget for the City of The Dalles. ORS 294.331 states that the governing body of each municipal corporation shall, unless otherwise provided by County or City Charter, designate one person to serve as Budget Officer. The Dalles' City Charter in Section 24 paragraph (c) (5) states that the City Manager shall be responsible for preparing and submitting to the Budget Committee the annual budget estimates and such reports as that body requests. It is upon this authorization that your City Manager has met with each of the City Department Heads to discuss the operation and costs of their departments for the upcoming fiscal year.

This proposed budget is truly a tentative proposal. It is not a balanced budget which all public bodies are required to have by State law in that our anticipated revenues do not meet or exceed our anticipated expenditures. In order to balance the budget, a vote of the citizens for a one year levy will be required if we are to have sufficient revenues to offer the same services as we have offered in the past. This proposed budget will require your very careful consideration so that when you complete your portion of the budget process for the City of The Dalles, we will have a justifiable amount to submit to the people for their approval in order to operate for one more year in the fashion that the citizens wish from our level of government.

My sincere thanks are extended to the department heads who have worked so hard to come up with a budget which, though conservative in operational costs, will allow each department to give a service to the citizens that you are representing and that we, as employees, are serving.

The budget process consists of several steps. The first step is for the City Manager to request the department heads to submit their anticipated expenditures for their operations during the next fiscal year. Step two is for the City Manager and the Finance Officer to meet and discuss the expected revenues for the upcoming year. The third step is for the City Manager to meet individually with the department heads to go over the budgets to pare them down so that a balanced budget is presented to you. For the past two years we have given to you a balanced budget for your consideration, but unfortunately, because of many things, this is still not a balanced budget even though we have pared down the departmental budgets. This last step in the process is for the Budget Committee to review, discuss, modify, approve and finally recommend to the City Council a balanced operating budget. This step is your responsibility and we now place in your hands the document with which the City will operate for the next year, the document with which the City will offer its citizens the services that have been requested and with which our level of government may be the most efficient and effective as money will permit.

Oregon, I believe, is unique in that Budget Committees for cities in our State are not composed only of Councilmen but rather State law dictates that a like number of citizens sit with the city Council as equal members of the Budget Committee. This is done so that citizens, as well as elected officials, will have an equal say as to how much money will be spent in given departments throughout the City, thereby protecting the rights of the citizens in determining how their tax dollars will be used. It is very important that all 10 members of the Budget Committee (5 Councilmen and 5 citizens) understand that they are on an equal basis and may ask any questions or request any reports necessary for them to more clearly understand the budgeting process. With this thought in mind, I hope each of you will understand that no question is too simple or ridiculous to be asked. Quite possibly other members of the Committee might have the same questions in mind and for some reason have not stepped forward to ask for an answer.

It is with a great deal of sincerity that I submit this proposed budget to you with the knowledge that we are all working toward the same goal - good, honest government! Through your efforts, this will be accomplished. My staff and each of the department heads for the City of The Dalles are at your disposal and will attend budget meetings to answer your questions. They major portion of my work is now completed. The most important part of the budget process is now underway. That process, as stated before, is your study, discussion, modification and recommendation of the final budget for the operation of the City of The Dalles for 1985-86.

FINANCIAL POSITION

Our General Fund financial position as presented to you in this document is not good, in that it is not a balanced budget as prescribed by law. For the past two years we have lived within the 6% limitation; unfortunately we could not do it again this year. At the present time we are \$283,687 out of balance. We have two alternatives to correct this problem: 1) Go to the voters for a one-year levy in the amount of \$329,872, which includes the 14% of uncollectibles, or 2) cut \$283,687 out of the budget. We feel this is a very tight budget, one that cannot be cut without serious cutbacks in personnel and programs. This year's revenue of \$2,510,029 compares with last year's revenues of \$2,606,834 or \$96,805 less this year than we had last year. The expenditure for this year are estimated at 2,793,716 or 186,882 more than last year. This budget represents a 7.17% increase over last years.

So you can see, not only haven't we added anything new into the budget, we have tried our best to hold back, department by department, to keep from being too far out of balance. The major revenue cutback is in the beginning balance; last year we estimated \$500,000, this year we estimated \$250,000. All the other funds - the water, sewer, street and airport are balanced. Of those funds only the street fund will be in difficulty if general revenue sharing is eliminated as per President Reagan's recommendation. This budget has only five funds for you to work on this year: 1) the General Fund which has Administration, Finance & General, Legal & Judiciary, Planning & Building, Communications, Library, Police, Fire and Ambulance; 2) the Water Fund which has Supply & Treatment and Distribution; 3) the Sewer Fund which has Treatment Plant and Collection; 4) Streets; and 5) Airport.

Budget Message Page 3

This year you will note that this Sewer budget is split into two budgets similar to the water fund in that we have the treatment plant separate form the collection system.

PERSONNEL

As mentioned previously, we are negotiating with two of our three employee bargaining units. That being the Firefighters union and the Employees Association. The Police are currently in the second year of a 2-year contract. Because of negotiations, I must apologize to your for the fact, that the Personnel Services pages in all departments are missing. We do not know at the present time how the negotiations will come out and therefore, I am not typing any of the figures in for the positions. We are still two employees short in the Police Department, inasmuch as 4 years ago the Budget Committee eliminated three of the Patrolmen positions in that Department. One of the positions has been refilled but we feel we are still 2 short. If our levy this year does not pass, probably 90% of the cuts will be in personnel. We can ill afford to lose any more people at this time. We have the minimums necessary to operate each of the departments. For the past few years, we have been, through attrition, losing employees in different departments. We are to that point now where we must stop losing, and in some cases possibly gain.

PROSPECTS

If ever the City of The Dalles was facing a bleak future, it certainly is this year. As you know we have lost our Martin Marietta Aluminum Plant. Rumors persist that if the BPA does not lower the rates to the D.S.I.'s that the Goldendale plant will be closed shortly after the beginning of the fiscal year. We have lost one of our two PayLess Stores, and our unemployment rate in our area is probably as high as it has ever been. By driving up and down our City streets you will see many more houses for sale than ever before. It is not that more people are moving month-to-month, but rather people that have moved six or nine months ago still have not sold their home. This does not help the posture of a City in having so many for sale signs out for such a long period of time. We will be asking the people to vote on a one-year levy at an estimated \$300,000, and yet many of our citizens are looking at the possibility of being laid off from their employment, or realistically having already been laid off from their employment, and it is difficult for them to support levies when in fact they do not have a job to pay their bills. But, by turning down the levy, only brings about more unemployment in that we will have to probably lay off anywhere from 12 to 15 of our employees. This is not a very nice picture to paint for the Budget Committee as we being this year's budget discussions, but the facts are the facts; there is no fat in this budget; there is no where to cut except to cut personnel.

In another part of the budget we are looking at losing our General Revenue Sharing if President Reagan's plan of eliminating revenue sharing to cities is carried out by the congress. If in fact we lose this amount of money, then the street department will be losing approximately \$234,500 or about 32.5% of its total budget. It is absolutely necessary that the Budget Committee recommend to, and the City Council carry out, another source of funding for the street

Budget Message Page 4

maintenance department if the revenue sharing program is eliminated from the Federal budget.

There is a somewhat sunny side to this dreary picture; that being that we have been meeting now for the past two to three years discussing with Wasco County and Wasco Rural Fire Protection District the feasibility of having a joint We do not presently have the final location of the Communications Center, nor all of the equipment purchased for it; this will come later. Our latest proposal is that the City will lend its facilities to the newly formed Communications Center group and operate from that facility until such time as a new City, the County, and the Wasco Rural Fire Protection District in that we will is an asset to a community and it appears we have finally resolved all differences and 9-1-1 will be a reality in our area of Wasco County this year.

We cannot operate our Street Department budget less one-third of the revenues that we now receive. It is imperative that each of you on the Budget Committee, as well as each and every employee for the City of The Dalles, get out and sell our levy for the year 1985-86 and also come up with an alternate source of funding for our street department if revenue sharing is eliminated.

Del Cesar City Manager

COMMENTARY

DEPT: Finance & General

CODE: 041

FINANCE SOURCE

The revenue to operate this department comes from the various resources of the General Fund.

PERSONNEL

The personnel for this department consists of the Clerk-Treasurer, Computer Services Director, and three Account Clerks.

The functions of this department are varied and include maintaining of the official records of the City (Council minutes, City property records, ordinances, and resolutions). This department also provides payroll service to the 100+ City employees. The department does the billing and collecting for the 4,000+ water and sewer customers. Special assessments are processed through this office. A part of this department's function is the accounting and budget reporting for the entire City. Also, the accounting and reports for the various federal and state grants are provided by this office. The billing and collecting for the ambulance service is another function of this office.

The non-departmental portion of the Finance and General Department contains the major expenditure items for the entire City; such as insurance and bonds, street lights, annual audits, the contingency account, and the City's contribution to other governmental services. Currently we are in the process of switching our accounting from a posting machine to our new data processing equipment and programs.

The following figures are from the 1984-85 audit. It gives you an idea of the activities of the Finance and General Department:

Total City Revenue - all Funds \$4,831,857 Total City Expenditures - all Funds 4,809,751

COMMENTARY

DEPT: Planning/Building

CODE: 042

FINANCE SOURCE

The Planning/Building Department's operating budget is derived from the General Fund.

SERVICES

The Planning Director has the responsibility to administer the City's land use and development regulations. The Department is also responsible for Comprehensive Plan implementation and updating, community development, and disseminating information to the general public. The Department processes applications for variances, rezones, land partitions, site plans, conditional use permits, annexation requests, and referrals from Wasco County (pursuant to Urban Area Joint Management Agreement). Community development activities include work with area economic development organizations, historic preservation (including staff support to Historic Landmarks Commission), downtown development work, and the senior center project.

The function of the Building Department is primarily the enforcement of those codes and ordinances relating to the construction of buildings and other structures. The Building Official enforces all of these adopted codes for the purpose of protecting the public from substandard construction through the enforcement of the Uniform Building Code, Uniform Plumbing Code, Uniform Mechanical Code, and assures that all building permit applications are provided an adequate level of inspection and plan review service for fees paid. In addition to the building function, the Building Official serves as staff, enforces the Dangerous Building Ordinance, Sign Code, Mobile Home Placements, Mobile Home Electric and Plumbing Hookups and issues all permits for the above. The Building Official has also started a maintenance program for City buildings such as the City Hall, State Office Building and the Library.

PERSONNEL

Permanent staff members: 1) Planning Director; 2) Building Official; 3) Planning Secretary.

HIGHLIGHTS

Planning Department priority will be given to code enforcement, maintaining conformity with Oregon legislative and case law, and services to community groups and the general public.

Building Department priority will be given to further develop and streamline our permit system, to provide amendments and update our Sign Code and to develop a Building Maintenance program for all City Buildings and to keep adequate records so an on-going maintenance program can be implemented.

241	Notices and Publications	Legal publications for zoning, sub- division/partitioning, sign code, and other land use public hearings.
331	Special Department Supplies	Printing forms (building permits, etc.), new building code books, maps, and reprinting of ordinances.
361	Office Equipment Maintenance	For Copier, typewriter, and adding machine.

CITY OF THE DALLES

Annual Budget 1985-1986

COMMENTARY

DEPT: Legal & Judiciary

CODE: 043

FINANCE SOURCE

The revenues for operation of this department come from the various resources of the General Fund.

PERSONNEL

Personnel include: Municipal Judge, Court Clerk, City Attorney and a Legal Secretary.

SERVICES

The Municipal Judge presides over the Recorder's Court each morning and holds court on Tuesday evening, plus other special courts as required. The Court Clerk handles all trial settings and payments of fines. The City Attorney composes all ordinances, resolutions, contracts, easements, agreements, and other legal instruments for the City, plus provides continual legal counsel for Mayor, City Council, City Manager and Department Heads. Special court cases, bond issues, etc., are an extra service and charge.

COMMENTARY

DEPT: Police

CODE: 044

FINANCE SOURCE

The Police Department budgeted appropriation for personnel services, supplies, maintenance, and a capital outlay is derived from the General Fund.

SERVICES

The Police Department is responsible for the public safety within the City Limits of the City of The Dalles. Services provided include the protection of life and property, the prevention of crime, the detection and apprehension of criminals and offenders, the enforcement of traffic laws and City ordinances. Other non-enforcement services include crime prevention, community affairs, and school programs designed to make citizens aware of how they can assist their police department, and themselves in making the community more secure from criminal attack. The Police Department as a twenty-four hour operation provides a resource to other agencies and service organizations.

PERSONNEL

The organization of the Police Department is as follows: Chief of Police; one Police Manager II (Deputy Chief); four Police Manager I (Commander); ten Patrol Officers; one Police Secretary; one Police Clerk; and one Parking Patrol Officer, for a total complement of nineteen members. The previous separate budget of Police Meter, Code 45 is abolished and is incorporated in Police Code 44. The reduction of three regular budgeted Police Patrol Officer positions from the fiscal budget 1982-83, and the termination of the Selective Enforcement Grant and its three Police Patrol Officers and one Traffic Clerk severely impacted the ability of the department to provide adequate response to citizens needs. The request in this budget for three Police Patrol Officers will restore those lost in 1982-83 and permit us to be proactive in responding to citizen calls for assistance.

Continued increases in the demand for law enforcement services in the City of The Dalles can be expected if the crime trend is upward. The primary goal of the Police Department will be to respond effectively to the challenge of change, and to continue to serve the public in the best professional manner.

DEPT: Fire CODE: 046

FINANCE SOURCE

The Dalles Fire Department budgeted appropriation for all personnel services, supplies and maintenance, transfers out, and capital outlay is derived from the various resources of the General Fund.

SERVICES

The Fire Department is responsible for the public safety within the City Limits resulting from fires of a hostile nature. Fire suppression services include the protection of life and property of the citizens. Both Automatic-Aid and Mutual Aid agreements with near-by fire organizations and other with agencies of the Mid-Columbia Mutual Aid District assist our firefighting operations. In addition to the Fire Suppression activities, the Fire Department maintains an active Fire Prevention Bureau with personnel enforcing fire and life safety codes, ordinances, inspection and plan reviews. The Fire Department provides a year round effort in public education and fire safety through scheduled activities at service groups, schools, institutions, and through the news media. The Fire Department also provides numerous support functions to insure effective operations and essential services to the Community.

PERSONNEL

The Fire Department operates with a Fire Chief, Fire Marshal, Training Officer, three Shift Captains, three Lieutenants, one Engineer (three Engineers paid through Ambulance Budget), two Firefighters and one part-time (50%) Secretary. These full-time permanent personnel are augmented by approximately fifteen (15) Volunteer Firefighters. The Fire Department is in dire need to increase this complement to maintain adequate coverage in serving our community with an effective response.

COMMENTARY

DEPT: Ambulance CODE: 047

FINANCE SOURCE

The Dalles Fire Department Ambulance Service budgeted appropriation for personnel services, supplies and maintenance, transfers out, and capital outlay is derived from the various resources of the General Fund and is subsidized through charges billed to patients utilizing these services. This department is established separate from the Fire Department to properly record the costs associated with its operation.

SERVICES

The Ambulance Department provides twenty-four hour emergency medical care and transportation services, manned by State certified Emergency Medical Technicians (EMT-1s). This department has two fully certified Basic Life Support (BLS) ambulances and a reserve ambulance for back-up duty (soon to be qualified as BLS, also).

PERSONNEL

Three full-time permanent EMT-1 or EMT-2s are supplied from the Fire Department personnel to complete the required crews necessary for response on all emergency medical and transportation calls (in addition to three provided within this department to maintain two (2) personnel per 24 hour shift).

HIGHLIGHTS

There are nine (9) personnel certified as EMT-2s in addition to EMT-1s, serving our community with improved medical care. We now have an EMS Officer (Assistant Chief/Training Officer) certified as an EMT-3 to further improve our services.

The LUKAS Rescue Tool will now be carried on Ambulance #4, providing more efficient service.

DEPT: Ambulance

CODE	ITEM	EXPLANATION
62373	Gas, Oil, Etc.	Increased costs in gas usage, more responses.
62414	Meals out of town transf.	Increased meals due to additional calls.
65813	Communications Equipment	Portable radio unit for reserve ambulance. Recording tapes trade-in reserve for Communication Center.
65880	Major Repairs & Replacements	Bag-valve mask units and parts. Portable suction unit. Pediactics Mast (Mast III A.T.). Portable flow meters. Vacuum splint kits.
	**(EMT-2D Program)	**Training and Equipment needed to start program and continue education for the year (this would allow defibrillation in the field providing better medical care for heart stoppage patients).

COMMENTARY

DEPT: Communications CODE: 048

FINANCE SOURCE

The Communication Department's operating budget is derived from the General Fund.

SERVICES

The Communication Department is responsible for dispatching all City of The Dalles Police, Fire, and Ambulance equipment. The Communication Department also dispatches units for the Wasco County Sheriff's Department, Sherman County Sheriff's Department, Wasco Rural Fire Protection District, and Public Works Department.

The Communication Department serves as an answering service for the City of The Dalles Street, Water, and Sewer Departments as well as off duty city personnel.

The Communication Department operates the State Law Enforcement Data System computer for ten (10) criminal justice agencies in the area as well as an in-house computer system.

The Communication Department assists citizens of both the City of The Dalles and Wasco County areas with information as well as directing them to appropriate departments or agencies as well as answering questions about a variety of subjects.

The Communication Department operates the 911 emergency phone system that serves not only the citizens of the City of The Dalles but also residents of Wasco County as far away as Browns Creek and Friend.

PERSONNEL

The Communication Department personnel consists of five (5) full-time operators and one (1) part-time operator.

We are able to give our citizens fast, efficient service with a limited number of personnel.

HIGHLIGHTS

The City of The Dalles and other agencies of Wasco County are studying the possibility of merging the Communication Departments of those agencies in order to provide the citizens of Wasco County better service.

COMMENTARY

DEPT: Library

CODE: 049

FINANCE SOURCE

The City of The Dalles-Wasco County Library is a tax supported department of the City which is operated by the City with the County paying 50% of the operating costs. Such a joint venture enables this department to serve all Wasco County residents. The City owns the building and property. The Library receives \$6,000 in library materials which are purchased by Treaty Oak Community College Service District to support its curriculum and placed in the public library collection. In addition, Treaty Oak is contributing \$3,000 towards the salary of the Resource Librarian. The remainder of the Resource Librarian's salary, minus \$3,000 paid by the Library, is paid for by a \$24,668 LSCA (Library Services and Construction Act) grant.

PERSONNEL

The Library has a full-time staff of 4, which includes the Librarian, Public Services Supervisor, Clerk and Clerk Typist. The Resource Librarian is a full four Clerks and a Custodian.

SERVICES

The function of the Library is to provide a full-service operation for the County's residents and for those residents who pay an annual fee. The Library also serves as the college library for Treaty Oak. Services provided include books, magazines, films, records, cassette tapes, large-print books, books on cassettes, children's story hours, children's film programs, reference assistance, art exhibits, interlibrary loan services, outreach services, a public meeting room, instructional tours for classes and community groups, and special displays.

HIGHLIGHTS

Funding for the Assistant Librarian position is not included in the 1985-86 budget. A supervisory position (Public Services Supervisor) and part of the Resource Librarian's salary (\$3,000) have been added. A 4th part-time clerical position was added to the Library's budget when the Library extended its hours to include opening on Mondays. The book budget included in this budget is approximately 1/2 of the amount recommended by the Oregon State Library.

COMMENTARY

DEPT: Water Treatment & Supply CODE: 061

FINANCE SOURCE

The revenues to finance this department are obtained from sales of water, interdepartment revenue, installation charges of main and service lines, sale of City owned timber from the Watershed Reserve, and miscellaneous service sales such as bio-laboratory examinations, etc. All revenues are shared with the Water Distribution Division of the Department of Public Works.

SERVICES

The basic and chief responsibilities of the Department are the production of a SAFE and ADEQUATE water supply from the mountain water sources on a consistent basis, to effectively monitor and manage all resource activities of the Watershed Reserve, both Federal and Municipal, and to coordinate these management activities with other agencies involved in the cooperative management venture in The Dalles Municipal Watershed Reserve. It is the responsibility of the Department to conduct quality chemical, physical, and microbiological analyses of these raw and finished water sources and those of the municipal water distribution system to assure compliance with both State and Federal Water Quality Standards in providing for Public Health. Coordination and cooperation in the affairs of water production is essential with the Water Distribution System to effect management control, efficiency, and economy in water service operations.

PERSONNEL

There are three divisions functioning within the Department and present staff consists of the following positions:

DIVISION OF WATER TREATMENT	DIVISION OF BIO-LABORATORIES					
Water Quality Control Supervisor - 2/3 Certified Treatment Operator - 3-1/2	Water Quality Control Supervisor - 1/3 Staff Microbiologist - 1					
DIVISION OF WATERSHED MANAGEMENT	DEPT OF WATER SUPPLY & TREATMENT					
Asst. Department Director - 1 Certified Utility Operator - 1	(Composite of Three Divisions) Department Director - 1					

In addition to the above staff positions, the Department employs a full-time part-time secretary, and necessary part-time/temporary staff to assist in maintenance activities in Watershed & Treatment Plant operations. The Department shares the services of a full-time operator with the Water Distribution System such that this person functions 6 months of a given year at each location. The Department is in charge of managing the affairs of timber resources and the contract terms that apply to Pacific Forest Consultants as our timber resource consultants.

HIGHLIGHTS

This budget will provide for the continued and consistent water production from Wicks Treatment Plant, enhance resource activity management of the Watershed Reserve, and support Water Quality Control as monitored by the Bio-Laboratories Division.

In new requirements in treatment process control and water quality control the Department will be providing for continuous application of corrosion corrective chemicals that will provide for reduction of the economy investment loss through loss of main transmissions and in-residence plumbing. The mountain source is naturally corrosive and the treatment processes contribute to this negative factor. Corrosion indexes are controlled by regulatory mandates and in this consideration we must apply corrective measures.

Use of polymers such as we apply in our treatment processes have been found to have a very significant personal safety risk in handling. Recent toxicity studies have presented real evidence that dust particulate from polymers using or associated with acrylamide monomer in an unreacted state has oncogenicity toxicity potentials. It is absolutely necessary that safe means of protection from exposure be provided in polymer use and to keep the material from being airborne. Protective measures have been instituted at Wicks Plant, however, it is essential that we remove this chemical equipment out of the plant control room as the residual of polymer unfixed is not only in the air but found on every piece of equipment and laboratory ware we have. Removal is the only resolve. This budget provides for the construction of a room to the existing alum storage room to house both the polymer feed-mix equipment and the calcium hydroxide feeder so that no dangers are posed to operations staff or to operations equipment from chemical residuals of either chemical. The building addition will have dimensions of 18' x 26' and of concrete block construction.

This budget provides for the continued necessary transportation system construction and maintenance within the Watershed Reserve to function for administrative use and removal of timber products. This budget specifically addresses installation of necessary tubing and construction of a road access across the existing spillway of Crow Creek Dam. This construction will complete the intertie of the new access constructed on the opposite end of Crow Creek Dam in the FY 84-85 budget. The budget also provides for survey of property lines necessary to timber harvest activities to prevent encroachment.

This budget will provide for the addition of a new 4×4 , 3/4 ton pickup unit for Watershed Maintenance, patrol and administration activities. The Department intends to convert the existing 3/4 ton 1976 Ford pickup to a fire pumper unit for use in maintenance and brush disposal activities in the Reserve.

Zero based budget methods were used in the preparation of this budget and our previous experiences in this method has eliminated 'contingency fat' in line items of prior years.

TOTAL RAW WATER SOURCE TREATED AT WICKS TREATMENT PLANT IN FY 1983-84: 1,675,550,000 Gallons

TOTAL FINISHED WATER DELIVERED TO THE CITY FROM WICKS PLANT IN FY 1983-84: 1,534,962,000 Gallons

DEPT: Water Treatment & Supply

CODE: 061

CODE	ITEM	EXPLANATION
321	Chemical & Laboratory Supplies	Treatment chemicals, laboratory reagents, instruments, glassware, culture supplies, report forms.
423	Otilities	Electrical energy use for the Treatment Plant, Wicks Well, and Security lighting. Garbage Disposal & rental.
511	Watershed Patrol Services	Provide fire patrol as mandated by the State of Oregon and Air Security Patrol for Reserve Enforcement.
803	Improvements & Additions to Buildings - New Construction	Watershed Buildings Maintenance, Paint maintenance for Wicks Plant and Reservoirs, addition to Wicks Plant for Lime-Polymer Feed Applications.
823	Purchase New Trucks & Pickups	New 3/4 ton, 4 x 4 pickup for Watershed Maintenance & Patrol.
846	Timber Management & Reforestation	Timber reconaissance supplies, mapping, survey instruments, seedlings, permits, timber haul fees, soils stabilization, public relations brochures, survey fees.

Further detail may be reviewed ofline code descriptions by referencing line item narrative for FY budget 1985-86 for the Department of Water Supply and Treatment submitted separately to the Budget Committee.

COMMENTARY

DEPT: Water Distribution

CODE: 062

FINANCE SOURCE

Water Distribution primary revenues for 1985/86 will consist of the monthly water use charges and watershed timber receipts. Other revenues are water main extensions, service renewals/new services, and interdepartment use of men and equipment.

PERSONNEL

- (1/3) Director of Public Works/ City Engineer
- (1/3) Assistant City Engineer
- (1/3) Account Clerk

- (1) Department Supervisor
- (1) Service Specialist
- (3) Equipment Operator II/Certified
- (1) Equipment Operator II

SERVICES

The responsibility of the Water Department includes providing a constant, safe water supply in sufficient quantity at peak demands for the consumer, plus ample supply for fire protection. The basic source of the City water is the City Watershed and the storage accumulated behind Crow Creek Dam. The City supplements from four main wells: Marks Well, Jordan Street, Mill Creek Wells, and Lone Pine Well.

HIGHLIGHTS

All portions of the 1980 3.5 million dollar bond issue are complete and in service. Two new pressure regulating valves have been installed on the Garrison Street reservoir feed system. Responses to demand in the largest service area will be better meet then with the old 14th-16th Street reservoir system.

The systems analysis has been postponed to 1985-86, due to the completion of the Carrison Street reservoir.

COMMENTARY

DEPT: Wastewater Treatment

CODE: 063

FINANCE SOURCE

Wastewater Treatment revenues for 1985/86 will consist of the monthly sewer use charge, miscellaneous sales and services, and proceeds from the U.S. Army Corp of Engineers settlement due to increased effluent pumping, caused by Bonneville Pool fluctuations.

PERSONNEL

(1) Plant Supervisor

(1) Lab Assistant

(1) Lab Technician

(2) Plant Operator

SERVICES

The responsibility of the Department is to operate and maintain the Wastewater Treatment Plant in an efficient and economical manner and in compliance with the Federal and State laws and regulations as prescribed by the NPDES discharge permit. This budget was prepared assuming the following influent parameters.

Average daily flow - 2.6 MGD Average total suspended solids - 160 mg/liter Average total BOD - 200 mg/liter

HIGHLIGHTS

This year, the wastewater treatment facility budget has been separated from the wastewater collection budget.

Personnel at the treatment facility have been reduced by two from 1985-85.

The wastewater plant engineering evaluation scheduled for 1984-85 has been postponed until 1985-86. This evaluation will identify present cost saving procedures which might be implemented as well as allow the City to predict future plant expansion costs and requirements should the current plant design loadings be exceeded either through future population or industry growth.

COMMENTARY

DEPT: Wastewater Collection

CODE: 067

FINANCE SOURCE

Wastewater collection primary revenues for 1985-86 will consist of the monthly sewer use charge. Other revenues are inter-department use of men and equipment and to a minor degree main extension charges.

PERSONNEL

(1/3) Director of Public Works/ City Engineer (1/3) Assistant City Engineer

(1/3) Account Clerk

(1/2) Assistant Director of Public Works

(2) Equipment Operator III

SERVICES

The responsibility of the department is to operate, maintain, and expand the collection system in an efficient and economical manner and in compliance with federal and state laws and regulations as established by the Department of Environmental Quality.

HIGHLIGHTS

This year, the wastewater collection budget has been separated from the wastewater treatment facility budget. All administrative and overhead costs have been included in the wastewater collection portion of the budget.

A new sanitary sewer main will be installed on Old Dufur Road out to Morton Street. A long needed expansion.

A storm sewer separation project is scheduled in the downtown area.

The department will continue to develop a collection system maintenance program using T.V. inspections and grouting to reduce infiltration of groundwater and formulate a program for scheduled main up-grading and replacement as funds are available.

COMMENTARY

DEPT: Street & Storm Sewer

CODE: 064

FINANCE SOURCE

The Street and Storm Sewer Departments prime revenue for 1985-86 consist of the City's local share of the State gasoline tax, the local one-cent per gallon gas tax, and federal revenue sharing*. Other revenue sources not predictable are interdepartment use of men and equipment and receipts from local street improvement projects where public works personnel and equipment are utilized to perform the construction.

*At this writing it appears federal revenue sharing will be discontinued after 1986.

PERSONNEL

(1/3) Director of Public Works/	(1/3) Account Clerk
City Engineer	(1) Equipment Maintenance Foreman
(1/2) Assistant Director of Public Works	(1) Equipment Operator II
(1/3) Assistant City Engineer	(4) Equipment Operator II

SERVICES

Responsibilities of this department include street and storm sewer maintenance, street painting, construction and reconstruction of streets and sewers, support staff for other departments or agencies, for fire control or emergency flood work and winter street maintenance, i.e. sanding and plowing.

HIGHLIGHTS

Widening work began on Brewery Grade in 1984-85. Another phase of this project will be accomplished in 1985-86.

Preparations are being made for the replacement of the West 9th Street and West 6th Street bridges over the next few years.

Some major street rehabilitation will be accomplished in 1984-85, however, the outlook for 1985-86 and future years is not good.

CONCERNS

Other funding sources for street maintenance must be secured. Major street and storm sewer rehabilitation projects needing to be accomplished exceed available revenues. Money is not being saved, the costs are only being delayed.

COMMENTARY

DEPT: Airport

CODE: 065

FINANCE SOURCE

The Airport is a self supporting facility with revenues for operation and maintenance derived from building and ground rentals, aviation fuel sales, and any carry over balance. Rental income is generated from several sources: monthly tiedowns and hangar rentals, the Federal Aviation Administration (FAA), Maranatha Aviation, Ltd., Chuck's Air Service, a grazing lease, and a vegetation cutting permit.

PERSONNEL

General operations and airport management are maintained by contract with an airport manager. General finance administration remains with the City Manager.

SERVICES

The Dalles Municipal Airport is operated for the general public and provides an airfield facility for general aviation purposes. Based aircraft are owned by pilots from Wasco, Sherman, and Deschutes Counties in Oregon, and Klickitat and Skamania Counties in Washington.

Aircraft landing facilities are provided free of charge to all aircraft. Fueling is accomplished from ready supplies of three grades of aviation gasoline. Mechanical services are provided by Chuck's Air Service. The Flight Service Station, operated by the FAA, provides up-to-date weather information, check-in for flight plans, and general notices to airmen (NOTAMS).

HIGHLIGHTS

The Airport is currently operating under a new management concept. The City is directly involved in the management of the facility and receives all the revenues and meets all obligations. The program is working quite well, better than anticipated. Revenues are maintaining a steady increase month-to-month as the weather improves.

Efforts will further be directed toward economic development this fiscal year. The preparation work required for this will be funded out of airport revenues.
