Subject to Terms and Conditions On Reverse Side of This Sheet

ACCEPTED: _____ FIRM _____ OFFICER _____ TITLE _____ DATE _____

TERMS AND CONDITIONS OF SALE

1. UNLESS STATED OTHERWISE on the face of this quotation:
 - a. It is subject to acceptance within thirty (30) days from date of bid opening.
 - b. Terms of payment are net cash, due on the 10th of the month following date of shipment.
 - c. See Quotation for F.O.B. Point.
 - d. No excise, sales or use taxes are included.
 - e. Prices include domestic packing for rail or commercial shipment only.
2. All orders are subject to approval by our credit department and final acceptance at our Seattle office.
3. Shipment or delivery dates are the best estimates of our suppliers and are computed from the time of receipt of full approval of drawings, where drawing approval is required.
4. We will not be responsible for failures and delays in making shipment or deliveries caused by labor conditions, raw material shortages, carrier delays, acts of God, fire, the elements, accidents, embargoes, war, insurrection, riot, government regulations, or other causes beyond our control and in no event for consequential damages.
5. When materials are sold f.o.b. shipping point or f.o.b. shipping point freight allowed, our responsibility for loss or damage in transit terminates upon acceptance of material by the carrier. When sold f.o.b. destination, our responsibility for loss or damage terminates upon delivery by the carrier. Upon receipt of shipments, it shall be the purchaser's responsibility to check materials and secure written acknowledgement from delivering carrier for any loss or damage. Claims for shortages, other than loss in transit, must be made to us in writing within five (5) days after receipt of shipment.
6. Any order resulting from this quotation may be cancelled by the purchaser only upon written consent of our office and on terms which will indemnify us against loss.
7. Material may not be returned without our written consent. Standard items normally carried in our stock, returned in a new condition, will be credited less fifteen percent (15%) to cover handling costs. (All returned material must be shipped freight prepaid.) Special items manufactured to order may not be returned without the written consent of the seller and no credit is to be allowed over and above the amount of credit received by Pacific Water Works Supply Co., Inc. from the manufacturer, less freight.
8. If purchaser fails to comply with terms of payment or sale, or if purchaser's financial responsibility becomes impaired or unsatisfactory to us, we reserve the right to forthwith terminate this agreement upon written notice to buyer, and/or to withhold further deliveries on partially filled orders and/or to require payment in advance or satisfactory security or guarantee that invoices will be paid when due. Purchaser agrees to accept and pay for partial shipment. We reserve the right to charge one percent (1%) per month interest on past due accounts. If it becomes necessary to bring suit to recover any amount or enforce any contract, buyer agrees to pay all court costs and a reasonable attorney's fee in connection therewith.
9. Materials covered by this quotation are warranted only under the conditions and to the extent that they are warranted by the manufacturers, whose warranties will be furnished on written request. We will not be liable for any breach of such warranty unless and until we are first given a reasonable opportunity to inspect the material alleged to be defective and the installation and use made thereof. The purchaser for his own protection shall, if he deems necessary, have the merchandise inspected at the point of origin or manufacture. In no event will we be liable for consequential damages.
10. The signed acceptance of this quotation constitutes the Purchaser's acknowledgement that he has verified the listed items, quantities, sizes and dimensions, and any changes or alterations during or after manufacture or fabrication shall be for the account of the Purchaser. Material covered by this quotation represents the take-off of our Engineering Department and is assumed to be correct — however, the items, quantities, sizes and dimensions are not guaranteed.
11. This quotation supersedes all previous promises, agreements or understandings, written or otherwise, and orders placed as a result of this quotation will also be subject to the terms and conditions herein stated. Orders placed and instructions applying to them must be in writing to insure correct handling.

CITY OF NEWBERG, OREGON
BIDS INVITED ON SLUDGE PUMP

The City of Newberg, Oregon is inviting proposals to furnish and deliver one only -- 3 inch sludge pump.

Capacity, in g.p.m.	310
Total dynamic head, in ft.	30
Total dynamic suction lift, in ft.	12
Maximum priming lift, in ft.	17
Design r.p.m.	1,170

The pump shall be of the horizontal self-priming centrifugal type, specifically designed for the handling of raw, unscreened sanitary domestic sewage.

The pump at its rated speed shall be designed to retain adequate liquid in the pump casing to insure UNATTENDED AUTOMATIC REPRIMING in a complete open system without suction or discharge check valves and with a dry suction leg. Upon completion of REPRIMING cycle, the pump shall deliver full rated capacity at rated TDH at the designed total dynamic suction lift.

The openings and passages of the pump shall be large enough to permit the passage of a sphere $2\frac{1}{2}$ inches in diameter and any trash or stringy material which can pass through the average house collection system. The pump must be equipped with a removable cover plate, allowing complete access to pump interior to permit the clearance of stoppages and to provide simple access for service and repairs without disturbing suction or discharge piping.

The pump shall also be fitted with a replaceable wear plate. Replacement of the wear plate, impeller and seal shall be accomplished through the removable cover plate. The entire rotating assembly, which includes bearings, shaft, seal, and impeller, shall be removable as a unit without disturbing pump volute or piping.

The impeller shall be 2-vane, semi-open, non-clog, cast in ductile iron, with integral pump-out vanes on the back shroud, and shall thread onto a pump shaft of high carbon steel.

Means shall be provided for external adjustment of the impeller to the wear plate.

The shaft shall be covered and protected with a removable sleeve. The shaft shall be contained within a bearing pedestal of ample size to contain heavy duty ball thrust bearing and radial bearing of adequate size to withstand all imposed loads. Bearings shall be oil lubricated, with the bearing pedestal cooled by pumped liquid.

The pump shaft shall be sealed against leakage by a balanced mechanical seal. BOTH the stationary sealing member and mated rotating member shall be of Tungsten-Titanium carbide alloy.

The mechanical seal must be warranted for a minimum period of four (4) years from date of shipment. Should the seal fail within the first year, the manufacturer is obligated, upon notification, to furnish a new seal, no charge, to owner, f.o.b. factory. The cost of replacement seals thereafter will be on a pro rata basis.

The pumps shall incorporate molded one-piece tapered suction check valves that can be removed or installed through the removable cover plate opening without disturbing the suction piping.

The pump volute casing shall contain no openings of a lesser diameter than the spere size specified. Screens or any internal devices that create a maintenance nuisance or interfere with priming and performance of the pump WILL NOT BE PERMITTED.

Sealed proposals addressed to the City Administrator, City of Newberg, 414 E. First Street, Newberg, Oregon, 97132, will be received until 2 o'clock P.M. on Tuesday, December 19, 1978 at which time and place will be publicly opened and read.

Prices quoted shall state delivery date and quote F.O.B. Newberg, Oregon. The right is reserved to reject any or all proposals.

City of Newberg
City Hall
414 E. First St
Newberg, Ore 97132

Attention: M. C. Gilbert

Gentlemen:

Subject: PROPOSAL FOR FURNISHING DUCTILE IRON PIPE

We are pleased to quote you on materials set forth below conforming to specifications in our catalog and subject to the terms and conditions as mentioned on the back of this sheet and hereby made a part hereof on this proposal, except as hereinafter modified.

40,000# TRUCKLOAD QUANTITIES:

4"x18'1½"	Class 52, TYTON JOINT, Cement Lined, Ductile Iron Pipe. ANSI Specification A.21.51.	\$3.27 Ft
6"x18'1½"	Ditto	4.34 Ft
8"x18'1½"	Ditto	5.96 Ft
10"x18'1½"	Ditto	7.80 Ft
12"x18'1½"	Ditto	9.87 Ft

Prices are f.o.b. trucks, Newberg, Oregon, based on shipping in minimum 40,000# truckload quantities. Customer to furnish labor and equipment to unload.

Terms: Net cash 30 days. A service charge of 1% per month is made on past due accounts.

Shipment: Approximately eight weeks after receipt of an order.

Yours very truly,
PACIFIC STATES CAST IRON PIPE CO.

H. M. Thomas
H. M. Thomas - District Manager.

(Continued on Sheet No. 2)

TERMS AND CONDITIONS

- 1—Quotations are for immediate acceptance only and subject to change without notice.
- 2—Agreements are contingent upon strikes, fires, accidents, car shortage, or any other causes beyond our control.
- 3—Shipping promises count from receipt at foundry of full manufacturing and shipping details; they are based upon present expectations but are not guaranteed. Material in stock is offered subject to prior sale.
- 4—Delivery is to be made F. O. B. seller's foundry, upon which seller's responsibility ceases.
- 5—Freight charges, when included in the selling price, are to be paid by the buyer. Freight allowance is based on a specific rate to agreed destination and when shipments are forwarded freight collect the amount of freight is to be deducted by us on the face of the invoice. Consignee assumes the risk in paying any additional charges without our consent.
- 6—PAYMENT: Net cash in Provo, Utah, unless otherwise agreed in writing.
- 7—CLAIMS: All claims for corrections or deductions must be made within ten days after receipt of goods.
All material is rigidly tested and inspected at the foundry and is carefully loaded. Seller agrees to replace at agreed point of delivery any material proven defective, or which does not conform to the specifications shown in the order placed in acceptance of this quotation.
The measure of the damage is the price of defective material only. No charge for labor or expense required to repair defective material, or for any consequential damages, will be allowed.
Claims for breakage or loss in transit must be filed with the carrier's agent promptly, as the Inter-State Commerce Commission prohibits carriers from paying loss or damage claims unless such claims are filed with them within four months after delivery date. It is impossible to collect for damaged or lost articles unless you have the original bill of lading and the original receipted freight bill with exception showing the loss or damage and signed by the carrier's agent. In case of damage by the carrier, we will, if desired, make claim on behalf of our customers, provided we are supplied with the necessary data to substantiate the claim.
- 8—When orders have been filled as specified, no goods may be returned, nor will any credit be allowed, unless our consent has first been secured, and all goods returned will, if accepted, be credited less the cost of handling and the freight and cartage expenses incurred.
- 9—All orders submitted to us through our division sales offices, sales agents, or direct to the general office by the buyer, must be subject to the approval of the Vice-President, Treasurer, or General Sales Manager of the Pacific States Cast Iron Pipe Company at Provo, Utah, for final acceptance.
- 10—Unless assented to by the proper official of our company, in writing, no terms or conditions at variance with, or in addition to those indicated herein shall apply to any transaction resulting from this quotation.

AGREEMENT FOR SERVICES IN CONNECTION WITH THE CITY OF NEWBERG RESERVOIR AND
RELEASE FROM ALL CLAIMS AND DAMAGES IN CONNECTION WITH THAT SERVICE.

The City of Newberg and Ward-Henshaw Construction Company Inc. enter into
the following agreement:

1. Ward-Henshaw Construction Co. Inc. does hereby agree to check the
City's reservoir #1 located off Bell Road for the suspected leaks in the
reservoir. Ward-Henshaw Construction Co. Inc. agrees to furnish the service
at a cost of \$50 per hour with the bill to be submitted to the City Admini-
strator with enough detail to adequately describe the various tasks done.

2. That Ward-Henshaw Construction Co. Inc. agrees to hold the City
harmless for any and all damages, injuries or other claims that may arise
from the performance of that service. Furthermore, the Ward-Henshaw Con-
struction Co. agrees to insure for any claims or damages that anyone may
have against the City as a result of their delivery of these services
including any penalty or other cost that may be assessed against the City
of Newberg for violation of any Federal or State regulations together with
any breach of contractual obligations by the City.

Dated this 2 day of Aug, 1978.

Prices are guaranteed for acceptance within thirty days and shipment within sixty days thereafter. FIRM.

Shipment: Approximately five weeks after receipt of an order.

Yours very truly,
PACIFIC STATES CAST IRON PIPE CO.
H. M. Thomas
H. M. Thomas - District Manager

(Continued on Sheet No. 2)

cc: Mr. Ernst Heister

MANUFACTURERS OF CAST IRON PRESSURE PIPE. FITTINGS, GATE VALVES, FIRE HYDRANTS.

STANDARD TERMS AND CONDITIONS OF SALE

TAXES - All Federal, State and Local sales, use, or similar taxes will be for buyer's account.

PAYMENT TERMS - The net amount of invoices shall be due and payable in cash 30 days after invoice date. The material is subject to shipment in whole or in part at the option of the seller and each such shipment is subject to immediate invoicing. If at any time seller deems the financial responsibility of the buyer unsatisfactory, it reserves the right to require payment in advance, or other security or guarantee that invoices will be paid promptly when due. If buyer fails to comply with the terms of payment or with any other terms of sale, seller shall have the right to withhold further deliveries or to cancel the unfilled portion of any order, and all unpaid accounts shall thereupon become due and payable without prejudice to any claims for damages seller may be entitled to make. A service charge of 1 percent per month (12 percent per annum) will be added on any past-due accounts, and if the account is not paid when due, buyer agrees to pay all reasonable costs of collection including a reasonable sum for attorney fees.

SHIPMENT - All risk of loss, damage and other incidence of title and ownership shall pass to the buyer upon delivery to carrier at seller's shipping point, and such delivery shall constitute delivery to purchaser. SHIPPING DATES OR TIME OF ARRIVAL OF SHIPMENT AT DESTINATION WILL NOT BE GUARANTEED BY SELLER. SELLER SHALL NOT BE LIABLE FOR ANY DELAYS OR DEFAULTS IN MAKING SHIPMENT. In event of shipment delay, if the buyer and seller do not mutually agree to cancel the order for the item involved, the shipping date shall be automatically extended to the seller's current estimate.

CLAIMS - Any claims or exceptions by the buyer for defective material must be made in writing within 30 days after buyer's receipt of materials, and buyer shall give seller an opportunity to investigate. IN NO EVENT SHALL SELLER BE LIABLE FOR CONSEQUENTIAL, SPECIAL OR CONTINGENT DAMAGES, OR ANY OTHER CLAIM OR DEMAND WHATSOEVER, EXCEPT TO THE EXTENT OF THE PURCHASE PRICE OF THE PRODUCT, THE REFUND OF WHICH SHALL BE BUYER'S SOLE AND EXCLUSIVE REMEDY HEREUNDER.

Any claim by buyer against seller for shortage or damage must be made within 5 days after receipt of materials and accompanied by original transportation bill, signed by carrier, noting that buyer received material in the condition claimed.

GENERAL - All prices on seller's quotations are for immediate acceptance and are subject to change without notice.

When seller's quotation includes shipping charges, it is understood the method of shipment will be at the seller's option and buyer is responsible for furnishing labor and equipment for unloading within the time limit allowed by the carrier. Orders are not subject to cancellation, return or back charge or change in specifications, shipping schedule or other conditions without the seller's written consent. When orders have been filled as specified, no goods may be returned nor will any credit be allowed unless consent of seller has first been secured, and only standard stock goods returned will, if accepted, be credited less the cost of handling and the freight costs involved. Materials not normally stocked by seller may not be returned for credit.

All quotations and sales shall be subject to seller's standard terms and conditions, and buyer is conclusively presumed to have accepted such terms and conditions unless otherwise agreed in writing.

In the event buyer's purchase order states terms additional to or different from these terms and conditions of sale, then seller's acknowledgement in accordance with the terms herein shall be deemed a notification of objection to such additional or different terms, or in the event such purchase order expressly limits acceptance to its terms, the seller's acknowledgement in accordance with the terms herein shall be deemed a rejection of buyer's offer to purchase, and in either event seller's acknowledgement shall constitute an offer to sell which may be accepted only in accordance with its terms and conditions without modification, addition or alteration. Under those circumstances the failure of buyer to deliver notification of objection to these terms and conditions of sale within a reasonable time shall be deemed an acceptance thereof, and a contract shall be formed only upon such terms and conditions of sale.

This agreement constitutes the sole and entire agreement between buyer and seller, and none of the terms and conditions contained herein may be added to, deleted, modified or altered except by written instrument signed by seller. There are no oral understandings, representations or agreements relative to this agreement which are not fully expressed herein. The laws of the State of Utah shall govern the validity, interpretation and enforcement hereof. All orders are received subject to approval and acceptance by an officer of the Company, and seller reserves the right to reject any orders as well as the right to select its own customers.

Attn: Mr. M. C. Gilbert
City Administrator

Dear Mr. Gilbert:

Pursuant to Mr. Heister's telephone request for pipe prices on July 31, 1979, we are pleased to offer the following.

Prices are firm for 90 days, after which time the following Surcharge will apply.

SURCHARGE

The prices quoted herein are based on the current market price of scrap metal, as defined below. Due to the complete uncertainty of future scrap prices, our prices to you are subject to the following Scrap Surcharge.

For each \$1.00 per ton increase in the Pittsburgh, Philadelphia, Chicago composite price for "Scrap No. 1 Heavy" published weekly in IRON AGE Magazine, our prices herein will be increased \$1.00 per ton.

"Current market price" of "Scrap No. 1 Heavy" is defined as \$95.17 per ton published in the July 30, 1979, issue of IRON AGE. The scrap price published in IRON AGE (in the week that shipment of your order is made) shall determine the amount of Scrap Surcharge to you.

PRICES

Prices quoted are offered for your acceptance with thirty days after date of this letter, except as may be extended by mutual agreement.

The prices are f.o.b. trucks, Newberg, Oregon, where such delivery can be made readily by heavy highway type equipment. Customer to offload in truckload lots. Prices are based on shipping 40,000# truckload quantities, minimum shipments.

a Jim Walter company

SHIPMENT

As now situated, we can begin shipment within six (6) to eight (8) weeks after receipt of order and full information at the shop. This estimate is subject to prior sale of space and receipt of sufficient raw materials to allow fabrication.

All shipment will be made via common carrier and, therefore, WE CANNOT "GUARANTEE" EXACT DELIVERY TIMES.

TERMS

Terms are net thirty days after date of invoice. This proposal and any order resulting therefrom is subject to the approval of our credit department and the stipulations appearing below the dateline of the letterhead. A service charge of $1\frac{1}{2}\%$ per month will be added after due date.

SPECIAL CONDITIONS

Additional cost incurred for services performed by the delivering carrier, and not covered under this quotation shall be paid by the consignee directly to the delivering carrier.

Due to present conditions, we will be unable to accept any returned material into our local stock or our foundries.

SPECIFICATIONS

All material shall conform to the following specifications where applicable:

PIPE: CEM LIN A THK A21.4 (C-104) (ACL&SC) CTD OD
TYTON JOINTS A21.11 (C-111) COMPLETE
DI PIPE A21.51 (C-151)

Dear Sir:

Since the improvement of North Meridian Street from Sierra Vista to Crestview Drive it is writer's opinion that a traffic hazard now exists due to the lack of traffic control signs on this street.

Therefore, by the authority invested in me by City Ordinance providing emergency power to post and regulate traffic, I hereby give notice of intent to make the extension of North Meridian Street from Sierra Vista north to Crestview Drive a through Street and request that stop signs be placed at all intersections with said street including Sierra Vista but excluding Crestview Drive.

Please address any questions or concerns to me as soon as possible.

Very truly yours,

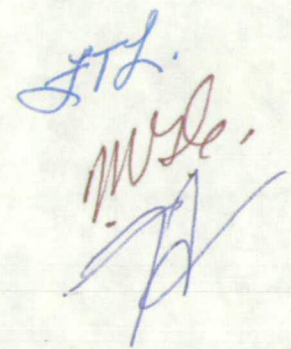

Herbert W. Hawkins

RE: CITY OF NEWBERG - LAW ENFORCEMENT PROFESSIONAL LIABILITY

Dear Mr. Gilbert:

As per our telephone conversation of this date, following is Underwriters proposal on the above captioned.

For \$300,000 single limit, with no deductible, the total annual premium would be \$6,000.75, including tax and policy fees. Using the \$750, 50% Participating Claim Expense Deductible for \$300,000 single limit, the total annual premium would be \$5,185.88, including tax and policy fee.

If the Participating Claim Expense Deductible is provided, this applies to the sharing of the legal and adjusting expenses only, up to the maximum contribution by the insured not to exceed more than \$750 each claim. This does not apply to settlements or judgments which would be borne in full by Underwriters up to the limit of the policy.

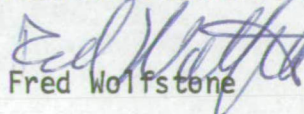

To add the broadform Jail Endorsement which is subject to a \$1,000 Flat Deductible, applying to indemnity or expense on each claim, for \$300,000 single limit with no participating deductible, the additional premium would be, including tax, \$597.58. The additional premium to add the Jail Endorsement (described above) for \$300,000 single limit with the \$750, 50% Participating Claim Expense Deductible, would be including tax \$516.60.

We are enclosing a brief outline of the Jail Endorsement benefits as well as a specimen copy of the endorsement for your review. Also, enclosed is our brochure with application outlining the Law Enforcement Professional Liability program, together with a specimen copy of the policy.

If you have any questions, please do not hesitate to call.

Yours very truly,

BROADFORM JAIL ENDORSEMENT

Coverage for claims arising out of assault and battery of one prisoner upon another has been difficult to obtain, and to fill this gap, Underwriters are offering this additional benefit of protection.

The Jail Endorsement provides protection to the named insured as respects their legal liability 'for assault and battery of one prisoner upon another only while occurring in the named insured's jail facility.' This endorsement is not intended to provide medical expense benefits to the prisoners.

The Jail Endorsement is subject to a Flat \$1,000 Deductible for each claim as respects indemnity or expense.

In light of the vigorous suits that have in recent years been instituted against law enforcement agencies, we believe this additional coverage should be provided.

ENDORSEMENT NO. _____

Assault and/or battery inclusive of wrongful death sustained by any person, but only when such act or acts are committed by a named insured during the searching, detaining or arresting of or during the attempt to search, detain or arrest any person, or during the pursuit of any person for the purpose of attempting to search, detain or arrest and liability of the named insured for assault and battery of one prisoner upon another only while occurring in the named insured's jail facility.

Subject to a flat \$1,000 Deductible each claim for indemnity and expense.

SAMPLE COPY

This Endorsement becomes effective at _____ M. _____ 19____

Nothing herein contained shall be held to vary, alter, waive or extend any of the terms and conditions of said Certificate other than as above stated.

This Endorsement is hereby made a part of Certificate No. _____

Issued to: _____

Evidencing that insurance as specified therein has been procured from the Insurer(s) therein stipulated.

HANSEN & ROWLAND, INC.

BY _____

LAW ENFORCEMENT OFFICERS PROFESSIONAL LIABILITY INSURANCE

NAMED INSURED:

The City/County/Town of _____ including its
Law Enforcement Officers and Employees.

1. Subject to the terms, conditions and limitations hereinafter mentioned, Underwriters will pay on behalf of the Named Insured all sums which the Named Insured shall become legally obligated to pay as damages because of negligent and/or wrongful acts, errors or omissions occurring during the policy period, pertaining to the following perils:
 - A. False Arrest, including unlawful detention, false imprisonment and malicious prosecution arising from such false arrest.
 - B. Assault and/or Battery inclusive of wrongful death sustained by any person, but only when such act or acts are committed by a Named Insured during the searching, detaining or arresting of, or during the attempt to search, detain or arrest any person, or during the pursuit of any person for the purpose of attempting to search, detain or arrest.
 - C. Libel, slander, defamation, violation of right of privacy or discrimination.
 - D. Wrongful entry, wrongful eviction or other invasion of rights of private occupancy with respect to real estate or other premises.

Including civil actions, criminal actions or actions brought under the Federal Civil Rights Law all limited to the provisions of 1A, 1B, 1C and 1D above, committed or alleged to have been committed by the Named Insured during the policy period.

2. It is understood and agreed that coverage afforded hereunder applies only with respect to the activities of the Police and/or Sheriff's Department.
3. Underwriters also agree to pay on behalf of the Named Insured any costs (which expression shall mean all investigation, adjustment and legal expenses) incurred by Underwriters on the Named Insured's behalf in the investigation, adjustment and defense of any claims, suits, or proceedings which may be brought against the Named Insured within the coverage of this policy or any incident which may give rise to any such claims, suits or proceedings involving the Named Insured including but not limited to representation at any inquest, criminal proceedings against a Named Insured or any similar hearings or proceedings involving a Named Insured as respects the perils set forth in 1A, 1B, 1C and 1D of the policy, even if such claims, suits or proceedings are groundless, false or fraudulent. In addition thereto, Underwriters agree to pay reasonable expenses (because of his attendance at hearings or trials) incurred by the Named Insured at Underwriters' request, including actual loss of wages (but no loss of other income) not to exceed \$25.00 per day.

The amounts so incurred under this Section 3 are payable in addition to the applicable limit of liability of this policy.

4. It is understood and agreed in consideration of the additional premium charged, that secondary outside employment (moonlighting) of a law enforcement nature by the officers of the Police and/or Sheriff's Department is included subject to the

perils insured and subject to the limitations of the policy, provided always that such moonlighting be declared at the inception of the Certificate.

5. LIMITS OF LIABILITY:

Underwriters' limit of liability under this policy exclusive of costs shall in no event exceed the following:

- (a) \$300,000.00 in respect of any one event,
- (b) \$300,000.00 in respect of all events occurring during the policy period.

The aforesaid limits of liability shall be applicable regardless of the number of persons or entities against whom a claim is made and regardless of the number of Named Insureds in any claim or suit.

"One event" as used in Section 5(a) immediately hereinabove is agreed to mean any single occurrence or combination of occurrences, in series or otherwise, relating to any one or more acts, errors or omissions comprising one or more of the insured perils committed by the Named Insured, arising from any one investigation, arrest and/or incarceration, all such acts, errors or omissions arising from any one investigation, arrest or incarceration being agreed to constitute "one event."

This coverage shall apply only to an event or combination of events occurring within the policy period as defined in this insurance policy.

In the event that any claim is made or suit is brought which asserts a series or combination of acts, errors or omissions which fall within more than one policy period as defined in this insurance, then the liability of Underwriters, with respect to such series or combination constituting "one event," as hereinabove defined, shall not exceed that limit of liability contained in any one policy for any one policy period.

6. PRO RATA COSTS CLAUSE:

If a payment for loss in excess of the limits of liability available under this policy is made, the Underwriters' liability for the costs and expenses incurred with their consent shall be such proportion thereof as the limits of liability available under this policy bears to the total amount paid for such loss.

7. The premium payable hereon is the minimum premium and shall be subject to an annual adjustment at the following rates:

- \$ _____ per full or part-time officer,
- \$ _____ per reserve and auxiliary officer/public officials,
- \$ _____ moonlighting.

It is agreed that the Named Insured shall report the highest number of officers in any one day during each of the twelve months for the annual premium computation. If the earned premium thus computed is greater than the minimum and deposit premium paid, the Named Insured shall immediately pay such additional amount to Underwriters.

8. Acts committed or alleged to have been committed by any person with the power of arrest or by any other person as may be specifically endorsed hereon employed by

the Named Insured in or about the conduct of operations by or on behalf of the Named Insured, shall be deemed to have been committed by the Named Insured.

9. POLICY PERIOD:

The term "Policy Period" wherever used herein shall mean the period commencing at 12:01 A.M. (Standard Time at the location of the Named Insured) on the _____ day of _____, 19____ and expiring at 12:01 A.M. (Standard Time at the location of the Named Insured) on the _____ day of _____, 19____.

10. EXCLUSIONS: This policy does not apply to:

- A. Liability assumed by the Named Insured under any written contract, or agreement unless Underwriters have given their written consent thereto, but this does not apply to the reciprocal aid agreements as respects the response activities of the Named Insured.
- B. Claims or suits made or brought against the Named Insured by any officers, directors, or commissioned employees of the Police and/or Sheriff's Department.
- C. An obligation of which the Named Insured or any insurance carrier as his Insurer may be held liable under any Worker's Compensation, Unemployment Compensation or Disability Benefits Law, or under any similar law.
- D. Bodily injury sustained by any person as a result of conduct directly or indirectly related to the employment of such person by the Named Insured.
- E. Claims or awards for punitive or exemplary damages inclusive of statutory penalties for grievous, fraudulent or similar conduct.
- F. Claims for bodily injury arising from the ownership, operation, management and/or control of any vehicle, watercraft or aircraft.

11. SUBROGATION CLAUSE:

In the event of a criminal conviction in the initial proceeding, the Named Insured shall be entitled to an appeal under this policy to the next higher tribunal at the expense of Underwriters subject to the limitation provided herein:

In the event of a criminal action defended in accordance with the provisions herein at the expense of Underwriters, which shall result in the conviction of a Named Insured, Underwriters shall be entitled to reimbursement from the Named Insured who was so convicted for any investigation, cost or expense incurred by Underwriters.

12. CONDITIONS:

- A. In the event of a claim occurring likely to involve Underwriters, the Named Insured will not make any payment, assume any liability or incur any expense without the consent of Underwriters being first obtained. Underwriters shall be entitled if they so desire to conduct in the name of the Named Insured the defense of any matters relating to the coverages afforded by this insurance. Underwriters shall have full discretion in the handling of any claim, and the Named Insured shall give all information and assistance as Underwriters may reasonably require without cost.

- B. In the event there is other valid and collectible insurance applicable to a loss hereunder, this insurance shall be excess insurance over such other valid and collectible insurance available to the Named Insured.
- C. The Named Insured shall use due diligence and do and concur in doing all things reasonably practicable to avoid the happening of any peril insured against.
- D. The insolvency or bankruptcy of the Named Insured shall not release Underwriters from any of their obligations assumed hereunder. In case execution against the Named Insured on any final judgment covered by this insurance shall be returned "unsatisfied" by reason of such insolvency or bankruptcy, then an action may be maintained by the claimant or his or her personal representative against Underwriters on this policy in the same manner and to the same extent as the Named Insured but not in excess of the limits of liability expressed herein.
- E. This policy may be cancelled on the customary short rate basis by the Named Insured at any time by written notice or surrender of this policy. In the event of such cancellation, however, a premium of no less than \$1,000.00 shall be retained by Underwriters.

This policy may also be cancelled, with or without the return or tender of the unearned premium by Underwriters by delivering to the Named Insured, or by sending to the Named Insured by mail, registered or unregistered, at the Named Insured's address shown herein not less than thirty (30) days written notice stating when the cancellation shall be effective, and in such case Underwriters shall refund the paid premium less the earned portion thereof on demand, subject always to the retention by Underwriters hereon of any minimum premium stipulation herein (or proportion thereof previously agreed upon) in the event of cancellation by Underwriters. The mailing of notice as aforesaid shall be sufficient proof of notice.

- F. The Named Insured upon knowledge of any event likely to give rise to a claim hereunder shall give immediate advice thereof to Underwriters through:

RE: CITY OF NEWBERG - LAW ENFORCEMENT PROFESSIONAL LIABILITY QUOTATION

Dear Mr. Gilbert:

Following our telephone conversation and letter of quotation of 8/7/79, I thought that I should again mention that I believe if you compare our policy benefits to the other specimen policies that have been submitted to the City, you will note several differences.

Most other Law Enforcement policies do not cover the broad benefits offered by Underwriters. Specifically, I don't believe you will find in many of the other policies the Federal Civil Rights benefit of protection being offered, together with the criminal defense for the individual law officer as respects the perils insured being provided.

Additionally, I don't believe the inquest representation or the discrimination benefit, together with the Broadform Jail Endorsement for assault and battery between prisoners whereby the insured may become involved in an allegation of negligence arising out of the jail operation, as being included in these other programs.

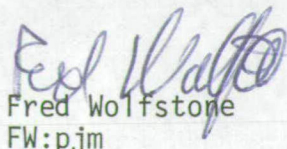

There are several other areas which I could mention, and I do hope that this will be taken into consideration as respects the broadform contract we offer in our quotation.

If there is a possibility that we could compare our benefits to the other submitted quotes; and then provide a report to you of our findings in that comparison, we will be very happy to assist.

Thanking you in advance, I remain,

Respectfully yours,

WOLFSTONE.DONLEY.McMANNAMA, INC.

Re: General Liability Insurance Quotation

Dear Mr. Gilbert:

We are pleased to present the following proposal for the City of Newberg, Oregon for general liability. I believe it to be an excellent quote and will hopefully be accepted.

Due to the time factor I was unable to obtain a quotation on automobile liability, health services (not enough information on this) and police professional liability. The Errors & Omissions can be negotiated if the general liability is accepted.

Proposal as follows:

COMPREHENSIVE GENERAL LIABILITY	\$32,509.00
---------------------------------	-------------

INCLUDES:

- 1.) General liability for all departments
- 2.) O.L. & T.
- 3.) Owners & Contrators' Protective
- 4.) Products
- 5.) Personal Injury
- 6.) Contractual Liability
- 7.) Broad Form Property Damage.

The company quoting is Mead Reinsurance.

I thank you for the opportunity to submitt a proposal.

Sincerely,

Vincent W. Pisani

AMERICAN STATES INSURANCE COMPANY
INDIANAPOLIS, INDIANA

BID OR PROPOSAL BOND

Know all Men by these Presents,

That we, A. C. HAAG & COMPANY, INC.

of Salem, OR (hereinafter called the Principal),
as Principal, and AMERICAN STATES INSURANCE COMPANY (hereinafter called the
Surety), as Surety, are held and firmly bound unto THE CITY OF NEWBERG, OR

(hereinafter called the Obligee) in the penal sum of TEN PERCENT OF TOTAL AMOUNT
BID - - - - - Dollars (\$ -10%-) for the payment of which the Principal
and the Surety bind themselves, their heirs, executors, administrators, successors and assigns, jointly
and severally, firmly by these presents.

SIGNED and SEALED this 14th day of August 19 79.

THE CONDITION OF THIS OBLIGATION IS SUCH, That, whereas the Principal
has submitted or is about to submit a proposal to the Obligee on a contract for furnishing
Diesel Tractor w/loader/backhoe.

NOW, THEREFORE, if the said contract be timely awarded to the Principal and the Princi-
pal shall, within such time as may be specified, enter into the contract in writing, and give bond, if
bond be required, with surety acceptable to the Obligee for the faithful performance of the said con-
tract, then this obligation shall be void; otherwise to remain in full force and effect.

A. C. HAAG COMPANY, INC.

CALL FOR BIDS
TRACTOR-LOADER/BACKHOE

Sealed bids will be received at the office of the City Administrator City of Newberg, 414 E. First Street, Newberg, Oregon 97132, until but no later than 2:00 P.M., August 14, 1979 for furnishing a Diesel Tractor with loader/backhoe, at which time they will be publicly opened and read.

Specifications may be obtained from the office of the City Administrator 414 E. First St., Newberg, Oregon 97132.

Attention is called to all provisions of the Oregon Revised Statutes Chapter 279, Public Contracts and Purchasing and City of Newberg Ordinance #1793, Contract Purchasing Procedures.

No proposal will be considered unless accompanied by a bid proposal deposit in the form of cashier's check, money order or surety bond, for a sum not less than ten percent (10%) of the amount of the bid. Checks and money will be returned to all unsuccessful bidders upon completion of the award or rejection of the bid.

The City reserves the right to reject any or all bids. No bidder may withdraw his bid after the hour set for the opening thereof, or before award of the bid, unless said award is delayed for a period exceeding thirty days.

M.C. GILBERT
City Administrator
City of Newberg, Oregon

CITY OF NEWBERG, OREGON
414 E. First Street
Newberg, Oregon 97132

Revised 7/24/79
(back page & year
of trade-in)

BID SPECIFICATIONS
FOR THE PURCHASE OF
TRACTOR-LOADER-BACKHOE

SCOPE:

This specification describes a tractor which is self-propelled, diesel engine driven, pneumatic tired, one-man controlled performing such maintenance and betterment work within the City of Newberg.

APPLICABLE STANDARDS AND SPECIFICATIONS:

Reference is made to the Society of Automotive Engineers (SAE) standards and practices.

Reference is made to the Tire and Rim Association (T&TRA)

The Oregon Revised Statutes and Motor Vehicles Codes are applicable to this unit of equipment.

GENERAL REQUIREMENTS:

Silence of Specification. The apparent silence of this specification and supplemental specifications as to any detail, or the apparent omission from it of a detailed description concerning any point, shall be regarded as meaning that only best commercial practice is to prevail and that only materials and workmanship of first quality are to be used. All interpretations of this specification shall be made upon the basis of this statement.

Adherence to specification. Any and all deviations to any of the below requirements shall be stated on the returned bid.

Unless so stated by the bidder, the City of Newberg shall assume that the requirements have been met and shall hold the bidder to each and every part of the specification.

Units shall be new current models of standard production, and shall be completely prepared for customer delivery through service by a factory-franchised dealer prior to delivery.

All units offered against this specification shall be of identical body style, quality, and appointments as those offered to the trade in general during the course of the model year.

All accessories as listed herein shall be identical to those regularly supplied to the dealer by the original equipment manufacturer, and shall be of the identical quality and design as those normally installed on vehicles for sale through normal commercial channels.

The equipment shall be delivered to the City of Newberg Oregon, complete with required number of invoices. Vehicle shall be delivered with separate invoices, registration warranty paper, pre-delivery inspection sheet, and owner's manual. In any case where a vehicle is delivered minus any part, item, or accessory issued as standard manufacturer's equipment and/or as specified by the State, the vendor will be immediately notified. If the missing part, item, or accessory cannot be provided and installed within 72 hours, the City reserves the right to buy the item or part from another source and bill the vendor for the cost including installation.

All specifications are minimal.

DETAILED REQUIREMENTS:

TYPE: The unit as specified (tractor-loader-backhoe) shall be designed and built so that all elements will work together as a unit and fully and completely built at the factory. If the entire unit is not manufactured

by one company, the individual manufacturer of the element must certify their equipment was designed to work as a unit with the rest of the equipment.

WEIGHT: The total weight of the tractor-loader-backhoe shall be as listed in the specification given for the machine. The weight shall not include auxiliary weight of any kind.

Total weight not to exceed 13,000 lbs.

TRACTOR UNIT

FRAME

A heavy-duty box or channel iron frame shall be provided and so designed as to be an integral part of the tractor. This frame shall be so constructed as to provide adequate strength in all parts to withstand all stress which will be applied to same in all types of work for which the machine is designed.

ENGINE

The Four-cylinder engine shall be of a standard make, water cooled diesel type equipped with complete heavy-duty starting system. The engine shall have a minimum of 55 SAE horsepower at 2100 RPM. The engine shall be equipped with a suitable governor, heavy-duty replaceable cartridge type oil filter and air cleaners, muffler, exhaust pipe, weather cover and replaceable wet sleeves.

AXLES

The front axle shall have a minimum 44,000 pounds dynamic rating. The rear axle dynamic rating minimum shall be 54,000 pounds and shall have differential lock.

POWER TRAIN

The power train shall be componentized, enabling service or removal of major components without splitting tractor with a power shuttle, four speeds forward and a torque converter.

TIRES

Front tires shall be 11L x 16 - 10-ply R1 rating flotation tires with loader treads mounted on them. Rear tires shall be 16.9 x 24-6 ply R4.

HYDRAULIC SYSTEM

The hydraulic system shall be of a heavy-duty constant-flow type, and be so designed to permit the operator to operate two or more hydraulic controls at one time without any appreciable decrease of pressure in the system. All necessary relief valves and replaceable type cartridge oil filter shall be built into the system with the latter easily accessible. Heavy-duty wire braid hose and seamless tubing shall be used throughout. The hydraulic pump capacity shall be specified, as well as the reservoir capacity.

CONTROLS

All controls shall be completely hydraulically-power operated and be actuated by control levers located in front of, and within easy reach of the operator. The system, as provided, shall permit the operator to have full and complete control of the tractor, the loader, and the backhoe at all times.

STEERING

Steering shall be by hydraulic power independent of main tractor hydraulics, with steering wheel control. The steering system shall permit the driver to completely and accurately guide and control the unit at all times.

BRAKES

Hydraulic brakes shall be provided of a size and capacity to control the complete unit as specified under any operating conditions. The brakes shall be individual or simultaneous foot-actuated, hydraulic self-adjusting band and disc power assist with over-center type parking brake.

MISCELLANEOUS

- 1) Adjustable operators seat.
- 2) Engine oil pressure gauge, ameter, water temperature gauge, key switch, electric starter, air cleaner, fuel gauge, hour meter, foot throttle, front lights for travel, dual combination stop and fail lights, turn signals with emergency flasher, two front and two rear working lights not to be used for travel.
- 3) The dual headlights and dual combination stop and tail lights shall be connected to one switch. Each pair of operating lights, both front and rear, shall be connected to a separate switch. All switches shall be mounted on the dash board.
- 4) Electric Horn
- 5) Anit-vandalism on instrument panel, or double unbreakable face
- 6) Must meet all OSHA safety specifications
- 7) Back-up alarm
- 8) Seat belt; engine side panel shields; lock-up kit for fuel, radiator, and engine oil.
- 9) Slow moving vehicle sign installed.

FRONT MOUNTED LOADER BUCKET

A heavy-duty front mounted 1 cubic yard struck capacity loader bucket shall be provided. This bucket shall be operated by hydraulic cylinders and arms which shall be directly connected to the main integral frame of the tractor unit. Lifting capacity and breakaway capacity shall be specified. The overall width of the loader bucket shall be 82 inches or not less than the overall width of the tires. Lifting height shall be specified as well as minimum bucket clearance in full dump position. All cylinders shall be double acting with single lever controls. They hydraulic system shall be positive displacement gear type pump or variable 5-speed piston type pump with a capacity of 26 GPM at 2100 RPM. Relief pressure shall be 2000 min. Psi.

BACKHOE UNIT

A heavy-duty, fully hydraulic-operated backhoe shall be provided and be directly connected to the main integral frame of the tractor, the boom and dipper stick shall be constructed of boxed steel sections, fully enclosed, with all pivot points fully and adequately reinforced for maximum strength. Pins and bushings shall be used at all pivot points. The backhoe shall be capable of a digging depth of at least 14 feet, SAE rated, and a continuous swing of at least 180 degrees. It shall be built to accommodate buckets from 12 inches to 36 inches in width. The backhoe shall be able to be carried in an over-center position.

All backhoe controls shall be set up for control within easy reach of the operator.

Two stabilizers with a minimum nine-foot (9') spread shall be provided with individual hydraulic controls. The stabilizer foot pads shall be constructed of heavy-duty rubber street pads and so designed to give maximum footing without leaving unnecessary impressions in surfaces where used. The Stabilizers shall be retractable from a dull open position to a full closed position, where no part extends beyond the outside extremity of the tires without removing any pins, etc. Trenching buckets equipped with replaceable cutting edges and quick replaceable tooth points shall be provided.

The bucket cylinder shall have a minimum heavy-duty SAE 9700 pound digging force. The dipper cylinder shall have an SAE 5500 pound digging force.

The backhoe bucket is 12" x 24" is to be provided.

A heavy-duty pin locking device shall be provided on the boom and swing to lock the backhoe into a set position when not in use or traveling. All hydraulic hose couplings, as well as the backhoe unit, shall be the quick connection type.

In addition to the before-mentioned hydraulic controls for the backhoe, there shall also be provided a hand-operated throttle control within easy reach of the backhoe operators position.

SERVICE AND PARTS

Manuals.

Each unit shall have an Operators Manual.

One (1) each: Operator's Manual, Serviceman's Manual, and Parts Catalogs for all the Tractor-Loader-Backhoe build-up assemblies shall be delivered with the Tractor.

WARRANTY OF UNIT

A submission of a bid in response to this invitation shall constitute the bidder's warranty of the unit offered, which shall include the manufacturers one-year service and warranty policy.

DELIVERY REQUIREMENTS

Complete printed literature, specifications, publications, and photo of unit proposed must be included with each bid.

The bidder shall specify the method of delivery.

Each bidder shall specify delivery date which shall be not more than 30 working days from the date of the order.

Delivery shall be made to the City of Newberg 500 West Third Street, Newberg, after all "make ready" services have been performed.

TRADE-IN

Trade-in unit will be the City owned 1969 Case Tractor with Backhoe/Loader.

Trade-in unit may be viewed at the City shop by contacting Hal Turpen, 538-9421.

All bids shall be net after Federal Taxes are deducted.

Specifications

580C Tractor

Construction King

ENGINE

Make and model	Case G207D diesel
Fuel	No. 2 diesel
Number of cylinders	4
Bore and stroke	4" x 4.125" (101.6 mm x 104.8 mm)
Displacement	207 in ³ (3392 cm ³)
Electrical system	12V
Battery	(2) 6V
Alternator	42 amp
Compression ratio	16.5 to 1
Fuel induction	Injectors
Fuel supply	Injection pump
Air cleaner	Dry type-replaceable element
Oil filter—full flow	Replaceable cartridge
Lubrication	Positive pressure
Cooling system	Pressurized—4 psi (0.28 kPa)
Horsepower	

Power shuttle	
(1) Mfg. rated	.62 @ 2100 rpm (46.23 kW @ 2100 r/min)
(2) SAE net	.55 @ 2100 rpm (41.01 kW @ 2100 r/min)
Dry clutch	
(1) Mfg. rated	.57 @ 2100 rpm (42.50 kW @ 2100 r/min)
(2) SAE net	.50 @ 2100 rpm (37.28 kW @ 2100 r/min)
Power shuttle	
(1) Mfg. rated	.163 @ 1300 rpm (221 Nm @ 1300 r/min)
(2) SAE net	.153 @ 1300 rpm (207 Nm @ 1300 r/min)
Dry clutch	
(1) Mfg. rated	.147 @ 1400 rpm (199 Nm @ 1400 r/min)
(2) SAE net	.137 @ 1400 rpm (185 Nm @ 1400 r/min)

- (1) Manufacturer's rating of maximum engine horsepower or torque at flywheel when equipped with oil and water pumps. Fuel set at maximum quantity for this application. Corrected to sea level 29.92" (760 mm) Hg and 60°F (16°C) dry air.
- (2) SAE net flywheel horsepower or torque of engine as applied to this vehicle when equipped with operating accessories including oil and water pumps, alternator, air cleaner, fan and muffler. Corrected to 500' (152.4 m) altitude with .38" (10 mm) Hg vapor pressure 29.38" (746 mm) Hg observed barometer and 85°F (29°C) per SAE J816a specifications.

POWER TRAIN

Standard transmission: 8-speed synchronized sliding spur gear with dual range lever and synchronized shuttle shift. Permits on-the-go shifting up from 2nd to 3rd to 4th and down from 4th to 3rd in both Hi and Lo ranges.

Optional transmission: 4-speed sliding spur gear with full power shuttle and torque converter. Permits on-the-go shifting up from 2nd to 3rd to 4th and down from 4th to 3rd.

Clutch: Foot-operated, mechanical, single plate, dry disc, 11" (279.4 mm) diameter with ferrometallic lining (not on torque converter models).

Torque converter: Single-stage hydrokinetic type (2.53 to 1 ratio) — optional. Reversing unit: Standard — synchronized sliding gear (manual). Optional — full power (hydraulic clutches).

Brakes: Individual or simultaneous foot-actuated, hydraulic self-adjusting, 6.5" (165 mm) bands and disc with over-center type parking brake.

Differential lock.

FRONT AXLE RATING

Dynamic	44,000 lbs (19 958 kg)
Static	11,500 lbs (5216 kg)

REAR AXLE RATING

Dynamic	54,000 lbs (24 494 kg)
Static	13,500 lbs (6123 kg)

STEERING

Power steering	Hydrostatic
Turning ratio (stop to stop)	2-3/4 turns
Cylinders — two, double acting	1.5" dia x 6.5" stroke (38.1 mm dia x 165.1 mm stroke)

CAPACITIES

Cooling system	5.25 gal (19.8 liters)
Fuel tank	22 gal (83 liters)

TRACTOR STANDARD EQUIPMENT

Anti-freeze solution to -20°F (-29°C). Heavy-duty front axle with fixed tread of 59" (1499 mm). Dry type replaceable cartridge air cleaner. Heavy-duty clutch. Swinging drawbar, 12-volt electrical system. Case G207D diesel. Rear fenders. Full flow oil filter. Floor plates. Front wrapper and heavy-duty grille. Gauges and instruments: condition light for loader and backhoe hydraulic system filter, converter temperature gauge (power shuttle tractor), fuel level gauge, temperature gauge, hourmeter, engine speed indicator (tachometer), engine oil pressure warning light, alternator indicator light, air cleaner restriction light. Illuminated instrument cluster. ROPS canopy with two shock-mounted headlights and combination rear working and red tail light. Up-right oval muffler with deflector. Deluxe easy-ride seat. Hydrostatic steering. Hand and foot throttles, 14.9 x 24, 6PR, R4 Utility Traction tread rear tires, 7.50 x 16, 10PR, L1 front tires. Tool box. 8-speed mechanical shuttle transmission with clutch.

OPTIONAL EQUIPMENT

ROPS cab with seat belt. Anti-freeze to -40°F (-40°C). Engine side panels. Lock-up kit. Horn. Combination tail, stop, directional lights with flasher attachment. 23 hp (17.15 kW) 540 rpm (540 r/min) hydrostatic PTO with 6 tooth SAE 1.375" (35 mm) shaft. Front end weights. Modular 3-point hitch. Noise suppression kit. 4-speed power shuttle with torque converter. Back-up alarm. SMV emblem. Spark-arresting muffler. Cold weather starting aid. Arm rest. Rotating beacon. Heater and defroster. Special paint. Junior Road King seat.

Turning clearance circle — brake turn	31'4" (9550 mm)
— without brakes	33'2" (10 109 mm)

Ground clearance (at backhoe main frame) 10.5" (267 mm)

Width of dozer cutting edge 6'9.3" (2065 mm)

Maximum clam opening 3'1.3" (947 mm)

Moldboard height 2'10.5" (876 mm)

NOTE: Specifications taken with 7.50 x 16, 10PR, (L1) Rib front tires, 14.9 x 24, 6PR, (R4) Utility Traction rear tires, 4-in-1 bucket, ROPS canopy 14' (4267 mm), backhoe w/24" (610 mm) trenching bucket and standard equipment.

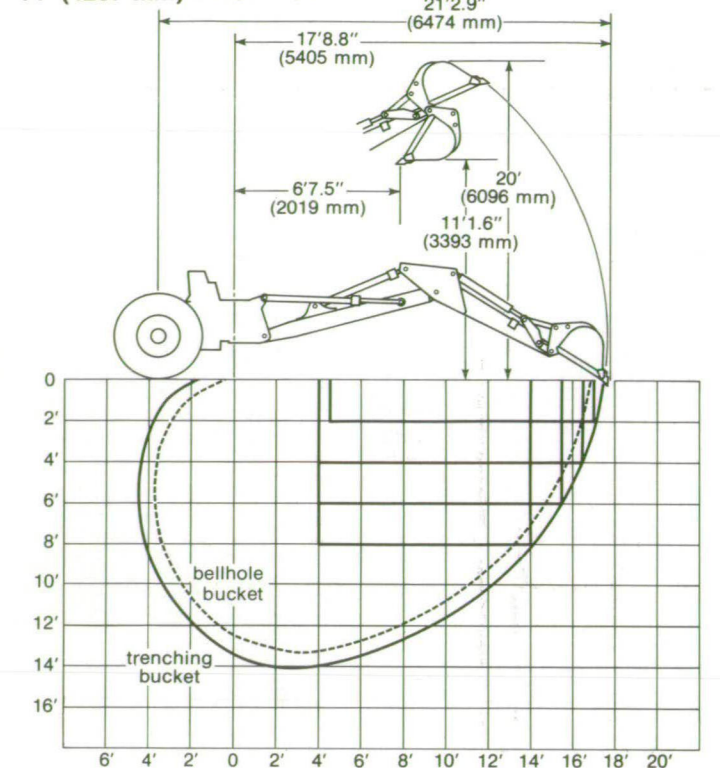

LOADER MODEL STANDARD EQUIPMENT

All tractor standard equipment with fixed disc wheels (no drawbar) plus loader (less bucket) and hydraulic system complete. Hydraulic-leveling. Single lever control. Return-to-dig. Bucket position gauge.

LOADER MODEL OPTIONAL EQUIPMENT

All tractor optional equipment plus: Rear counterweight. Bucket teeth. Backfill blade. Pallet forks. Accessory hydraulics.

14' (4267 mm) BACKHOE

580C CONSTRUCTION KING WITH LOADER AND 14' (4267 mm) BACKHOE OPERATIONAL DATA

Overall reach from rear axle centerline	21'2.6" (6467 mm)
Digging radius from swing pivot	17'8.5" (5398 mm)
Digging depth — SAE	14'2.2" (4523 mm)
Loading height	11'1.6" (3393 mm)
Loading reach	6'7.5" (2019 mm)
Swing arc	180°
Bucket rotation — #1 position	166°
— #2 position	151°

Stabilizer spread in operating position	9'1.5" (2781 mm)
— angled	9'5" (2870 mm)
Stabilizer spread in transport position	6'11.8" (2128 mm)
— angled	7'9.2" (2367 mm)
Stabilizer angle from straight position	20°
Digging force, bucket cylinder, SAE	9732 lbs (43 290 N)
Digging force, dipper cylinder, SAE	5549 lbs (24 683 N)
Leveling angle (maximum grade on which the backhoe will make a vertical cut)	12°
— stabilizers angled	13°
— stabilizers straight	13°

14' (4267 mm) BACKHOE DIMENSIONS

Overall height, maximum	20' (6096 mm)
Transport height	11'2.5" (3416 mm)
Overall width—transport position	6'11.8" (2128 mm)
— stabilizers angled	7'9.2" (2367 mm)
— stabilizers straight	6'11.8" (2128 mm)
Overall length — transport position	21'10" (6655 mm)
— short lip bucket	22'3.1" (6784 mm)
— long lip bucket	22'6" (6721 mm)
Ground clearance at backhoe main frame	10.5" (267 mm)
Angle of departure	22°

580C WITH 14' (4267 mm) BACKHOE APPROXIMATE SHIPPING WEIGHTS (less buckets)

207D diesel — power shuttle	10,185 lbs (4620 kg)
207D diesel — dry clutch	10,185 lbs (4620 kg)

NOTE: Specifications taken with 24" (610 mm) trenching bucket, 74" (1880 mm) short lip loader bucket, 7.50 x 16, 10PR, (L1) Rib front tires, 14.9 x 24, 6PR, (R4) Utility Traction rear tires, ROPS canopy and standard equipment unless otherwise specified.

580C BACKHOE HYDRAULIC SYSTEM

One basic hydraulic system serves both loader and backhoe. For complete details, see loader section.

Backhoe cylinders: Stabilizer (2) 4" dia x 19.4" stroke, 2" rod (102 mm dia x 503 mm stroke, 51 mm rod)

Swing (2)	4" dia x 11.2" stroke, 2" rod (102 mm dia x 285 mm stroke, 51 mm rod)
Boom (2)	3.2" dia x 42.1" stroke, 1.75" rod (83 mm dia x 1069 mm stroke, 44 mm rod)
Dipper (1)	4" dia x 35.12" stroke, 2" rod (102 mm dia x 892 mm stroke, 51 mm rod)

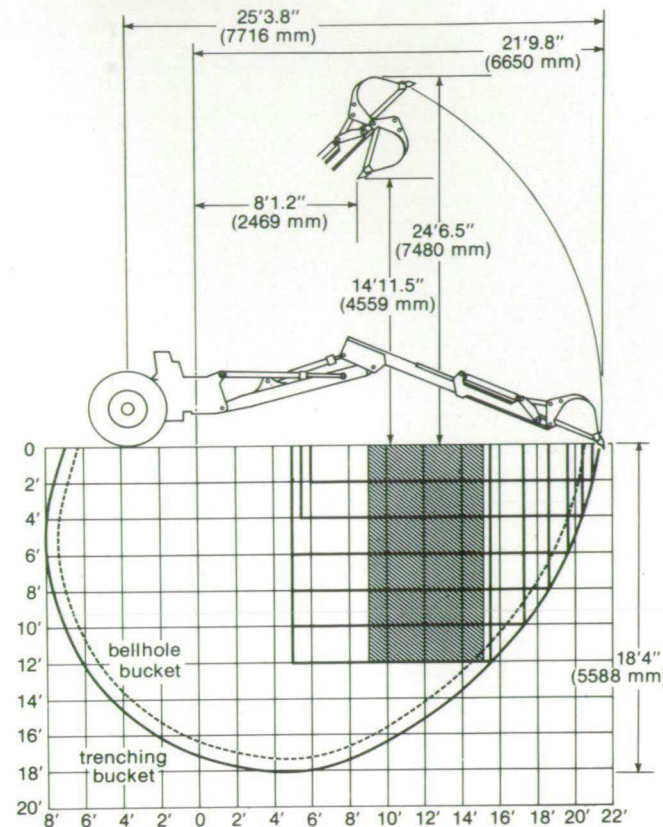

Backhoe controls: Sectional valve with four spools — boom, dipper, bucket and swing. Foot swing or hand swing (optional), regeneration and hydraulic cushioned swing stops.

Mono-cast, two spool valve for stabilizers with pilot check valves.

BACKHOE BUCKETS

BACKHOE CYLINDERS

Backhoe	
Stabilizer (2)	4" dia × 19.4" stroke, 2" rod (102 mm dia × 503 mm stroke, 51 mm rod)
Swing (2)	4" dia × 11.2" stroke, 2" rod (102 mm dia × 285 mm stroke, 51 mm rod)
Boom (2)	3.2" dia × 42.1" stroke, 1.75" rod (83 mm dia × 1069 mm stroke, 44 mm rod)
Dipper (1)	4" dia × 35.12" stroke, 2" rod (102 mm dia × 892 mm stroke, 51 mm rod)
Bucket (1)	3.5" dia × 30.6" stroke, 2" rod (89 mm dia × 777 mm stroke, 51 mm rod)
Dipper Extension (1)	3" dia × 48" stroke, 1.5" rod (76 mm dia × 1219 mm stroke, 38 mm rod)

EXTENDAHOE STANDARD EQUIPMENT

All tractor standard equipment with fixed disc wheels. Loader (less bucket) with single-lever control, return-to-dig and bucket position gauge. Hydraulic telescoping Extendahoe (less bucket). Complete hydraulic system including three-lever, foot swing backhoe control. Quick-disconnect mounting. Single, turn around seat. Cleated stabilizers. Front counterweight.

EXTENDAHOE OPTIONAL EQUIPMENT

Same as 14' (4267 mm) backhoe.

3-POINT MOD HITCH OPERATIONAL DATA

Cylinders:	
Lift (1)	3" dia × 8.4" stroke, 1.5" rod (76 mm dia × 214 mm stroke, 38 mm rod)
Tilt (1)	2.5" dia × 6.31" stroke, 1.25" rod (64 mm dia × 160 mm stroke, 32 mm rod)
Pitch (1)	2.5" dia × 7" stroke, 1.25" rod (64 mm dia × 178 mm stroke, 32 mm rod)

MOD HITCH HYDRAULICS

3-point Hitch: Sectional valve with four spools — lift, tilt, pitch and auxiliary. This is a pressure compensated valve with a detented "float" position in the lift spool. The main relief valve in this valve is adjusted lower than loader system pressure. (Optional lock check and globe valve kit.)

MOD HITCH APPROXIMATE SHIPPING WEIGHTS

Rear counterweight	1495 lbs (678 kg)
3-point hitch	708 lbs (321 kg)

Extendahoe and Construction King are trademarks of J I Case Company.

NOTE: All specifications are stated in accordance with ICED Definitions or SAE Standards or Recommended Practices, where applicable.

Important

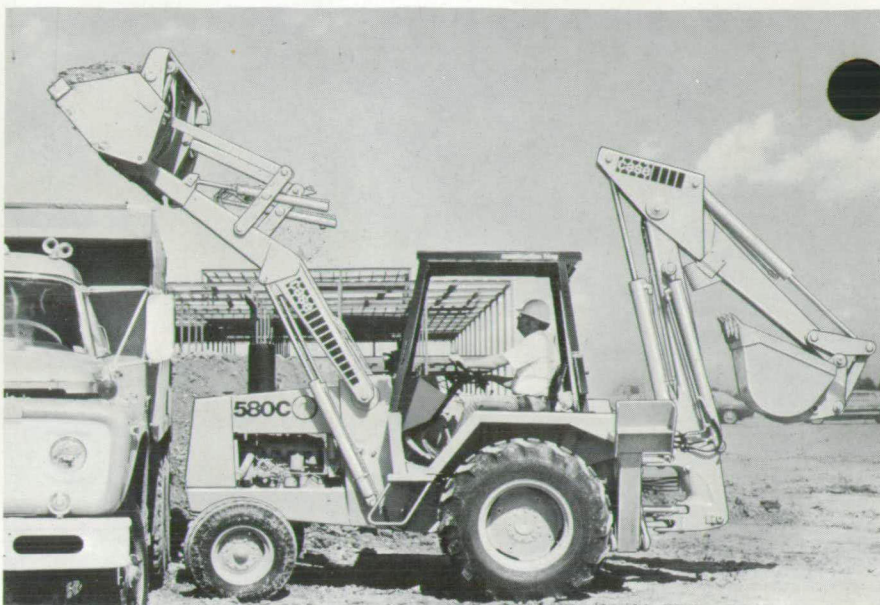

J I Case Company reserves the right to change these specifications without notice and without incurring any obligation relating to such changes.

14'-18' (4267 mm - 5486 mm) telescoping Extendahoe provides up to 4' (1219 mm) of extra reach and dig depth.

Case 3-point Mod Hitch increases job opportunities.

Self-leveling loader keeps payloads moving.

14' (4267 mm) backhoe speeds excavating and truck loading cycles.

Sold and serviced by:

A. C. HAAG & COMPANY
1665 Silverton Rd. N.E.
P. O. Box 7166
Salem, Oregon 97303

580C
Construction
King

55 (41 kW) SAE NET HORSEPOWER

Case-built 207 in³ (3392 cm³) high-torque diesel.

CHOICE OF TWO SYNCHRONIZED TRANSMISSIONS

8-speed mechanical shuttle or optional 4-speed with full power shuttle and torque converter.

CHOICE OF BACKHOES

14' (4267 mm) backhoe or 14'-18' (4267 - 5486 mm) telescoping Extendahoe. Over-center backhoe transport position for stability in loading and roading.

4,700 LB (2132 kg) SELF-LEVELING LOADER

Single lever controls bucket rollback, lift, dump, lower, float and return-to-dig.

UNITIZED MAIN FRAME

Absorbs heavy shock loads, maintains power train alignment, simplifies servicing.

COMPONENTIZED POWER TRAIN

Permits servicing of individual components without disturbing the rest of the drive line.

OPERATOR CONVENIENCE

Roomy work platform, sloping hood and grille, and 6-way adjustable seat improve visibility and operating efficiency.

Unit shown is equipped with non-standard items.

THIS QUOTATION IS SUBJECT TO THE FOLLOWING CONDITIONS OF SALE AND TRADE CUSTOMS

Stenographic and clerical errors subject to correction.
All prices subject to change without notice.
Prices F.O.B. point of origin unless otherwise specified.
Quotations are made for immediate acceptance unless otherwise specified.
All orders are subject to approval by our Credit Department.
We are not responsible for delay in delivery subject to strikes, accidents, or other causes unavoidable or beyond our control.
Where date of delivery is given, we will endeavor to ship as near the date as possible.
We will not be held responsible for any loss or inconvenience caused by over-due or non-delivery. All orders are taken with the distinct understanding that the provisions of this notice are agreed to and fully understood.

Orders entered in our books, including those for special goods, cannot be countermanded except with our consent and upon terms that will indemnify us against any loss.
Claims for corrections, reductions or shortage must be made within ten days after receipt of goods. No goods are to be returned unless our consent has first been obtained.
No charges for labor or expense required to repair defective goods, or occasioned by them, will be allowed. If the goods are defective, the measure of the damage is the price of the defective goods only.
Goods are shipped at purchaser's risk. We are not responsible for delays of carriers, damage to goods in transit, or any loss after shipment has been received and receipted for by carrier as in good order. If goods are received in a damaged condition, your recourse is against the transportation company and not against us.

1. Flusher Bids ---

Balzer Pacific Equipment	No Bid?
Columbia Equipment Inc.	\$43,514.00
Layton Sales & Supply	
(Does not meet specs)	\$39,995.00
Butler Chevrolet Co. Cab/Chassis	19,440.63
Less: freight del. Minneapolis,	<u>303.00</u>
Minnesota	\$19,137.63

To accept Columbia Equipment bid on Flusher without cab/chassis

Cost	\$22,214.00
Factory Delivery Less:	<u>1,650.00</u>
	\$20,564.00

Total cost of flusher - f.o.b. Minneapolis
 Estimated cost of City employee to take delivery
 and drive to Newberg

	<u>600.00</u>
Total Cost	\$40,301.63

The budget provides \$27,500 - to purchase must appropriate additional \$12,800.

2. Sludge Disposal ---

Cost of cleaning and sludge disposal from old accumulation
 and contaminated sludge ----- \$20,527.50.

We had appropriated additional funds to cover costs in year
 ending 6/30/79. However all costs were not accumulated until 7/30/79.
 Carried over unexpended balance 6/30/79 of \$16,008.98. Need to
 appropriate \$15,500 to cover additional costs for this year.

3. Truck Route ---

3-1-79 Committee approved Engineers recommendation on truck
 route - to send out letters for voluntary compliance. (Letters and
 map sent to MacPhee and Garbage Haulers)

4-18-79 Report to committee on use of truck route.

8-1-79 Report to Committee on truck route. Suggested Council
 fo on record approving route.

8-6-79 Council passed motion - approve voluntary truck
 route as approved and recommended by PW Committee.

9-4-79 Council passed motion - refer to PW Committee for
 consideration and firm policy recommend to Council.

Maps sent show empty trucks using River Street to 99W and loaded
 trucks using the East route on Springbrook St. to 11th St. -- This
 splits traffic 50/50 except Publisher trucks which use the East
 route almost 100%.

3. Meeting date - Noon with Publisher Paper Co.

4. Insurance Services ---

Survey to be conducted the last part of February.

5. Bids for #5 Well.

6. Land Acquisition for Well.

9/7/79

Newberg, OR 97132

Gentlemen:

We are listing the optional equipment we are including in our bid:

- 1 - Model W7N042 Tilt Cab & Chassis
Freight to Newberg, Oregon
12,000 lb. front axle
22,000 lb rear axle
145" wheel base - 120" back of cab to axle
12,000 lb Front Springs
23,000 lb Rear Springs
427 Cu In V-8 Motor
Allison MT653 Automatic 5 Speed Transmission
power steering
Air Brakes
12 Cu. Ft. Compressor
70 AMP Delcotron
12 Volt Delco Freedom 4000 Watt Battery
7 20X7.5 5° - 10 Hole Budd Disc Wheels
7 10.00X20 - 14 Ply Highway Tires
50 gallon Tank
6" x 16" West Coast Mirrors
Oil pressure gauge
Ammeter Gauge
Dual Padded Visors
7.17-1 Rear Axle
Frame Reinforcement - Outside inveted "L"
Drivers's Seat - GM Bucket
Paint color - Wheatland Yellow
GVW - 33,200 lb.
Delivery time Approximately 90 to 120 days after
order is received.

Sincerely yours,

BUTLER CHEVROLET COMPANY

POWER OF ATTORNEY

SAFECO INSURANCE COMPANY OF AMERICA
HOME OFFICE: SAFECO PLAZA
SEATTLE, WASHINGTON 98185No. 5552

KNOW ALL MEN BY THESE PRESENTS:

That **Safeco Insurance Company of America**, a Washington corporation, does hereby appoint

-----ROGER H. BERRY; SANDRA M. BURKEY; DAVID M. NEHER, Portland, Oregon-----

its true and lawful attorney(s)-in-fact, with full authority to execute on behalf of the company fidelity and surety bonds or undertakings and other documents of a similar character issued by the company in the course of its business, and to bind **Safeco Insurance Company of America** thereby as fully as if such instruments had been duly executed by its regularly elected officers at its home office, in amounts or penalties not exceeding the sum of:

~~TWO HUNDRED FIFTY THOUSAND AND NO/100~~ DOLLARS (\$ 250,000.00)

IN WITNESS WHEREOF, **Safeco Insurance Company of America** has executed and attested these presentsthis 13th day of April, 1978
W. D. HAMMERSLA, SECRETARY
GORDON H. SWEANY, PRESIDENT

CERTIFICATE

Extract from the By-Laws of **Safeco Insurance Company of America**:

"Article VI, Section 12. - FIDELITY AND SURETY BONDS . . . the President, any Vice President, and the Secretary shall each have authority to appoint individuals as attorneys-in-fact or under other appropriate titles with authority to execute on behalf of the company fidelity and surety bonds and other documents of similar character issued by the company in the course of its business . . . On any instrument making or evidencing such appointment, the signatures may be affixed by facsimile. On any instrument conferring such authority or on any bond or undertaking of the company, the seal, or a facsimile thereof, may be impressed or affixed or in any other manner reproduced; provided, however, that the seal shall not be necessary to the validity of any such instrument or undertaking."

Extract from a Resolution of the Board of Directors of
Safeco Insurance Company of America adopted July 28, 1970

"On any certificate executed by the Secretary or an assistant secretary of the Company setting out,
(i) The provisions of Article VI, Section 12 of the By-Laws, and
(ii) A copy of the power-of-attorney appointment, executed pursuant thereto, and
(iii) Certifying that said power-of-attorney appointment is in full force and effect,
the signature of the certifying officer may be by facsimile, and the seal of the Company may be a facsimile thereof."

I, W. D. Hammersla, Secretary of **Safeco Insurance Company of America**, do hereby certify that the foregoing extracts of the By-Laws and of a Resolution of the Board of Directors of this corporation, and of a Power of Attorney issued pursuant thereto, are true and correct, and that both the By-Laws, the Resolution and the Power of Attorney are still in full force and effect.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the facsimile seal of said corporation

this 11th day of October, 1979
W. D. HAMMERSLA, SECRETARY

CALL FOR BIDS
--STREET FLUSHER--

Sealed bids will be received at the office of the City Administrator, City of Newberg, 414 E. First Street, Newberg, Oregon 97132 until, but no later than 2:00 P.M., September 11, 1979 for furnishing 1850 gallon street flusher and/or chassis, at which time they will be publicly opened and read.

Specifications may be obtained from the office of the City Administrator, 414 E. First Street, Newberg, Oregon, 97132.

Attention is called to all provisions of the Oregon Revised Statutes, Chapter 279, Public Contracts and Purchasing and City of Newberg Ordinance No. 1793, Contract Purchasing Procedures.

No proposal will be considered unless accompanied by a bid proposal deposit in the form of cashier's check, money order, or surety bond, payable to the City of Newberg, for a sum not less than ten percent (10%) of the amount of the bid. Checks and money will be returned to all unsuccessful bidders upon completion of the award of the contract or the rejection of the bids.

The City reserves the right to reject any or all bids. No bidder may withdraw his bid after the hour set for opening thereof, or before award of the bid, unless said award is delayed for a period exceeding thirty days.

M. C. GILBERT
City Administrator
City of Newberg, Oregon

SPECIFICATIONS - STREET FLUSHER
CITY OF NEWBERG, OREGON

GENERAL:

It is the intent of these specifications to describe a Street Flusher in sufficient detail to secure bids on comparable equipment. All parts not specifically mentioned, which are necessary in order to provide a complete Flusher, shall be included in the bid and shall conform in strength, quality of material and workmanship to what is usually provided the trade in general.

Any units not conforming to these specifications as outlined in this invitation will be rejected, and it will be the responsibility of the bidder to conform to the requirements unless deviations have been cited in the bid and acceptance made on that basis.

I. FLUSHER

CAPACITY:

Tank to have minimum capacity of 1850 U. S. Gallons.

TANK:

The cross section of the tank is to be oval or elliptical, with the longer axis horizontal. The material used to be grade "A" tank steel; bottom section of tank and heads to be minimum 7 gauge, upper section minimum 12 gauge, surge plates minimum 10 gauge. (If tank size is 2000 gallon or larger, specify 10 gauge upper section in place of 12 gauge.) All seams to be electrically welded. Entire tank to be prime coated outside, and interior treated with No-Oxid-A., or equal, corrosion retarder. The tank shall be designed so as to give proper load distribution on the truck.

Heads are to be convex, dished or flanged and reinforced. A sufficient number of surge plates shall be built inside the tank, not more than 40" apart (between surge plates and/or heads) so as to minimize surging of water. Surge plates shall have a crawl hole of adequate size to permit a man to pass through, and sufficient additional holes to allow free flow of water to provide complete draining of the tank. Crawl holes shall be staggered.

The tank filling intake shall be 2-1/2" pipe size, located at the top rear of tank. A 4" O.D. x 30" long 18 gauge brass cylindrical strainer shall be provided, mounted in a 4" standpipe with cleanout at bottom of tank. Strainer shall be easily removable from top of tank for cleaning.

A manhole of minimum of 18" diameter is to be provided at the top of the tank, having quick opening, with gasket, constructed to relieve when pressure in the tank reaches 5# per square inch.

An overflow pipe of 3" minimum diameter to be provided, on tank centerline, extending down through the bottom of the tank in such a location as to clear all truck members.

Tank to have 8" diameter sump, with 4" brass drain valve for cleanout or flooding catch basin, etc.

Tank to have float type overload indicator at top front of tank, visible to operator at hydrant, indicating when tank is 80% full.

TANK MOUNTING:

The tank shall be mounted on full length steel channel sills, welded thereto, to provide even weight distribution over the entire truck frame. Tank shall be further mounted on a structural channel frame to support power pumping unit, skirting, etc. This shall be securely fastened to the truck frame by steel clips and bolts, with hardwood cushion strips between the truck frame and the Flusher sills.

PUMP:

The flushing pump shall be a single stage high pressure pump with a vertically split case, having a minimum 4" suction and 4" discharge ports. It shall have 14" diameter bronze fitted impeller. It shall be rated 750 GPM at 1750 RPM, and be capable of maintaining 60# pressure pumping 600 GPM at 1750 RPM with 4 nozzles operating. Pump shall be directly connected to the engine with a shock absorbing, self-aligning torque coupling to eliminate difficulties due to a mis-alignment and shock. The interior of the pump shall be readily accessible for service without disturbing discharge connection.

ENGINE:

The pumping engine is to be six cylinder, valve in head, gasoline, water cooled, minimum 240 cubic inch displacement, rated 89 gross BHP at 2000 RPM. Must be equipped with 12 volt electrical system, separate starter, alternator and battery, automotive type muffler for quiet operation, velocity type governor, full pressure lubrication and full flow oil filter. Flushing engine controls, including throttle, choke, starter, oil pressure gauge and temperature gauge, shall be mounted in truck cab.

NOZZLES:

There shall be provided 4 adjustable flushing nozzles. They shall be bronze, 2-piece, horizontally split, slot type, and adjustable swivel in three planes, lockable in position. Each nozzle shall have a capacity of 150 gallon per minute at 50# per square inch pressure. Two nozzles located midway between the truck wheels, one on each side, and 1 or 2 mounted at the front of the truck. Three nozzles standard - one in front and one on each side. Option: Four nozzles - two in front and one on each side.

PIPING:

All pipes are to be standard weight, wrought steel. All nozzle valves are to be remote controlled, or approved equal. Suction line to be welded steel pipe with flexible leakproof coupling to relieve vibration strains. Piping system to be equipped with petcocks to fully drain pump, valves and entire system.

GAUGES AND CONTROLS:

A water pressure gauge is to be located in the truck, in plain view of the driver, having a capacity of 160 PSI.

Controls to be as follows:

The discharge from each nozzle to be controlled by remote controlled globe type valve with cold water replaceable disc and built-in diaphragm to open and close valve, using air pressure

from truck air brake system. Truck to be equipped with air control system. There shall be a solenoid operated valve for each control valve. Each solenoid shall be operated by an electric toggle switch mounted in truck cab within easy reach of operator.

MISCELLANEOUS:

Lights- four electric clearance lights - one tail stop light.

Warning Lamp - Single 360° rotating amber lamp with 2 sealed beam lights. Mounted on cab roof.

MODEL:

SEMI-STREAMLINED MODEL - Engine and pump to be located at front of flusher tank behind truck cab, with quick removable steel canopy top covering entire pumping unit. Full length catwalks on each side of tank, non-skid tread steel plate, and fully skirted sides covering full fenders and understructure for pleasing appearance. Heavy duty all steel minimum 6" 8.2# channel bumper to afford maximum protection for rear of flusher.

MOUNTING:

Bids to include mounting of Flusher on customer's chassis at Flusher factory.

Flusher to be finish painted and lettered as follows:

PAINT: Color and specification: YELLOW
Inside tank to be painted with one coat of rust resistant
Outside of tank painted with one coat primer, and two coats of yellow.

LETTERING: Specification: CITY OF NEWBERG
9" on each side of unit.

OPITONAL EQUIPMENT: The following optional attachments and/or equipment may be included in the specification, if desired.

- (1) FOURTH FLUSHING NOZZLE - mounted at front of truck with same control as standard three nozzles, in truck cab.
- (2) FIRE FIGHTING ATTACHMENT - shall include one (1) 2 1/2" bronze gate valve on pump discharge line. Located at rear on fully stramlined models, and on right hand side on all other models.

MISCELLANEOUS:

Successful bidder shall include parts books and operating manuals. Warranty shall be for a period of one year from date of shipment against defective material and workmanship. Purchased components, such as engine and pump, shall carry manufacturer's warranty.

City Administrator
City of Newberg
414 East First Street
Newberg, OR 97132

Dear Sir:

SUBJECT: Street Flusher Bid
September 11, 1979 2:00 p.m.

Enclosed is our bid per your specifications with the following exceptions:

1. We are quoting on a 1,900 gallon Model S Etnyre Flusher mounted on a 1980 Ford Model C-800 truck.
2. The Etnyre Flusher is equipped with a hydrostatically driven water pump instead of an auxillary engine. It automatically maintains a constant water pressure regardless of the number of nozzles operating.
3. Piping will be a combination of steel pipe and high pressure rubber tubing for flexibility.
4. The unit will be fully streamlined with the water pump and hydraulic motor located at the rear. Since the tank is 90" wide, there will not be room for side catwalks.
5. Alternator will be 70 amp, not 80 amp requested.
6. Battery will be 68 amp not 70 amp requested.

We are bidding as a total unit only even though priced separately. The bid bond is enclosed.

Sincerely,

LAYTON SALES AND SUPPLY COMPANY

Robert L. Kent
General Sales Manager

An Executive Session
Of The City Council
12:00 Noon---September 25, 1979

The meeting was called to order and the rules and restrictions of an Executive Session were explained by Mayor Hall.

Roll Call:

Present - Maurice Chandler
 Roger Gano
 Jack Nulsen

Janet Nybakke
Tom Tucker

Absent - Alan Halstead
 Robert Hurford

Fred LaBonte

Staff Present - M. C. Gilbert, City Administrator
 Terry Mahr, City Attorney
 Clay Moorhead, City Planner
 Arvilla Page, Asst. City Recorder

Subject of Meeting: During pre-employment interview, Clay Moorhead was asked if he would move to Newberg. He agreed to do so verbally. He has not moved to Newberg and the question is whether he can be dismissed on the basis of his failure to do so.

Moorhead - Stated he advised the interview committee he would have to think about the residency requirement. He was told it was a requirement and that he would have six months to meet the requirement. He then advised that he would agree to the residency requirement. His income restricts housing options available to him. He looked for suitable, affordable housing in Newberg. A Farm Home loan was the only possibility and there is a long waiting list on the only Newberg Farm Home loans. He found property in Lafayette available with a Farm Home loan. He was asked by the Administrator if he had moved about 3 days after he had made an earnest money commitment on the Lafayette property. He advised Mr. Gilbert that he had made the earnest money commitment. Mr. Gilbert stated he would have to think about the situation. Four to six weeks later he was issued a letter stating that he had until September 30, 1979 to move to Newberg and that his probation was extended to that date.

Robert Hurford now present.

Moorhead - He asked Mr. Gilbert if he could appeal the decision and was advised that he could not. He then went to the Personnel Rules and found there was no authority vested in the Administrator, Mayor or a committee of the Council to extend a probationary period and there are appeal procedures for personnel if they have been with the City for a six months period. He checked the ordinances and could find no requirement that he move into the City and that he did have appeal rights. The City Attorney advised that he write some letters at that time. He wrote a letter back to the City Attorney asking certain questions that he wanted clarified in writing. On September 19, 1979, he was again asked by Mr. Gilbert if he had moved into the City. He told him he had not and asked if he was going to proceed. Mr. Gilbert informed him he had no other alternative than to terminate him effective as of the date stated in the letter, September 30, 1979. At that point Mr. Moorhead wrote the letter which the Council has. Mr. Moorhead stated further that his questions to the Administrator have not been answered adequately. There is no written requirement that he reside in Newberg, he does have appeal rights and the Administrator does not have the

authority to fire department heads. The Planner's interest are professional and it is not necessary for the Planner to live inside the City.

City Attorney - The Council has not adopted a residency requirement. Other personnel have been required to reside in the City. The requirement was made by a minority of the Council, the interview committee. Residency requirements have been upheld by the Supreme Court, but in each case the governing body had adopted the residency requirement. Residency is not mentioned in the Personnel Rules adopted by the Council.

Nulsen - Was on the interviewing committee. He stated it was not required for employment but the applicant was asked and stated his willingness to move to Newberg.

Tucker - Not everyone financially able to make a move.

Nybakke - Asked what part does residency have on job performance.

Gano - Some fire districts have dropped residency requirements.

Chandler - Even tho residency is not a requirement, Mr. Moorhead was asked and he gave his word. A City Planner should live in the City. The Council should support the Administrator as Mr. Moorhead has broken his word.

Moorhead - In making the commitment to move, he was not able to foresee the rapidly rising market level. At his income level he cannot qualify for a conventional loan. All the Farm Home Loan properties in Newberg were committed. He agreed that he did give his word but he had earnestly looked in Newberg. Because of the rapidly rising price of property he felt he had to buy now if possible and he could not buy in Newberg. He asked if the City Attorney had advised the Administrator that he could require residency.

City Attorney - Because the residency requirement matter had been tabled by the Council, the interview committee did not have the authority to require residency. Mr. Moorhead's letter of appointment did not state residency. Other letters of appointment have stated the residency matter.

Hurford - Asked whether the memorandum is based on hearsay or on research.

City Attorney - The memorandum to the Interview Committee is based on research. The letter of January 3, 1979 to the Personnel Committee is based on conversations with the Administrator.

City Administrator M.C. Gilbert - Mr. Moorhead was asked specifically if he would move to Newberg. He stated he would think about it. He called back and stated he would move. The selection was down to two people and the selection was based on a little more experience and Mr. Moorhead's assurance that he would move to Newberg. The other applicant was a Newberg resident. He has contacted the Personnel Institute and they say conditions of employment do not need to be written.

Chandler - Mr. Moorhead was selected because he made the commitment to move to Newberg and had the most experience.

City Attorney - The Administrator has not been given written authority. Public employment is different than private. Written procedures, rules and regulations are needed. This is a problem that needs corrected.

City Administrator Gilbert - His office has been working on rules and regulations and it is nearly ready for the Personnel Committee. The ordinances on Personnel and City Administrator are in conflict.

Motion: Nulsen-Gano to adjourn the Executive Session of the Council. Carried unanimously by those present.

X

The issue before the Council today is the unwritten residency requirements for department supervisors. That is there has been no formal adoption of an ordinance or resolution to cover by the Council. However this requirement has been applied to each department supervisor, (Former City Planner, City Attorney and City Engineer) employed over past 3 years. The specific employee involved at this time is Clay Moorhead, City Planner, who was employed January 22, 1979.

Mr. Moorhead along with several other applicants were interviewed by the City Council members and the City Administrator. Each applicant was asked if he would move to Newberg if selected. In the final screening process Mr. Moorhead and one other applicant were chosen as finalist.

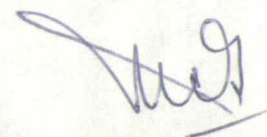

The Committee selected Mr. Moorhead as first choice, providing he would move to Newberg within six months. The second choice lived in Newberg. Mr. Moorhead at this time stated he would give the City his answer in a day or two. He later called the City Administrator from McMinnville; first asking if he could not be paid more salary. The answer was negative; secondly stated that he would move to Newberg. The City Administrator advised Mr. Moorhead he would be hired, at time date employment to begin was agreed on.

On or about June 18, 1979 the City Administrator asked Mr. Moorhead if he had found a residence in Newberg. Mr. Moorhead stated that costs in Newberg were to high, and that he had paid earnest money on a place in LaFayette. The City Administrator stated that this was not in very good faith as he had agreed to move to Newberg.

After consultation with Mayor Hall and several members of the Council the Administrator sent a memo to Mr. Moorhead on June 21, 1979 pointing out that his employment with the City was contingent on the fact that he establish residence within the City of Newberg within 6 months of employment as stated at time of interview. Also advising that his probationary status would be extended to September 30, 1979 in order to give him additional time to become a resident in Newberg. This was given in writing as well as verbal. Mr. Moorhead then asked, if on September 30th what would happen if he did not move to Newberg. The Administrator stated that there would be no alternative other than to let him go.

On September 20th the Administrator again discussed this matter with Mr. Moorhead at which time Mr. Moorhead asked a number of questions relative to same issues that were sent to the Mayor and Council on September 20th.

I would suggest the Council either adopt a firm policy for residence requirement of department supervisors, or a policy stating that there shall be no residency requirements for any city employees.

RESIDENCY REQUIREMENT FOR HEAD OF DEPARTMENTS

Residency has not been a condition of initial employment for employees of the City, except, however, department heads employed the past two or three years have agreed and been employed with the understanding that they would become a resident of Newberg within their six months probationary period.

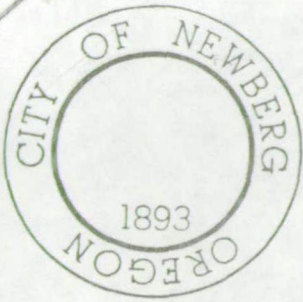

The question has been asked: Is this legal? Can the City require it?

There are several Cities in the State of Oregon that do have this requirement for all employees.----There has been several court decisions on this. Probably the last major one was by the U. S. Supreme Court in March 1976 when they ruled that the requirement of municipal employees to live within the city was legal.

An argument for this requirement, is the fact that these employees would have an interest in the City and be more motivated to work for a better city. Also they would be more readily available for emergency situations. Other reasons would contribute to tax revenues, enhance better public relations, volunteers more often for civic, charitable and health organizations that benefit the city. Living in the City does help better attendance at work.

Action requested:

Council to approve or repeal the policy now in effect to require all Department Heads and Administrators to become a resident within the City of Newberg before end of their probationary period. (Note: The probationary period may be extended up to one year by the Administrator.)

CITY OF
NEWBERG

414 E. First Street

Newberg, OR 97132

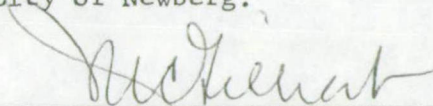

June 21, 1979

TO: Clay Moorhead

Your first six months of employment, which is also your probationary period as provided in the City's personnel policies will end July 22, 1979.

As Director of the Planning Department your employment with the City of Newberg was contingent on the fact that you establish residence within the City of Newberg within 6 months of your employment. It is my understanding that you have not established this residency as stated at time of your interview and employment.

This is to advise that your probationary status will be extended to September 30, 1979 in order to give you additional time to become a resident in the City of Newberg.

M. C. Gilbert - City Administrator

MCG/bjm

September 20, 1979

M. C. Gilbert
City Administrator
City of Newberg
414 East 1st Street
Newberg, OR 97132

Dear Mr. Gilbert:

Pursuant to your verbal notice terminating my employment with the City of Newberg effective September 30, 1979, I wish to formally notify you that I object to the notice of termination, the grounds for termination, and the procedures that you have used to do so.

You are hereby notified that I do not accept the notice of termination for the following reasons:

1. You have stated that I am to be terminated on the grounds that I have not taken residency within the City of Newberg. Pursuant to Ordinance 1730 Section 4b, any rules and regulations made by the City Administrator become effective only upon approval of the Council and filing in the office of the Recorder. There is no residency requirement that has been adopted by the City Council.

2. As City Administrator, you have no authority to administer personnel rules without formal adoption by the City Council. Ordinance 1730 Section 4j states that it is the City Administrator's responsibility to "see that all laws and ordinances are duly enforced." Section 4m of the above mentioned ordinance states that the City Administrator shall perform such duties as may be required by the Council, consistent with City charter, law or ordinance. The residency requirement that you are trying to enforce is not a charter provision, law or ordinance within the City, nor has the City Council authorized you to take this action.

3. As City Administrator you have no authority to fire or dismiss a department head. Ordinance #1730, Section 4a states that the City Administrator shall have the right to submit recommendations as to the removal of a department head to the City Council. This indicates that only the City Council has the authority to dismiss a department head subject to the requirements of "due process" applicable to a public employee.

For the foregoing reasons, I cannot accept your notice of termination, and I plan to continue working as Planning Director beyond September 30, 1979, which you have indicated would be my last day.

September 20, 1979

It is my urgent hope that after consideration of this letter, this matter can be resolved with you and the Council. I have enjoyed working as City Planner, and so far as I know, my service has been completely satisfactory. However, if you interfere with my public employment, without legal authority, I must reserve the right to adjudicate the question in Circuit Court, in which event I would have to join you as an individual with the City as a defendant, based upon willful and heedless action beyond your delegated authority. Surely this will not be necessary, and for the sake of morale and our working relationship, the question should be fully determined at this time.

Very truly yours,

Clay W. Moorhead

To: Newberg City Council

Dear Sirs:

The retail merchants of the Newberg Area Chamber of Commerce would like to once again request the meters be covered beginning on Saturday, December 1, 1979.

As was the case last year, our reasoning is to further our active "SHOP NEWBERG" Christmas program which gets into full swing with the annual Santa Parade on the first Saturday of December.

Your support was greatly appreciated last year, and we look forward to your continued support this year.

Sincerely,

Mikki Snell

STATEMENT OF TALLY SHEETS

For Special Election - October 2, 1979

This statement contains the name of the measure voted upon this 2nd day of October, 1979 the total number of votes cast for and against said measure and the number of defective ballots. The polling place was the Newberg Fire Station Building; Second and Howard Streets, Newberg, Oregon.

BALLOT TITLE OF MEASURE

BONDS FOR IMPROVEMENT TO WATER SYSTEM

Shall the City of Newberg, Oregon, contract a general obligation bonded indebtedness in the amount of \$2,700,000.00?

The City of Newberg engineered a Water Source Study. The study recommended a number of improvements to the City's water system with an estimated cost of \$2,700,000.00. The improvements would be construction of a new well, modification to existing wells, construction of a submarine transmission line, expansion of water treatment plant, slope stabilization at water treatment plant, distribution system improvements, demolition of Willamette River Bridge and any other necessary and desirable improvements.

(Mark (X) or (✓) in the square before the answer of your choice.)

☐ YES
☐ NO

We hereby Certify that at the above special City election and polling 224 votes were cast upon the above entitled measure. That of the said total votes, 133 votes were cast for said measure, and 91 votes were cast against said measure and there were 0 defective ballots.

An Executive Session
of the City Council

Council Chambers

Newberg, Oregon

The meeting was called to order by Mayor Elvern Hall.

Roll Call:

Present: Maurice Chandler Fred LaBonte
Alan Halstead Jack Nulsen
Robert Hurford

Absent: Roger Gano Tom Tucker
Janet Nybakke

Staff Present: M. C. Gilbert, City Administrator
Ernst Heister, City Engineer
Terry Mahr, City Attorney
Arvilla Page, Asst. City Recorder

Motion: Chandler-Halstead to go into Executive Session. Motion carried unanimously by those present.

Mr. Gilbert stated the City is negotiating with Cecil Smith for well site #5. The City had to condemn well site #4 from another property owner. Permission is requested to negotiate up to \$20,000 in hopes of avoiding condemnation proceedings.

The Council and staff discussed alternate locations for well #5 and reasons that it could not be drilled on the existing well sites. Site A would require control of the present roadway. Site B would cost more than site A to acquire.

Mr. Hurford suggested the City should buy more than one acre for future well sites.

Mr. Gilbert responded that the City is ready to let bids on the well now. Additional test wells would be required.

Mr. Chandler recommended buying enough land for 2 or 3 well sites. The next well will be needed in 2 years.

After further discussion of the benefits and limitations of various sites the Council instructed staff to negotiate for well site #5 and additional well sites up to \$35,000.

Motion: Nulsen-Halstead to adjourn the Executive Session. Carried unanimously by those present.

both the principal of and the interest upon the bonds payable at the office of the Recorder of the City of Newberg, Oregon, all in accordance with your published notice of sale, we will pay you at the rate of \$100.00 for each \$100 face value, together with accrued interest to date of delivery to us in Portland, Oregon.

On the basis of the above bid, the interest cost to the City is as follows:

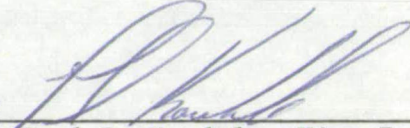

Coupon Interest Cost	<u>\$45,345.00</u>
Less Premium Bid	<u>-0-</u>
Net Interest Cost	<u>\$45,345.00</u>
Effective Interest Rate	<u>7.08516</u>

This bid is made for prompt acceptance only and for as prompt delivery of the bonds as they can be conveniently prepared and executed, but not later than 45 days from the date of sale, unless further extended by mutual agreement.

This bid is also made with the understanding that prior to our taking up and paying for the bonds, you will provide without cost to us the opinion of Messrs. Rankin, McMurtry, Osburn, Gallagher & VavRosky of Portland, Oregon, approving the legality of said bonds and the sale thereof, which opinion will be reproduced on each bond.

As evidence of good faith, we attach hereto our cashier's check #15384 dated October 19, 1979 for \$2,300.00 in favor of the City of Newberg upon the understanding that if said bonds are awarded and delivered to us in accordance with this bid, said check may be applied as part payment; otherwise, same is to be promptly returned to us.

Respectfully submitted,

By 

Fred C. Koudele, Vice Pres. and Manager

RE: \$115,000 City of Newberg, Oregon
Sewer Improvement Bonds

Gentlemen:

For the above legally issued bonds to be dated 12/1/79, and in accordance with the terms and conditions of the Notice of Sale of said bonds, we offer to purchase the above described bonds, maturing and bearing interest at the rates shown below, and to pay, therefor, \$ 100.00 for each \$100.00 par value of bonds, which is a total of \$ 115,000.00 and accrued interest to date of delivery.

<u>BONDS MATURING</u>	<u>INTEREST RATES</u>	<u>BONDS MATURING</u>	<u>INTEREST RATES</u>

(For Information Purposes Only)

Total Interest Cost to Maturity	\$ <u>46,125.00</u>
LESS: Premium (If Any)	\$ <u>- 0 -</u>
PLUS: Discount	\$ <u>- 0 -</u>
Net Interest Cost	\$ <u>46,125.00</u>
Effective Interest Rate	<u>7.20703</u> %

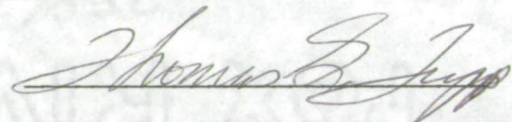

City of Newberg, Oregon
Page 2

This proposal, submitted in duplicate, is made subject to our being furnished, at the expense of the City, upon delivery of the bonds with the unqualified approving opinion of Rankin, McMurray, Osburn, Gallagher and VavRosky, bond counsel of Portland, Oregon. Said opinion will be reproduced on each of said bonds, also at the expense of the City.

In accordance with the terms of the Notice of Sale, there is enclosed a cashier's check for \$2,300.00, payable to the City of Newberg, Oregon. The proceeds of said check are to be applied on the purchase price of the bonds if this proposal is accepted, or if this proposal is accepted but not performed (unless such failure of performance shall be caused by any act or omission of the City) are to be retained by the City as liquidated damages. If this proposal is not accepted, said check is to be returned to us promptly after the award of the bonds to the successful bidder.

Respectfully submitted,

FOSTER & MARSHALL, INC.

11/14/79

2301 Haworth Ave.
Newberg, Oregon
November 14, 1979

Attention: City Traffic Control Manager

Dear Sir:

I am extremely worried and concerned about the dangerous intersection of Elliott Road and Haworth Ave. The neighborhood encompassing the Pool Park area has a great number of school age children. Now that the sidewalks on Haworth are being completed, more school children than ever will be walking to Mabel Rush. These Fall mornings with fog are especially treacherous for the walkers. Every morning some cars traveling Elliott stop and motion children across only to have cars coming the opposite way continue on causing children to start out into traffic and then run back in fear. Also the many school buses traveling between Mabel Rush and the High School are major cause of apprehension.

John N. Tixier, the State Department of Education's specialist for school safety programs has inspected the intersection on two separate occasions. He finds this particular problem absolutely horrendous and highly recommends:

1. a four-way stop
2. signs fore-warning a school crossing
3. well designated cross-walks
4. a crossing guard for the morning because of the high density of traffic traveling on Elliott Road.

I feel this problem warrants immediate action to prevent a needless accident and would appreciate your assistance in correcting it.

Sincerely yours,

Judy Elliott

Judy Elliott (Representative of the Superintendent's Parents
Advisory Board)
