

The next URA meeting with MFD in a room with the two parties is still set for July (discussing purchase of properties for MFD)

Wednesday the 26 of June, 2013 council meeting needs to be opened up for URA to hear the presentation from ECO northwest.

That's the only reason URA is being tapped on Wed , to hear what these folks have to say about the latest appraisals.

I've told Vince Stafford about this meeting Wednesday, so some members from MFD may be present Wednesday night, but we still have that meeting coming up in July.

One thing at a time. We'll have this on Wednesday night, and have some better data on the properties, so we can discuss intelligently with MFD next time.
