Hi Nancy and Bruce,

If you need to charge time for Von Logging, please use QCAT 50263.

Thank you,

Rachel

50263, it made me add a log number, so I added 36-23-0000.

Once there is an actual log number, we can change it

Managers are having me hold off on processing the new release until they talk to DOJ but we need to track our time.

Okay, that is good information to know. 😊

We are working on a LUST site for a couple of regulated tanks. We can call the site Von Logging for now since that is what is it currently listed at in the UST database.

The site location is: 17401 NW Panther Creek Road, Carlton OR 97111

We currently have two potentially responsible parties and are determining next steps before entering the site into LUST.

Let me know what additional information you might need.

Thank you!

Rachel

I can go back to 9/1. Workday really does not time changes

Send me the site info and what kind of project. We can set it up as SA if it is cleanup.

Hi Dawn,

We have been working on a site where we are trying to determine the responsible party. Are you able to set up a new QCAT number for us to tack our time? Is there any chance you can backdate the QCAT to August?

Thank you,

Rachel
