Hello Quinn and Andrew,

Thanks for the revisions you provided last week. In our final review we found a discrepancy between the zoning classifications in Table 4-8 and the 2017 Oregon State Zoning data. We've revised the Table 4-8 workbook, with the corrected zoning and exposure classifications listed in new Columns E and G (cells with updates are highlighted in yellow). Could you review the attached Table 4-8 and resubmit it with these changes incorporated if you are in agreement?

The changes include:

- Areas that are zoned Exclusive Farm Use (EFU) per the Oregon State Zoning data have been updated from "Acute" to "Residential" exposure classification if they were not already designated "Residential"; and
- Receptor ID #14213: we updated the classification from "child" to "residential" to be consistent with EFU zoning and note in column H.

The Oregon zoning map we used can be viewed and the shapefiles downloaded here:

https://tools.oregonexplorer.info/OE_HtmlViewer/Index.html?viewer=zoning.

Please submit the revised Table 4-8 by **Thursday 11/9/2023**, or let me know by Monday 11/6 if more time is needed. If you have questions about how we arrived at the updates, feel free to reach out to me or directly to Owen Rudloff (cc'd).

Thank you,

Julia DeGagné (she/her)
