Sent via email only

Quinn Burke-Anderson,

DEQ received a revised Cleaner Air Oregon (CAO) Risk Assessment Work Plan (Work Plan) on September 19, 2023, and a revised Modeling Protocol (Protocol) on November 3, 2023, for the Stimson Lumber Company (Stimson) in Gaston, OR. Stimson also submitted a revised Emissions Inventory (Inventory) on May 15, 2023, which contained minor corrections to the Emissions Inventory approved by DEQ on March 29, 2023. This letter serves as notice to you that DEQ has reviewed and approves the Inventory, Workplan, and Protocol.

The next step in the CAO process is to submit the Risk Assessment no later than **120 days** from the issuance of this letter, by March 6, 2024. [[OAR 340-245-0030\(1\)\(d\)\(ii\)](#)] Risk Assessment requirements are listed in [OAR 340-245-0050](#). If you have any questions, please contact me directly at (503) 866-9643 or julia.degagne@deq.oregon.gov, and I look forward to your continued assistance with this process.

Sincerely,

Julia DeGagné
Air Toxics Project Manager
